George Watt,Howard Abrams,2018-10-31 Utilize this comprehensive guide in your organization to create a corporate incubator that protects innovative ideas from oppressive corporate processes and culture and gives those ideas the resources and environment they need to grow and have the best possible chance to thrive Innovation is hard Ironically innovation in a large enterprise can be even more difficult Policies designed for mature businesses often crush emerging businesses along with the entrepreneurial spirit of the innovators Procedures can make it difficult even impossible for innovative employees to get their ideas funded or even seen As a result even companies with their roots in innovation can find themselves unable to innovate with a devastating impact on employee morale and often resulting in the exodus of the most creative employees In Lean Intrapreneurship the authors leverage decades of personal experience innovating in large enterprises to explore the root causes of failure to innovate in established organizations and offer a solution to the innovator s dilemma The book includes a recipe for creating a repeatable program for innovating in large organizations including tools tips and strategies developed by the authors as they created an innovative incubation program for a multi billion dollar technology company It also offers a wealth of information to help aspiring intrapreneurs and entrepreneurs bring their ideas to life What You ll Learn Discover the most common reasons that innovation fails in established organizations Explore techniques to make innovative ideas a success Follow a recipe to create a program to enable innovation across your company Understand the power of transparency inside and outside an incubator Develop employees and foster a culture of innovation across your company Who This Book Is For Anyone with an innovative idea who wants to make it real but does not know where to begin anyone struggling to innovate inside an established company anyone who wishes to make their existing company more lean agile and efficient anyone who wishes to start a program to incubate new innovative ideas inside an established company

Technology Transfer from University to Industry TANG Ming Feng,2009-10-30 Technology Transfer from University to Industry provides a cogent analysis of university technology transfer in the Chinese National Innovation System NIS The book outlines the NIS approach analyses the building up of the Chinese NIS and discusses the role orientation of university in

the NIS It also discusses three institutional innovations the Chinese version Bayh Dole Act university technology transfer offices and university incubators in order to show how universities transfer technology to industry in the Chinese NIS Additionally it makes a cross nation comparison of university incubators in China and in France The book underlines the importance of university in improving weak absorptive and innovative capabilities of domestic firms and provides both practical and theoretical insights to policy makers and practitioners The book will be a very valuable reference to university students and lecturers as well as to governments and firms who are interested in university technology transfer and the Chinese NIS

Academic Spin-Offs and Technology Transfer in Europe Sven H. De Cleyn, Gunter Festel, 2016-09-30 While the US has traditionally been successful in commercialising new technologies Europe is confronted with an increasing dependency for fast developing technologies like biotechnology or ICT despite having some of the best universities in the world This book will explore the key attributes of commercialising academic knowledge focusing on spin offs Bringing together the visions and best practices used by leading academics and professionals across Europe the editors provide new and practical insights on the topic in an attempt to resolve the European paradox

Entrepreneurship Thierry Burger-Helmchen, 2012-02-29 What are the differences between an entrepreneur and a manager According to Schumpeter the main difference lies in the entrepreneur's ideas creativity and vision of the world These differences enable him to create new combinations to change existing business models and to innovate Those innovations can take several forms products processes and organizations to name a few In this book an array of international researchers take a look at the visions and actions of innovative entrepreneurs to be at the source of new ideas and to foster new relationships between different actors to change the existing business models

The Art of Software Innovation Minna Pikkarainen, Wim Codenie, Nick Boucart, José Antonio Heredia Alvaro, 2011-08-25 Imagine that you are the CEO of a software company You know you compete in an environment that does not permit you to treat innovation as a secondary issue But how should you manage your software innovation to get the most out of it This book will provide you with the answer Software innovation is multifaceted and the approaches used by companies can be very different The team of authors that wrote this book took the assumption that there is no such thing as a universal software engineering process or innovation process Some things work well for a certain company others do not The book is organized around what the authors call eight fundamental practice areas for innovation with software Each practice area contains a number of activities that can help companies to master that practice area It also contains industrial experience reports that illustrate the applicability of these practice areas in software companies and is structured in such a way that you can select and read only those practice areas that are relevant to your company The book is written with an industrial target audience in mind Its most important goal is to challenge companies by offering them a framework to become more innovation driven rather than engineering driven Intrigued Here you will find details of what you and your company can do to understand implement and sustain continuous innovation

Innovation

and Entrepreneurship Hanadi Mubarak Al-Mubarak, Ali Husain Muhammad, Michael Busler, 2014-11-24 In this book Hanadi Mubarak Ali Husain and Michael promote the concept of innovation incubators from a business management perspective. The book provides a comprehensive roadmap for the development of new economies based on technology as well as value added in technology transfer, innovation development and an entrepreneurial climate. Many books on innovation and entrepreneurship take a theoretical approach presenting a selection of examples that may not reflect reality. However, this compendium of innovation and entrepreneurship case studies is based on the practical experience of executives and managers regarding the undertaking of projects within their industry and company. It is this practical approach emphasizing enterprise wide projects as a consequence of the current economic reality that differentiates this book from conventional texts on innovation and entrepreneurship. This investigation uses successful international case studies based on models in developed and developing countries. It argues that innovation incubators must be adopted by Arab countries to support diversification of their economies, the commercialization of new technologies, job creation and foster an entrepreneurial climate. The book presents research and case studies which provide new insights into practices for undertaking projects that both executive and project managers will find interesting and useful for the advancement of their enterprises, particularly in the area of innovation and entrepreneurship.

Grabbing Lightning G. C. O'Connor, 2008-02-13 Established companies are clamoring for breakthrough innovation but are often hamstrung by the highly reliable, repeatable processes of their management systems. Based on years of research, *Grabbing Lightning* shows how twelve companies have tried to develop a capability for sustainable breakthrough innovation and outlines best practices for your organization. The authors show how the management system for innovation is different from the traditional one in that it allows and even encourages mistakes and failures in order to promote learning. *Grabbing Lightning* outlines the three building blocks of breakthrough innovation, BI, and shows what it takes to become an organization that values the BI management system.
