The Urban Department Store in America, 1850-1930 Dr Louisa Iarocci, 2014-12-28 In the late nineteenth century the urban department store arose as a built artifact and as a social institution in the United States While the physical building type is the foundation of this comprehensive architectural study Iarocci reaches beyond the analysis of the brick and mortar to reconsider how the spaces of selling were culturally produced spaces as well as the product of interrelated economic social technological and aesthetic forces "The Urban Department Store in America, 1850-1930" Louisa Iarocci, 2017-07-05 In the late nineteenth century the urban department store arose as a built artifact and as a social institution in the United States While the physical building type is the foundation of this comprehensive architectural study Louisa Iarocci reaches beyond the analysis of the bricks and mortar to reconsider how the spaces of selling were culturally produced spaces as well as the product of interrelated economic social technological and aesthetic forces The agenda of the book is three fold to address the lack of a comprehensive architectural study of the nineteenth century department store in the United States to expand the analysis of the commercial city as a built and represented entity and to continue recent scholarly efforts that seek to understand commercial space as a historically specific and a conceptually perceived construct The Urban Department Store in America 1850 1930 acts as a corrective to a current imbalance in the historiography of this retailing institution that tends to privilege its role as an autonomous modern building type Instead Iarocci documents the development of the department store as an urban institution that grew out of the built space of the city and the lived spaces of its occupants

Space Regulation in Canada: Past, Present and Potential Aram Daniel Kerkonian,2021-03-24 Space is no longer the domain of national space agencies Today a significant majority of space activities are carried out by non governmental entities resulting in the accelerated evolution of space technologies and their applications This operational shift from public to private does not mean however that governments are no longer relevant in this era of New Space On the contrary as the operational role of the state has diminished its regulatory role has grown correspondingly Acknowledging that the commercial landscape in space is an ever changing one this book explores how the Canadian government has adapted to the new commercial space landscape and whether it is prepared to fulfil its authorisation and supervision responsibilities as the regulator of Canada s space industry The fundamental research question posed therefore is whether Canada s regulatory framework is appropriate given the increasing commercialisation of space To best answer this question the book provides a doctrinal analysis of Canada s historical space policy and current space laws an empirical survey of the perspectives of those currently interacting with Canada s regulatory framework and a comparative exploration of how other jurisdictions oversee commercial space activities Motivated by legal moral and economic considerations the book recommends that Canada enact a comprehensive national space law and provides an annotated draft law for this purpose By doing so the book intends to

spark a meaningful conversation on how Canada ought to fulfil its regulatory responsibilities a topic previously unaddressed in public and academic discourse **The Gentleman's House** Robert Kerr, 1865
