New Jersey Architecture:

Building by the Book Robert P. Guter, Janet W. Foster, 1992 Books and popular periodicals shaped New Jersey's built landscape from the colonial era to the advent of World War II. Although it presents a wealth of Gothic cottages, Italianate villas, Craftsman bungalows, and Sears ready cuts, *Building by the Book* is far more than a catalog of architectural styles. By relating the work of architects and pattern book authors to the experiences of ordinary people who hungered for beautiful surroundings, Guter and Foster assess the *The Architecture of Bergen County, New Jersey*. T. Robins Brown, Schuyler Warmflash, 2000 *The Architecture of Bergen County, New Jersey* presents an accessible overview of the county's architectural heritage and its historic structures. The volume explores the styles, trends, and events that influenced the design and setting of the region's buildings. More than 150 photos document Bergen County's architectural treasures, generating awareness and appreciation for these structures and their history. *The Architecture of Bergen County, New Jersey* demonstrates the close association between architectural development at the national and local levels and shows how social, technological, and political changes occurring within the county have been reflected in the building types and styles of the area. *Building New Jersey*, 1979 *List of Architects Holding Certificates Entitling Them to Practice Architecture in the State of New Jersey* New Jersey.
