**Hungarian Language Contact Outside Hungary** Anna

Fenyvesi, 2005-06-09 In Communist times it was impossible to do sociolinguistic work on Hungarian in contact with other languages In the short period of time since the collapse of the Soviet bloc Hungarian sociolinguists have certainly done their very best to catch up This volume brings together the fruits of their work some of which was hitherto only available in Hungarian The reader will find a wealth of information on many bilingual communities involving Hungarian as a minority language The communities covered in the book are located in countries neighboring Hungary Austria Serbia Slovakia Slovenia Romania and Ukraine as well as overseas in Australia and the United States Several of the chapters discuss material derived from the Sociolinguistics of Hungarian Outside Hungary project Throughout the book the emphasis is on how the language use of Hungarian minority speakers has been influenced by the majority or contact language both on a sociolinguistic macro level as well as on the micro level In the search for explanations particular attention is given to typological aspects of language change under the conditions of language contact *The Australian People* James

Jupp, 2001-10 Australia is one of the most ethnically diverse societies in the world today From its ancient indigenous origins to British colonisation followed by waves of European then international migration in the twentieth century the island continent is home to people from all over the globe Each new wave of settlers has had a profound impact on Australian society and culture *The Australian People* documents the dramatic history of Australian settlement and describes the rich ethnic and cultural inheritance of the nation through the contributions of its people It is one of the largest reference works of its kind with approximately 250 expert contributors and almost one million words Illustrated in colour and black and white the book is both a comprehensive encyclopedia and a survey of the controversial debates about citizenship and multiculturalism now that Australia has attained the centenary of its federation **Displacement, Identity and Belonging**

Alexandra J. Cutcher, 2015-04-27 *Displacement Identity and Belonging* is a book about difference It deals with ethnicity migration place marginalisation memory and constructions of the self The arts based and auto biographical performance of the many voices in the text compliment and interrupt each other to create a polyvocal rendition of experience The text unfolds through fiction memoir legend artworks photographs poetry and theory historical cultural and political perspectives As such it is a book that confronts what an academic text can be Written in the present tense it weaves its narrative around one small Hungarian migrant family in Australia who are not particularly special or extraordinary Their experience may appear at least on first blush to be paralleled by the post war diasporic experience for a range of nations and peoples However in many ways this is not necessarily so It is this crucial aspect of the idiosyncrasies of difference that is at the core of this work The layering of stories and artworks build upon each other in an engaging and accessible reading that appeals to a multitude of audiences and purposes The book makes significant contributions to the literature on qualitative research and

in particular to arts based research auto biographical research and autoethnographic research Displacement Identity and Belonging is in itself an experience of journey in the reading powerfully demonstrating a life forever in transit This work can be used as a core reading in a range of courses in education teacher education ethnicity studies cultural studies sociology psychology history and communication or simply for pleasure Displacement Identity and Belonging offers an excellent example of the use of novel approaches to social research that are designed to raise important questions and provide unique insights The multigenerational perspective of Hungarian migrants to and immigrants in Australia disclosed and examined herein is not merely a fascinating and urgent topic in itself It also encourages and enables the reader to imagine analogous social phenomena in other places and times This fact in conjunction with an extraordinarily effective format is what makes this for readers of all sorts an important and empowering book one that I heartily recommend Tom Barone Professor Emeritus Arizona State University USA Dr Alexandra Cutcher is a multi award winning academic at Southern Cross University Australia Her research focuses on what the Arts can be and do educationally expressively as research method language catharsis reflective instrument and documented form These understandings inform Alexandra s teaching and her spirited advocacy for Arts education

**Language, Identity and Symbolic Culture** David Evans, 2018-05-31 Language is integral to the construction of personal socio cultural and socio political identities Language Identity and Symbolic Culture closely investigates the relationship between language and identities offering a comprehensive yet progressive view of how linguistics relates to development and education both in theoretical and real world applications Progressing from a theoretical core examining the connection between language and individual identity this book moves on to look at the wider socio political discourse involving the marginalization and resistance of communities in the world Beginning with the philosophical paradigms of language Evans questions whether language shapes personal identities in its daily use or whether language is simply a tool for describing rather than creating the world Extrapolating on this the contributors utilise case studies from across the globe to see how these linguistic perspectives are played out in the real world considering the role of language in issues surrounding power colonization marginalization and education Language Identity and Symbolic Culture offers a view of language identity conflicts around the world and an understanding of the opportunities of political and cultural emancipation created through language and open discourse
