New Deal For Social Security

Ruth Feldstein

New Deal For Social Security:

Social Security Bulletin ,2007 *Culture Wars* Roger Chapman,2010 Although openness and inclusion are cornerstones of life in the United States intolerance and reactionary politics are also very real As the nation prepares to elect a new president The Culture Wars addresses the key defining issues of contemporar **A New Deal for Social Security** Peter Ferrara,Michael Tanner,1998 This book examines the history of Social Security and predicts that the system will face bankruptcy within the next few years **Social Issues in America** James Ciment,2015-03-04 More than 150 key social issues confronting the United States today are covered in this eight volume set from abortion and adoption to capital punishment and corporate crime from obesity and organized crime to sweatshops and xenophobia Understanding The American Promise, Volume 2: From 1865 James L. Roark,Michael P. Johnson,Patricia Cline Cohen,Sarah Stage,Alan Lawson,Susan M. Hartmann,2011-02-15 In response to the ever changing challenges of teaching the survey course Understanding the American Promise combines a newly abridged narrative with an innovative chapter architecture to focus students attention on what s truly significant Each chapter is fully designed to guide students comprehension and foster their development of historical skills Brief and affordable but still balanced in its coverage this new textbook combines distinctive study aids a bold new design and lively art to give your students a clear pathway to what s important **Social Security** John Attarian,2017-07-05 One of today s most important national concerns is the projected bankruptcy of Social Security some time in the next few decades and its consequent inability to pay full benefits on time Yet despite two decades of warnings about this nothing is being done The saying that Social Security is the third rail of American politics touch it and you die still holds true In Social Security False Consciousness and Crisis John Attarian argues that the major cause of the current impasse is the misleading manner in which the program has been depicted to the public and the beliefs about Social Security which prevail as a result *Roosevelt, the Great Depression, and the Economics of Recovery* Elliot A. Rosen,2012-10-05 Historians have often speculated on the alternative paths the United Stages might have taken during the Great Depression What if Franklin D Roosevelt had been killed by one of Giuseppe Zangara s bullets in Miami on February 17 1933 Would there have been a New Deal under an administration led by Herbert Hoover had he been reelected in 1932 To what degree were Roosevelt s own ideas and inclinations as opposed to those of his contemporaries essential to the formulation of New Deal policies In *Roosevelt the Great Depression and the Economics of Recovery* the eminent historian Elliot A Rosen examines these and other questions exploring the causes of the Great Depression and America s recovery from it in relation to the policies and policy alternatives that were in play during the New Deal era Evaluating policies in economic terms and disentangling economic claims from political ideology Rosen argues that while planning efforts and full employment policies were essential for coping with the emergency of the depression from an economic standpoint it is in fact fortunate that they did not become permanent elements of our political economy By insisting that the economic bases of

proposals be accurately represented in debating their merits Rosen reveals that the productivity gains which accelerated in the years following the 1929 stock market crash were more responsible for long term economic recovery than were governmental policies Based on broad and extensive archival research Roosevelt the Great Depression and the Economics of Recovery is at once an erudite and authoritative history of New Deal economic policy and timely background reading for current debates on domestic and global economic policy

The Battle for Social Security Nancy J. Altman, 2012-06-29 This book illuminates the politics and policy of the current struggle over Social Security in light of the program's compelling history and ingenious structure After a brief introduction describing the dramatic response of the Social Security Administration to the 9/11 terrorist attack the book recounts Social Security's lively history Although President Bush has tried to convince Americans that Social Security is designed for the last century and unworkable for an aging population readers will see that the President's assault is just another battle in a longstanding ideological war Prescott Bush the current President's grandfather remarked of FDR The only man I truly hated lies buried in Hyde Park The book traces the continuous thread leading from Prescott Bush and his contemporaries to George W Bush and others who want to undo Social Security The book concludes with policy recommendations which eliminate Social Security's deficit in a manner consistent with the program's philosophy and structure

Atlantic Crossings Daniel T. RODGERS, 2009-06-30 The most belated of nations Theodore Roosevelt called his country during the workmen's compensation fight in 1907 Earlier reformers progressives of his day and later New Dealers lamented the nation's resistance to models abroad for correctives to the backwardness of American social politics Atlantic Crossings is the first major account of the vibrant international network that they constructed so often obscured by notions of American exceptionalism and of its profound impact on the United States from the 1870s through 1945 On a narrative canvas that sweeps across Europe and the United States Daniel Rodgers retells the story of the classic era of efforts to repair the damages of unbridled capitalism He reveals the forgotten international roots of such innovations as city planning rural cooperatives modernist architecture for public housing and social insurance among other reforms From small beginnings to reconstructions of the new great cities and rural life and to the wide ranging mechanics of social security for working people Rodgers finds the interconnections adaptations exchanges and even rivalries in the Atlantic region's social planning He uncovers the immense diffusion of talent ideas and action that were breathtaking in their range and impact The scope of Atlantic Crossings is vast and peopled with the reformers university men and women new experts bureaucrats politicians and gifted amateurs This long duration of contemporary social policy encompassed fierce debate new conceptions of the role of the state an acceptance of the importance of expertise in making government policy and a recognition of a shared destiny in a newly created world

Full Faith and Credit: The National Debt, Taxes, Spending, and the Bankrupting of America Alan Axelrod, 2013-09-03 What is the national debt Who loses from it Who profits from it Why is it a greater threat to America than international terrorism In direct non partisan language this book follows the money and

finds the answers Conservative Liberal Republican Democrat Libertarian Socialist Each has a laundry list for America on which the slow motion cataclysm of unsustainable national debt is but a lonely bullet point among dozens of others Full Faith and Credit zooms in on that point liberates it from partisan programs and political orientations expands it explores it and explains it The book examines key dimensions of our national life from a military industrial complex more menacing than even Eisenhower could have imagined to a Tower of Babel tax code that covertly translates taxes into secret subsidies With the aim of converting bystanders into informed advocates of change Full Faith and Credit is rich with eye opening data surprising case studies and you can't make this stuff up examples For every official the United States public has elected its government supports 5000 unelected employees 1 billion is the cost to destroy 16 billion in ammunition unneeded by the U S military 20 973 890 000 is the total taxpayer cost to the Treasury of gambling losses deducted by millionaires With easy to follow graphs and charts as well as 20 uproarious full color editorial cartoons drawn from the prior work of Pulitzer Prize winning artist Michael Ramirez Full Faith and Credit locates the tipping point of the 19 4 trillion and counting national debt crisis and offers ideas on how to fix it The American Promise, Volume C James L. Roark, Michael P. Johnson, Patricia Cline Cohen, Sarah Stage, Susan M. Hartmann, 2012-01-09 The American Promise is more teachable and memorable than any other U S survey text The balanced narrative braids together political and social history so that students can discern overarching trends as well as individual stories The voices of hundreds of Americans from Presidents to pipe fitters and sharecroppers to suffragettes animate the past and make concepts memorable The past comes alive for students through dynamic special features and a stunning and distinctive visual program Over 775 contemporaneous illustrations more than any competing text draw students into the text and more than 180 full color maps increase students geographic literacy A rich array of special features complements the narrative offering more points of departure for assignments and discussion Longstanding favorites include Documenting the American Promise Historical Questions The Promise of Technology and Beyond American s Borders representing a key part of our effort to increase attention paid to the global context of American history **The Politics of Social Policy in the United States** Margaret Weir, Ann Shola Orloff, Theda Skocpol, 2020-12-08 This volume places the welfare debates of the 1980s in the context of past patterns of U S policy such as the Social Security Act of 1935 the failure of efforts in the 1940s to extend national social benefits and economic planning and the backlashes against big government that followed reforms of the 1960s and early 1970s Historical analysis reveals that certain social policies have flourished in the United States those that have appealed simultaneously to middle class and lower income people while not involving direct bureaucratic interventions into local communities The editors suggest how new family and employment policies devised along these lines might revitalize broad political coalitions and further basic national values The contributors are Edwin Amenta Robert Aponte Mary Jo Bane Kenneth Finegold John Myles Kathryn Neckerman Gary Orfield Ann Shola Orloff Jill Quadagno Theda Skocpol Helene Slessarev Beth Stevens Margaret Weir and William Julius Wilson *Regulatory*

Federalism and the Making of America David Brian Robertson,2013-03 Though Americans rarely appreciate it federalism has profoundly shaped their nation's past present and future Federalism the division of government authority between the national government and the states affects the prosperity security and daily life of every American In this nuanced and comprehensive overview David Brian Robertson shows that past choices shape present circumstances and that a deep understanding of American government public policy political processes and society requires an understanding of the key steps in federalism's evolution in American history The most spectacular political conflicts in American history have been fought on the battlefield of federalism including states rights to leave the union government power to regulate business and responses to the problems of race poverty pollution abortion and gay rights Federalism helped fragment American politics encourage innovation foster the American market economy and place hurdles in the way of efforts to mitigate the consequences of economic change Federalism helped construct the path of American political development Federalism and the Making of America is a sorely needed text that treats the politics of federalism systematically and accessibly making it indispensable to all students and scholars of American politics Chosen as one of Choice's Outstanding Academic Titles for 2012 The Laws That Shaped America Dennis W. Johnson,2009-05-31 Dennis W Johnson tells the story of fifteen major laws enacted over the course of two centuries of American democracy for each looking at the forces and circumstances that led to its enactment the often tempestuous political struggles the political players who were key in proposing or enacting the legislation and the impact of the legislation and its place in American history Burdens of War Jessica L. Adler,2017-07-19 In the World War I

era veterans fought for a unique right access to government sponsored health care In the process they built a pillar of American social policy Burdens of War explores how the establishment of the veterans health system marked a reimagining of modern veterans benefits and signaled a pathbreaking validation of the power of professionalized institutional medical care Adler reveals that a veterans health system came about incrementally amid skepticism from legislators doctors and army officials concerned about the burden of long term obligations monetary or otherwise to ex service members She shows how veterans welfare shifted from centering on pension and domicile care programs rooted in the nineteenth century to direct access to health services She also traces the way that fluctuating ideals about hospitals and medical care influenced policy at the dusk of the Progressive Era how race class and gender affected the health related experiences of soldiers veterans and caregivers and how interest groups capitalized on a tense political and social climate to bring about change The book moves from the 1910s when service members requested better treatment Congress approved new facilities and increased funding and elected officials expressed misgivings about who should have access to care to the 1930s when the economic crash prompted veterans to increasingly turn to hospitals for support while bureaucrats politicians and doctors attempted to rein in the system By the eve of World War II the roots of what would become the country s largest integrated health care system were firmly planted and primed for growth Drawing readers into a critical debate about the level of responsibility America bears for wounded service members Burdens of War is a unique and moving case study Jennifer D Keene Chapman University author of Doughboys the Great War and the Remaking of America

Social Policy in the United States Theda Skocpol, 2020-06-16 Health care welfare Social Security employment programs all are part of ongoing national debates about the future of social policy in the United States In this wide ranging collection of essays Theda Skocpol shows how historical understanding centered on governmental institutions and political alliances can illuminate the limits and possibilities of American social policymaking both past and present Skocpol dispels the myth that Americans are inherently hostile to social spending and suggests why President Clinton s health care agenda was so quickly attacked despite the support of most Americans for his goals

Motherhood in Black and White Ruth Feldstein, 2018-09-05 The apron clad white stay at home mother Black bus boycotters in Montgomery Alabama Ruth Feldstein explains that these two enduring yet very different images of the 1950s did not run parallel merely by ironic coincidence but were in fact intimately connected What she calls gender conservatism and racial liberalism intersected in central yet overlooked ways in mid twentieth century American liberalism Motherhood in Black and White analyzes the widespread assumption within liberalism that social problems ranging from unemployment to racial prejudice could be traced to bad mothering This relationship between liberalism and motherhood took shape in the 1930s expanded in the 1940s and 1950s and culminated in the 1960s Even as civil rights moved into the mainstream of an increasingly visible liberal agenda images of domineering black matriarchs and smothering white moms proliferated Feldstein draws on a wide array of cultural and political events that

demonstrate how and why mother blaming furthered a progressive anti racist agenda From the New Deal into the Great Society bad mothers black or white were seen as undermining American citizenship and as preventing improved race relations while good mothers responsible for raising physically and psychologically fit future citizens were held up as a precondition to a strong democracy By showing how ideas about gender roles and race relations intersected in films welfare policies and civil rights activism as well as in the assumptions of classic works of social science *Motherhood in Black and White* speaks to questions within women s history African American history political history and cultural history Ruth Feldstein analyzes representations of black women and white women as well as the political implications of these representations She brings together race and gender culture and policy vividly illuminating each
