[Nineteenth-Century Transatlantic Reprinting and the Embodied Book](#) Professor Jessica DeSpain, 2014-09-28 Until the Chace Act in 1891 no international copyright law existed between Britain and the United States which meant publishers were free to edit text excerpt whole passages add new illustrations and substantially redesign a book's appearance In spite of this ongoing process of transatlantic transformation of texts the metaphor of the book as a physical embodiment of its author persisted Jessica DeSpain's study of this period of textual instability examines how the physical book acted as a major form of cultural exchange between Britain and the United States that called attention to volatile texts and the identities they manifested Focusing on four influential works Charles Dickens's American Notes for General Circulation Susan Warner's The Wide Wide World Fanny Kemble's Journal of a Residence on a Georgian Plantation and Walt Whitman's Democratic Vistas DeSpain shows that for authors readers and publishers struggling with the unpredictability of the textual body the physical book and the physical body became interchangeable metaphors of flux At the

same time discourses of destabilized bodies inflected issues essential to transatlantic culture including class gender religion and slavery while the practice of reprinting challenged the concepts of individual identity personal property and national identity
