New Left Diplomatic Histories And Historians The American Revisionists:

New Left Diplomatic Histories and Historians: the American Revisionists Joseph M. Siracusa, 1973 Encyclopedia of Historians and Historical Writing Kelly Boyd, 2019-10-09 The Encyclopedia of Historians and Historical Writing contains over 800 entries ranging from Lord Acton and Anna Comnena to Howard Zinn and from Herodotus to Simon Schama Over 300 contributors from around the world have composed critical assessments of historians from the beginning of historical writing to the present day including individuals from related disciplines like Jürgen Habermas and Clifford Geertz whose theoretical contributions have informed historical debate Additionally the Encyclopedia includes some 200 essays treating the development of national regional and topical historiographies from the Ancient Near East to the history of sexuality In addition to the Western tradition it includes substantial assessments of African Asian and Latin American historians and debates on gender and subaltern studies *The Writing of American History* Michael Kraus, Davis D. Joyce, 1990-01-01 Events which become historical says Michael Kraus do not live on because of their mere occurrence They survive when writers re create them and thus preserve for posterity their otherwise fleeting existence Paul Revere's ride for example might well have vanished from the records had not Longfellow snatched it from approaching oblivion and given it a dramatic spot in American history Now Revere rides on in spirited passages in our history books In this way the recorder of events becomes almost as important as the events themselves In other words historiography the study of historians and their particular contributions to the body of historical records must not be ignored by those who seriously wish to understand the past When the first edition of Michael Kraus's *Writing of American History* was published a reviewer for the New York Herald Tribune wrote No serious study of our national origins and development can afford not to have such an aid as this at his elbow The book quickly came to be regarded as one of the few truly standard general surveys of American historiography invaluable as a reference book as a textbook and as a highly readable source of information for the interested general reader This new edition with coauthor Davis D Joyce confirms its position as the definitive work in the field Concise yet comprehensive here is an analysis of the writers and writings of American history from the Norse voyages to modern times The book has its roots in Kraus's pioneering *History of American History* published in 1937 a unique and successful attempt to cover in one volume the entire sweep of American historical activity Kraus revised and updated the book in 1953 when it was published under the present title Now once again the demand for its revision has been met Davis D Joyce with the full cooperation and approval of Kraus has thoroughly revised and brought up to date the text of the 1953 edition The clarity and evenhandedness of Kraus's text has been carefully preserved The last three chapters add entirely new material surveying the massive and complex body of American historical writing since World War II Consensus American Historical Writing in the 1950s Conflict American Historical Writing in the 1960s and Complexity American Historical Writing in the 1970s and Beyond Michael Kraus Professor Emeritus at City College of New York received the Ph D from Columbia University and in his long career

established himself as one of America's foremost historiographers Davis D Joyce is Professor Emeritus of History East Central University Ada Oklahoma and is the author of *HOWARD ZINN A RADICAL AMERICAN VISION* and *ALTERNATIVE OKLAHOMA CONTRARIAN VIEWS OF THE SOONER STATE* He teaches part time at Rogers State University Claremore Oklahoma

Territory James G. Morgan, 2014-08-20 Into New Territory charts how the concept of US imperialism became prevalent in the writing of American diplomatic history and how empire evolved into an effective analytical framework for the study of US foreign policy **Truth in History**, 1987 This is a work in both the social history of professional historians and a sociology of knowledge study of how and why a discipline surrenders the search for truth in favor of assertions of ideological purity In a frenzied effort to cope with exaggerated claims that the study of history is the high road to statesmanship citizenship and good neighbors historians struggled to innovate Some became radicalized and threatened to tear the world apart but the more common response was the assertion that the subject would equip citizens to solve current and future policy problems
