Neal, 2004-01-01 In the realm of European employment law tension exists between the concepts of economic policy and social policy During recent years a growing tendency to emphasize the economic at the expense of the social can be discerned What this trend gives us in the views of the leading figures in the field of European labour law and social policy whose considered analyses are presented in this volume is a regime of grand declarations about workers rights but with extremely limited enforcement potential i The Changing Face of European Labour Law and Social Policy presents some of the papers given at a series of colloquia sponsored by the Employment Law Research Unit at the University of Warwick in early 2002 In its assessment of the forces at work in European employment law today these commentaries examine significant initiatives and issues including problems arising in the context of the Nice Charter delivering equality at the workplace under the new EU legal framework the crisis facing workers participation in practice the prospects for trans national collective bargaining employment related aspects of human rights under the ECHR and attempts to establish effective protections in relation to the working environment Invaluable appendices include a report as presented by the late Marco Biagi of a high level group on reform of the European labour market the text of the Social Policy Agenda as approved at the Nice Summit of 2000 and the Commission s scoreboard on the implementation of the Social Agenda as of 2002 With its down to earth analysis of the current status of the floor of rights in the European work environment The Changing Face of European Labour Law and Social Policy will be of inestimable value to all practitioners and scholars seeking to improve the quality of life for Europe s working population and the quality of regulation at the disposal of those charged with confronting the new challenges to social policy resulting from the radical transformation of Europe s economy and society *Social Europe* Joe Bailey, 2014-06-03 Since the first edition of *Social Europe* was published in 1992 profound social changes have occurred throughout Europe as a result of conflicting pressures on the one hand to become more integrated and on the other to protect national interests and identity This second edition of *Social Europe* has been fully revised to provide a comprehensive and focused account of basic social issues and structures which provide the context for these changes Each chapter covers a key topic such as education crime gender health and religion and provides valuable comparisons between the key nation states of Western Europe *Comparative Law and Regulation* Francesca Bignami, David Zaring, 2016-09-30 Governance by regulation rules propounded and enforced by bureaucracies is taking a growing share of the sum total of governance Once thought to be an American phenomenon it is now a central form of state action in every part of the world including Europe Latin America and Asia and it is at the core of much international lawmaking In *Comparative Law and Regulation* original contributions by leading scholars in the field focus both on the legal dimension of regulation and on how this dimension

European Communities John Paxton, 1992-01-01 The establishment of the European Economic Community in 1958 was one of the most remarkable developments in the history of the post World War II era It aimed for nothing less than a complete economic union so that goods people and capital would be able to pass over national boundaries of member countries as freely as they move within any one country As the Community's target date of 1992 for economic integration draws closer the need for information both current and historical becomes more urgent The aim of this annotated bibliography is to create a critical and descriptive list of books published mainly in English for businessmen and analysts combining older publications with new The literature on the EC is vast and issues The Community itself nearly 3000 publications a year The range of material covered in this volume is distinguished by its great scope Historical sections provide listings on the postwar years of economic recovery the development of the EC and biographies of the leading personalities involved Policy oriented sections encompass such subjects as labor transportation environment energy and education The political ramifications of economic union financial and fiscal affairs relations between the EC and the Third World and foreign relations in general are dealt with in separate sections The volume concludes with a listing of major European Community publications The sheer bulk of published material on the EC much of it duplication has made keeping up with its developments difficult for small and medium in Europe and elsewhere This invaluable sourcebook will provide the business community and the political establishments with better access to EC information as they grapple with the implications of 1992

growth of international legal governance one that has forever altered the political and legal landscape of its Member States The EU has attracted significant attention from political scientists economists and lawyers who have analysed its polity and constructed theoretical models of the integration process Yet it has been almost entirely neglected by analytic philosophers and the philosophical tools that have been developed to analyse and evaluate the Union are still in their infancy This book brings together legal philosophers political philosophers and EU legal academics in the service of developing the philosophical analysis of EU law In a series of original and complementary essays they bring their varied disciplinary expertise and theoretical perspectives to bear on central issues facing the Union and its law Combining both abstract thought in legal and political philosophy and more tangible theoretical work on specific legal issues the essays in this volume make a significant contribution to developing work on the philosophical foundations of EU law and will engender further debate between philosophers political philosophers and EU legal academics They will be of interest to all those engaged in understanding the nature and purpose of this unique legal entity
