New Larkins For Old Critical Essays:

Philip Larkin Robert C. Evans, 2017-09-16 Philip Larkin is widely regarded as one of the greatest English poets of the 20th century. As such, there is a vast amount of literary criticism surrounding his work. This Readers Guide provides a comprehensive and accessible overview of the key reactions to Larkin's poetry. Using a chronological structure, Robert C. Evans charts critical responses to Larkin's work from his arrival on the British literary scene in the 1950s to the decades after his death. This includes analyses of critical material from around the world, making this an excellent guide for all students of Larkin.

Early Larkin James Underwood, 2021-07-15 Astute Times Literary Supplement Beginning in the late 1930s, this is the first book-length critical study of Larkin's early work: his poetry, novels, short fictions, essays, and letters. The book tells the story of Philip Larkin's early literary development, starting with Larkin's earliest literary efforts and his remarkable correspondence with Jim Sutton and ending at the point Larkin's maturity begins with the writing of his first great poems. In providing a comprehensive and systematic study of this part of Larkin's life, this book also presents a new and surprising narrative of Larkin's development. Critics have presented Larkin's early career as a false start which he overcame by swapping Yeats's influence for Hardy's. Having rediscovered Hardy's poetry in 1946, the story goes, Larkin realised the potential of writing about his own life and disavowed Yeats. Central to this book's controversial counter-narrative is an insistence on the significance of Brunette Coleman, the female heteronym Larkin invented in 1943. Three years before his rediscovery of Hardy, Larkin wrote a strange and unique series of works for schoolgirls under Coleman's name. These writings not only led him away from Yeats and other hindering influences but also away from himself. Whereas the Yeats-to-Hardy narrative emphasises the autobiographical qualities of Larkin's mature verse, *Early Larkin* proposes that the writer's breakthrough was a result of his burgeoning interest in everything outside himself. It is the consequence of his curious experiment with Brunette Coleman.

Larkin, Ideology and Critical Violence J. Osborne, 2007-11-23 This volume combines a theoretical critique of the biographical method that dominates Larkin studies with a revolutionary interpretation of his works that better accounts for their profound influence upon leading Postmodernists like Ian McEwan, David Mitchell, Carol Ann Duffy, Damien Hirst, and the creators of *Jerry Springer the Opera*.

Begin Afresh Sisir Kumar Chatterjee, 2025-03-12 *Begin Afresh: The Evolution of Philip Larkin's Poetry* offers incisive, insightful, and yet lucid analyses of all the individual poems contained in the four major collections of Larkin (1922-1985). It also deals with his Juvenile Poems, Brunette Coleman poems, those in *In the Grip of Light*, and *XX Poems*, as well as his last poems. The book also discusses Larkin's novels and drafts. It evaluates the critical opinions regarding various aspects of Larkin's poetry, especially the issue of its development, and shows that it may not follow a clearly identifiable linear chronological line of evolution but it does evolve in a subtle way from one phase of his career to the next. The book explores how Larkin discovered his own original, inimitable, idiosyncratic poetic voice by truly democratising English poetry for the first time by writing accessible and pleasurable

poetry and by forging a new poetic out of a philistine aesthetic which stands out as an artistic holotype It shows how Larkin restores the relation between poetry and the reading public a relation which was broken down by Modernist poets It also establishes how his poetic vision is neither optimistic nor pessimistic but realistic in that it preserves the universal human condition without moralising or philosophising The book aims to make a fresh departure in Larkin criticism and mark a new era in Larkin studies This volume will be of interest to students and researchers of Modernism twentieth century literature poetry language and literature

Englishness and Post-imperial Space Milton Sarkar, 2016-02-08 Englishness and Post imperial Space The Poetry of Philip Larkin and Ted Hughes probes into the English mindset immediately after the British withdrawal from the colonies and examines how the loss of power and global prestige affected contemporary poetry particularly that of Philip Larkin and Ted Hughes Frustration

and disillusionment even anger characterised the era and many of the literary works the period produced Most writers became insular and were obsessed with the English elements in their writing The great international and cosmopolitan themes of Eliot for instance were replaced by those of narrow domestic importance It is in such a context this book argues that Larkin and Hughes returned to the old England most notably to the themes of gradually vanishing pristine landscape and national myths and legends to the archetypal English customs and conventions It examines their poetry mainly from the perspective of Englishness a burgeoning area of academic interest Intricately connected with the values emanating from England as a geographical and socio cultural space Englishness as a concept is intrinsic to the identity of a people who gradually became globally powerful The loss of empire dealt a severe blow to this sense of the self This book explores the dynamics of the representation of this sense of loss and the frustration it produced in the poems of Larkin and Hughes
