From BETTER NUTRITION Magazine:

● "The most valuable book in the world, from the point of view of the health seeker, would be a volume by a distinguished scientist, who is preferably also a physician.

"Such a volume has been published. It is likely to become, over the years, the most valuable guide to good health which anyone can possess. We guarantee that it will astound and gratify.

You have never before read in simple, easy-to-understand language, the kind of quiet, thorough, helpful information this book contains.

"We feel this is a historic book. We who have been convinced for years of the nutritional basis of many diseases now have a powerful weapon which simply cannot be turned aside."
