MONTAGUE, 1956 Constructing and Reconstructing History in Twentieth-Century German Architecture Alexander Luckmann, Volker M. Welter, 2025-02-11 The battle in architecture between the internationalist voices of modernism and the localized resistance which favored traditional technologies and regional precedents reflected in microcosm the violent and complex histories of twentieth century Germany The chapters in this book span the years from 1902 to 1991 and interrogate the ways in which architecture constructed and reconstructed these histories with a primary focus on those voices that were opposed to the dogmas of modernism All translated into English for the first time the chapters reflect the changing eras and contours of the German nation They were

written in the German Empire 1871 1918 the Weimar Republic 1918 1933 the Third Reich 1933 1945 the Federal Republic of Germany and the German Democratic Republic GDR which both existed from 1949 to 1990 and finally the reunified Germany that came into being in 1990 when the former GDR and the reunified Berlin joined the Federal Republic of Germany The chapters in this book were originally published as a special issue of Art in Translation New Directions in German Architecture Günther Feuerstein,1963 **Encyclopedia of Twentieth Century Architecture** R. Davis II,Mabel O. Wilson,2020-05-26 Although race a concept of human difference that establishes hierarchies of power and domination has played a critical role in the development of modern architectural discourse and practice since the Enlightenment its influence on the discipline remains largely underexplored This volume offers a welcome and long awaited intervention for the field by shining a spotlight on constructions of race and their impact on architecture and theory in Europe and North America and across various global contexts since the eighteenth century Challenging us to write race back into architectural history contributors confront how racial thinking has intimately shaped some of the key concepts of modern architecture and culture over time including freedom revolution character national and indigenous style progress hybridity climate representation and

radicalism By analyzing how architecture has intersected with histories of slavery colonialism and inequality from eighteenth century neoclassical governmental buildings to present day housing projects for immigrants Race and Modern Architecture challenges complicates and revises the standard association of modern architecture with a universal project of emancipation and progress A Nation Builds German Library of Information, New York,1940 *Architecture and the Nazi Cultural Landscape* David H. Haney,2022-09-13 This book traces cultural landscape as the manifestation of the state and national community under the Nazi regime and how the Nazi era produced what could be referred to as a totalitarian cultural landscape For the Nazi regime cultural landscape was indeed a heritage resource but it was much more than that cultural landscape was the nation The project of Nazi racial purification and cultural renewal demanded the physical reshaping and reconceptualization of the existing environment to create the so called new Nazi cultural landscape One of the most important components of this was a set of monumental sites thought to embody blood and soil beliefs through the harmonious synthesis of architecture and landscape This special group of landscape bound architectural complexes was interconnected by the new autobahn highway system itself thought to be a monumental work embedded in nature Behind this intentionally aestheticized view of the nation as cultural landscape lay the all pervasive system of deception and violence that characterized the emerging totalitarian state This is the first historical study to consider the importance of these monumental sites together with the autobahn as evidence of key Nazi cultural and geographic strategies during the pre war years This book concludes by examining racial and nationalistic themes underlying cultural landscape concepts today against this historic background Encyclopedia of Contemporary German Culture John Sandford,2013-04-03 Pre and post unification culture Includes Austria and Switzerland Annotated suggestions for further reading English and German language works

Architecture, Politics, and Identity in Divided Berlin Emily Pugh,2014-03-21 On August 13 1961 under the cover of darkness East German authorities sealed the border between East and West Berlin using a hastily constructed barbed wire fence Over the next twenty eight years of the Cold War the Berlin Wall grew to become an ever present physical and psychological divider in this capital city and a powerful symbol of Cold War tensions Similarly stark polarities arose in nearly every aspect of public and private life including the built environment In *Architecture Politics and Identity in Divided Berlin* Emily Pugh provides an original comparative analysis of selected works of architecture and urban planning in both halves of Berlin during the Wall era revealing the importance of these structures to the formation of political cultural and social identities Pugh uncovers the roles played by organizations such as the Foundation for Prussian Cultural Heritage and the Building Academy in conveying the political narrative of their respective states through constructed spaces She also provides an overview of earlier notable architectural works to show the precursors for design aesthetics in Berlin at large and considers projects in the post Wall period to demonstrate the ongoing effects of the Cold War Overall Pugh offers a compelling case study of a divided city poised between powerful contending political and ideological forces and she

highlights the effort expended by each side to influence public opinion in Europe and around the World through the manipulation of the built environment

One of the significant advantages of New German Architecture books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes.
