New Deal Thought 1st Edition:

Uncommon Sense Howard Zinn, Dean Birkenkamp, Wanda Rhudy, 2016-01-08 Why Howard Zinn has become one of the most important and influential American historians is perhaps nowhere more evident than in this new book Few social critics have been as inspiring as the ever hopeful Zinn and unlike many historians Zinn turns historical details toward deeper observations on the universal truths and struggles of humankind His remarkable wisdom and insight can be found in his earliest writings through his latest essays speeches and plays *Uncommon Sense* brings together his most poignant and profound quotations from decades of writing and speaking The book reveals the philosophical side of Howard Zinn and a consistency of vision over 50 years on topics ranging from government to race history law civil disobedience and activism Offering quotations of universal and timeless quality the book shows why history will regard this historian as a political and moral philosopher in the company of Paine Jefferson Frederick Douglass and Martin Luther King Jr **Thomas Kuhn** Steve Fuller, 2000 This work discusses whether Kuhn's *The Structure of Scientific Revolutions* was revolutionary Steve Fuller argues that Kuhn held a profoundly conservative view of science and how one ought to study its history **New Deals** Colin Gordon, 1994-07-29 This book an economic history of the interwar era is the first major reinterpretation of the New Deal in thirty years *The Federal Theatre Project in the American South* Cecelia Moore, 2017-09-26 The Federal Theatre Project in the American South introduces the people and projects that shaped the regional identity of the Federal Theatre Project When college theatre director Hallie Flanagan became head of this New Deal era jobs program in 1935 she envisioned a national theatre comprised of a network of theatres across the country A regional approach was more than organizational it was a conceptual model for a national art Flanagan was part of the little theatre movement that had already developed a new American drama drawn from the distinctive heritage of each region and which they believed would collectively illustrate a national identity The Federal Theatre plan relied on a successful regional model the folk drama program at the University of North Carolina led by Frederick Koch and Paul Green Through a unique partnership of public university private philanthropy and community participation Koch had developed a successful playwriting program and extension service that built community theatres throughout the state North Carolina along with the rest of the Southern region seemed an unpromising place for government theatre Racial segregation and conservative politics limited the Federal Theatre's ability to experiment with new ideas in the region Yet in North Carolina the Project thrived Amateur drama units became vibrant community theatres where whites and African Americans worked together Project personnel launched *The Lost Colony* one of the first so called outdoor historical dramas that would become its own movement The Federal Theatre sent unemployed dramatists including future novelist Betty Smith to the university to work with Koch and Green They joined other playwrights including African American writer Zora Neale Hurston who came to North Carolina because of their own interest in folk drama Their experience told in this book is a backdrop for each successive generation's debates over government cultural expression art

and identity in the American nation A Synopsis of American History--Complete Neil R. McMillen, 2024-03-26 Updated through the 1996 elections to reflect current historical thinking the 8th edition A Synopsis of American History continues to provide a chronological summary of major political economic and diplomatic developments in American history but it also analyzes the social cultural and intellectual currents of American life with attention to gender minority urban and industrial history **The Deconstitutionalization of America** Roger M. Barrus, John H. Eastby, Joseph H. Lane Jr., David E.

Marion, James F. Pontuso, 2004-06-01 In The Deconstitutionalization of America The Forgotten Frailties of Democratic Rule Roger M Barrus and his coauthors embark on a discussion of American democracy from the nineteenth century to the present day The present paradox democracy finds itself in can be summed up as the best of times and the worst of times Democracy at its best has triumphed throughout the world It is the authors contention that this same success represents the potential for its undoing with all governments claiming to be democratic modern democrats and this includes just about everyone find it difficult if not impossible to understand the nature and problems of democracy Since most everyone lives within a democratic horizon they have nothing to compare democracy to and no one to point out its faults In this way they are hampered in dealing with their social and political problems some of which may be the result of contradictions inherent in the democratic principle itself The solution to democracy s ills might not be after all more democracy **Prologue** , 1973

The Great American Mission David Ekbladh, 2011-08-08 The Great American Mission traces how America s global modernization efforts during the twentieth century were a means to remake the world in its own image David Ekbladh shows that the emerging concept of modernization combined existing development ideas from the Depression He describes how ambitious New Deal programs like the Tennessee Valley Authority became symbols of American liberalism s ability to marshal the social sciences state planning civil society and technology to produce extensive social and economic change For proponents it became a valuable weapon to check the influence of menacing ideologies such as Fascism and Communism Modernization took on profound geopolitical importance as the United States grappled with these threats After World War II modernization remained a means to contain the growing influence of the Soviet Union Ekbladh demonstrates how U S led nation building efforts in global hot spots enlisting an array of nongovernmental groups and international organizations were a basic part of American strategy in the Cold War However a close connection to the Vietnam War and the upheavals of the 1960s would discredit modernization The end of the Cold War further obscured modernization s mission but many of its assumptions regained prominence after September 11 as the United States moved to contain new threats Using new sources and perspectives The Great American Mission offers new and challenging interpretations of America s ideological motivations and humanitarian responsibilities abroad Congressional Record United States. George III believed that George Washington's departure after two terms made him the greatest character of the age. But Alexander Hamilton worried former presidents might wander among the people like ghosts. They were both right. Life After Power tells the stories of seven former presidents from the Founding to today. Each changed history. Each offered lessons about how to decide what to do in the next chapter of life. This book follows the exceptional lives of past presidents including Thomas Jefferson whose time after the White House saw him shaping public debates and founding the University of Virginia; an accomplishment he included on his tombstone; unlike his presidency John Quincy Adams who served in Congress and became a leading abolitionist passing the torch to Abraham Lincoln; Grover Cleveland who was the only president in American history to serve a nonconsecutive term; William Howard Taft who became Chief Justice of the Supreme Court; Herbert Hoover who shaped the modern conservative movement; led relief efforts after World War II; reorganized the executive branch and reconciled John F. Kennedy and Richard Nixon; Jimmy Carter who had the longest post-presidency in American history; advancing humanitarian causes, human rights and peace; George W. Bush who made a clean break from politics bringing back George Washington's precedent and reminding the public that the institution of presidency is bigger than any person; Jared Cohen explores the untold stories in the final chapters of these presidents' lives offering a unique and fascinating look at how seven individuals made the transition from the most powerful position in the world to consequential and fulfilling lives post-presidency; Condoleezza Rice, 66th Secretary of State. He tells how they handled very human problems of ego, finances and questions about their legacy and mortality. He shows how these men made history after they left the White House.

The Rise and Fall of the Neoliberal Order Gary Gerstle, 2022 Gary Gerstle provides a sweeping re-interpretation of the entire era from the revival of market liberalism in the 1970s to the ruin generated by the 2008 global financial crisis that places America at the center.

The Comparative Approach to American History C. Vann Woodward, 1997-11-27 In the mid 1960s C. Vann Woodward was asked to organize a program of broadcast lectures on US history for the Voice of America as part of a longer series designed to acquaint foreign audiences with leaders in American arts and sciences. Reasoning that a comparative approach was peculiarly adapted to the interests and needs of foreign audiences, Woodward commissioned twenty-two noted scholars to cover classic topics in American history: the Civil War, the World Wars, slavery, immigration and many others, but to add a comparative dimension by relating these topics to developments elsewhere in the world. The result was the 1968 Basic Books edition of *The Comparative Approach to American History*. Now three decades later, Oxford is very pleased to be reissuing this classic collection of historical essays in a paperback edition with a new introduction by Woodward that discusses the decline and resurgence of comparative history since the 1960s.
