New Fourth Army Communist Resistance Along The Yangtze And The Huai 1938 1941:

New Fourth Army Gregor Benton,1999 This study looks at the first three years of the Chinese Communists New Fourth Army between the late spring of 1938 and January 1941 The New Fourth Army was no outgrowth or faithful copy of the senior and better known Eighth Route Army but a body with its own origins and history and with original features that make it highly interesting for historians This distinctiveness derived mainly from the background in the Three Year War 1934 1937 of the Communist guerrillas left behind in the south who set up the army but it also owed much to the unique political military and social environment that the army encountered in the lower Yangtze region where it first joined battle with the Japanese After the Wannan Incident of January 1941 in which its headquarters were destroyed the New Fourth Army began to look increasingly like the Eighth Route Army its more typically Maoist elder brother in the north The Wannan Incident led to a radical reorganisation of its detachments and the definitive realignment of its politics Thus transformed the older New Fourth Army engages less for its own intrinsic and distinctive nature than as a division subject only to circumstantial variation of the general movement of Chinese communism at war The Wannan Incident represented a turning point and in some respects a decisive break in the army s development and therefore forms a natural climax and finale to this study

New Fourth Army Gregor Benton,1999 An exhaustively researched and definitive study of the Communist New Fourth Army which drove the Nationalists from the mainland *New Fourth Army* Gregor Benton,2015-05-29 This study looks at the first three years of the Chinese Communists New Fourth Army between the late spring of 1938 and January 1941 The New Fourth Army was no outgrowth or faithful copy of the senior and better known Eighth Route Army but a body with its own origins and history and with original features that make it highly interesting for historians This distinctiveness derived mainly from the background in the Three Year War 1934 1937 of the Communist guerrillas left behind in the south who set up the army but it also owed much to the unique political military and social environment that the army encountered in the lower Yangtze region where it first joined battle with the Japanese After the Wannan Incident of January 1941 in which its headquarters were destroyed the New Fourth Army began to look increasingly like the Eighth Route Army its more typically Maoist elder brother in the north The Wannan Incident led to a radical reorganisation of its detachments and the definitive realignment of its politics Thus transformed the older New Fourth Army engages less for its own intrinsic and distinctive nature than as a division subject only to circumstantial variation of the general movement of Chinese communism at war The Wannan Incident represented a turning point and in some respects a decisive break in the army s development and therefore forms a natural climax and finale to this study **Intellectuals in Revolutionary China, 1921-1949** Hung-yok Ip,2004-11-23 This book originally examines how prominent communist intellectuals in China during the revolutionary period 1921 to 1940 constructed and presented identities for themselves and how they narrated their place in the revolution

Nanjing 1937 Peter Harmsen,2015-11-17 A true story of the Sino Japanese conflict A valuable account of a little known

event and a grim reminder of the darker side of war Military History Monthly The infamous Rape of Nanjing looms like a dark shadow over the history of Asia in the twentieth century and is among the most widely recognized chapters of World War II in China By contrast the story of the month long campaign before this notorious massacre has never been told in its entirety Nanjing 1937 by Peter Harmsen fills this gap This is the follow up to Harmsen s bestselling Shanghai 1937 Stalingrad on the Yangtze and begins where that book left off In stirring prose it describes how the Japanese Army having invaded the mainland and emerging victorious from the Battle of Shanghai pushed on toward the capital Nanjing in a crushing advance that confirmed its reputation for bravery and savagery in equal measure While much of the struggle over Shanghai had carried echoes of the grueling war in the trenches two decades earlier the Nanjing campaign was a fast paced mobile operation in which armor and air power played major roles It was blitzkrieg two years before Hitler s invasion of Poland Facing the full might of modern mechanized warfare China s resistance was heroic but ultimately futile As in Shanghai the battle for Nanjing was more than a clash between Chinese and Japanese Soldiers and citizens of a variety of nations witnessed or took part in the hostilities German advisors American journalists and British diplomats all played important parts in this vast drama And a new power appeared on the scene Soviet pilots dispatched by Stalin to challenge Japan s control of the skies This epic tale is told with verve and attention to detail by Harmsen a veteran East Asia correspondent who consolidates his status as the foremost chronicler of World War II in China with this path breaking work of narrative history

Mobilizing Shanghai Youth Kristin Mulready-Stone, 2014-11-27 In the late nineteenth and early twentieth centuries youth emerged as a new and important social force in many parts of the world In China the image of this new youth imprinted itself on Chinese consciousness and made clear to potential national leaders that future governments would not be able to ignore China s youth or expect them simply to step in line For this and other reasons the Chinese Communist Party CCP the Chinese Nationalist Party GMD and a string of War of Resistance era collaborationist governments all formed youth organizations in an effort to win youth over and harness their vitality and enthusiasm to further their agendas Mobilizing Shanghai Youth explores the similarities and differences among three youth organizations that were connected to Chinese political parties or governments in Shanghai spanning from the beginning of the May Fourth Movement just as youth began to emerge as a powerful social and political force in China to World War II when Nationalist Communist and Japanese forces were still competing for dominance It takes a comparative approach in exploring the similarities and differences trials and tribulations in how the Chinese Communist Party Chinese Nationalist Party and a series of collaborationist regimes sought to appeal to youth through the Communist Youth League the Three People s Principles Youth Corps and the China Youth Corps Focusing on Greater Shanghai allows a detailed exploration of the rise and fall of the original Communist Youth League and its connections to international communism The spotlight on Shanghai also yields the extraordinary finding that the Three People s Principles Youth Corps was a valuable asset to the Nationalist Party operating as a potent resistance organization in

Japanese controlled Shanghai whereas branches in Nationalist controlled territory were factionalized dysfunctional and a terrible liability for the Party Most surprisingly the collaborationist China Youth Corps took the most practical and in some ways the most successful approach to mobilizing China's youth The result of exhaustive archival research this book will be of huge interest to students and scholars of Chinese history modern history Communism and the role of youth in revolution

The Habitable City in China Toby Lincoln, Xu Tao, 2016-11-21 This book offers a new perspective on Chinese urban history by exploring cities as habitable spaces China the world's most populous nation is now its newest urban society and the pace of this unprecedented historical transformation has increased in recent decades The contributors to this book conceptualise cities as first providing the necessities of life and then becoming places in which the quality of life can be improved They focus on how cities have been made secure during times of instability how their inhabitants have consumed everything from the simplest of foods to the most expensive luxuries and how they have been planned as ideal spaces Drawing examples from across the country this book offers comparisons between different cities highlights continuities across time and space and in doing so may provide solutions to some of the problems that continue to affect Chinese cities today

East Wind Tom Buchanan, 2012-04-19 East Wind offers the first complete archive based account of the relationship between China and the British Left from the rise of modern Chinese nationalism to the death of Mao Tse tung Beginning with the Hands Off China movement of the mid 1920s Tom Buchanan charts the mobilisation of British opinion in defence of China against Japanese aggression 1931 1945 and the role of the British left in relations with the People's Republic of China after 1949 He shows how this relationship was placed under stress by the growing unpredictability of Communist China above all by the Sino Soviet dispute and the Cultural Revolution which meant that by the 1960s China was actively supported only by a dwindling group of enthusiasts The impact of the suppression of the student protests in Tiananmen Square June 1989 is addressed as an epilogue East Wind argues that the significance of the left's relationship with China has been unjustly overlooked There were many occasions such as the

mid 1920s the late 1930s and the early 1950s when China demanded the full attention of the British left It also argues that there is nothing new in the current fascination with China s emergence as an economic power Throughout these decades the British left was aware of the immense unrealised potential of the Chinese economy and of how China s economic growth could transform the world In addition to analysing the role of the political parties and pressure groups of the left Buchanan sheds new light on the activities of many well known figures in support of China including intellectuals such as Bertrand Russell R H Tawney and Joseph Needham Many other interesting stories emerge concerning less well known figures which show the complexity of personal links between Britain and China during the twentieth century

A Bitter Revolution Rana Mitter,2004-05-06 China is now poised to take a key role on the world stage but in the early twentieth century the situation could not have been more different Rana Mitter goes back to this pivotal moment in Chinese history to uncover the origins of the painful transition from a premodern past into a modern world By the 1920s the seemingly civilized world shaped over the last two thousand years by the legacy of the great philosopher Confucius was falling apart in the face of western imperialism and internal warfare Chinese cities still bore the imprints of its ancient past with narrow lanes and temples to long worshipped gods but these were starting to change with the influx of foreign traders teachers and missionaries all eager to shape China s ancient past into a modern present Mitter takes us through the resulting social turmoil and political promise the devastating war against Japan in the 1940s Communism and the Cultural Revolution of the 1960s and the new era of hope in the 1980s ended by the Tian anmen uprising He reveals the impetus behind the dramatic changes in Chinese culture and politics as being China s New Culture a strain of thought which celebrated youth individualism and the heady mixture of strange and seductive new cultures from places as far apart as America India and Japan

Tower of Skulls Richard B. Frank,2020-03-03 A sweeping epic Promises to do for the war in the Pacific what Rick Atkinson did for Europe James M Scott author of Rampage In 1937 the swath of the globe east from India to the Pacific Ocean encompassed half the world s population Japan s onslaught into China that year unleashed a tidal wave of events that fundamentally transformed this region and killed about twenty five million people This extraordinary World War II narrative vividly portrays the battles across this entire region and links those struggles on many levels with their profound twenty first century legacies In this first volume of a trilogy award winning historian Richard B Frank draws on rich archival research and recently discovered documentary evidence to tell an epic story that gave birth to the world we live in now

Urbanizing China in War and Peace Toby Lincoln,2015-05-31 Urbanizing China in War and Peace rewrites the history of rural urban relations in the first half of the twentieth century by arguing that urbanization is a total societal transformation and as important a factor as revolution nationalism or modernity in the history of modern China Linking the global and the local in space and time China s urbanization was not only driven by industrial capitalism and the expansion of the state but also shaped how these forces influenced daily life in the city and the countryside Although the conflict that beset China after the Japanese invasion in 1937

affected the development of cities towns and villages it did not derail previous changes To truly understand how China has emerged as the world's largest urban society we must consider such continuities across the first half of the twentieth century during periods of war as well as peace The book focuses on Wuxi a city that lies a hundred miles to the west of Shanghai In the early twentieth century local industrialists were responsible for it quickly becoming the largest industrial city in China outside treaty ports They built factories roads and other infrastructure outside the old city walls and in surrounding towns and villages Chapters examine the county's transformation as recorded in guidebooks and travel magazines of the time and the role of the state in the early 1920s and into the Nanjing Decade when new administrative laws led to the continued expansion of the city under both municipal and county officials They explore the revival of the silk industry during the Japanese occupation and the industry's role in driving urbanization as well as efforts by Chinese leaders to carry out prewar development plans despite lockdowns and qingxiang clean the countryside campaigns In the midst of the barbed wire and watch towers plans to shape the built environment in Wuxi County and the region as a whole persisted and were carried out Ambitious and well researched *Urbanizing China in War and Peace* will appeal to scholars and students of Chinese urban history the Anti Japanese War of Resistance and the Republican period Its engagement with issues of urbanization in general will interest urban historians of other times and places *The Routledge History of the Second World War* Paul R.

Chances in Contemporary Rural Chinese Society Nabo Chen, 2015-09-14 This study focuses on the effects of market reform on the life chances of rural people in China Based on comparative ethnographical evidence from three townships of rural Guangdong province this book provides a more recent and detailed story about the social inequality in rural China a

further explanation for the institutional analysis on the social stratification of China a new typology of the developmental results and the changing roles of political elite of rural china **Stalin and Mao** Lucien Bianco, 2018-03-15 China's ascent to the ranks of the world's second largest economic power has given its revolution a better image than that of its Russian counterpart Yet the two have a great deal in common Indeed the Chinese revolution was a carbon copy of its predecessor until Mao became aware not so much of the failures of the Russian model but of its inability to adapt to an overcrowded third world country Yet instead of correcting that model Mao decided to go further and faster in the same direction The aftershock of an earthquake may be weaker but the Great Leap Forward of 1958 in China was far more destructive than the Great Turn of 1929 in the Soviet Union It was conceived with an idealistic end but failed to take all the possibilities into account China's development only took off after and thanks to Mao's death once the country turned its back on the revolution Lucien Bianco's original comparative study highlights the similarities the all powerful bureaucracy the over exploitation of the peasantry which triggered two of the worst famines of the 20th century control over writers and artists repression and labor camps The comparison of Stalin and Mao that completes the picture leads the author straight back to Lenin and he quotes the observation by a Chinese historian that If at all possible it is best to avoid revolutions altogether **Women and China's Revolutions** Gail Hershatter, 2018-09-04 If we place women at the center of our account of China's last two centuries how does this change our understanding of what happened This deeply knowledgeable book illuminates the places where the Big History of recognizable events intersects with the daily lives of ordinary people using gender as its analytic lens Leading scholar Gail Hershatter asks how these events affected women in particular and how women affected the course of these events For instance did women have a 1911 revolution A socialist revolution If so what did those revolutions look like Which women had them Hershatter uses two key themes to frame her analysis The first is the importance of women's visible and invisible labor The labor of women in domestic and public spaces shaped China's move from empire to republic to socialist nation to rising capitalist power The second is the symbolic work performed by gender itself What women should do and be was a constant topic of debate during China's transformation from empire to weak state to partially occupied territory to nascent socialist republic to reform era powerhouse What sorts of concerns did people express through the language of gender How did that language work and why was it so powerful Drawing on decades of Hershatter's groundbreaking scholarship and mastery of a range of literatures this beautifully written book will be essential reading for all students of China's modern history **The Oxford Illustrated History of Modern China** Jeffrey N. Wasserstrom, 2016-06-16 This lavishly illustrated volume explores the history of China during a period of dramatic shifts and surprising transformations from the founding of the Qing Dynasty 1644 1912 through to the present day The Oxford Illustrated History of Modern China promises to be essential reading for anyone who wants to understand this rising superpower on the verge of what promises to be the Chinese century introducing readers to important but often overlooked events in China's past such as the bloody

Taiping Civil War 1850 1864 which had a death toll far higher than the roughly contemporaneous American Civil War It also helps readers see more familiar landmarks in Chinese history in new ways such as the Opium War 1839 1842 the Boxer Uprising of 1900 the rise to power of the Chinese Communist Party in 1949 and the Tiananmen protests and Beijing Massacre of 1989 This is one of the first major efforts and in many ways the most ambitious to date to come to terms with the broad sweep of modern Chinese history taking readers from the origins of modern China right up through the dramatic events of the last few years the Beijing Games the financial crisis and China's rise to global economic pre eminence which have so fundamentally altered Western views of China and China's place in the world

Marriage, Law and Gender in Revolutionary China, 1940-1960 Xiaoping Cong, 2016-08-22 Xiaoping Cong examines the social and cultural significance of Chinese revolutionary legal practice in the construction of marriage and gender relations Her book is an empirically rich investigation of the ways in which a 1943 legal dispute over an arranged marriage in a Chinese village became a legal political and cultural exemplar on the national stage This conceptually groundbreaking study revisits the Chinese Revolution and its impact on women and society by presenting a Chinese experience that cannot and should not be theorized in the framework of Western discourse Taking a cultural historical perspective Cong shows how the Chinese Revolution and its legal practices produced new discourses neologisms and cultural symbols that contained China's experience in twentieth century social movements and how revolutionary practice was sublimated into the concept of self determination an idea that bridged local experiences with the tendency of the twentieth century world and that is a revolutionary legacy for China today
