Kushner,1991 For the nineteenth century physician the moral issues that suicide raised could not be isolated from its constitutional components Thus those who exhibited suicidal tendencies

were subjected to an amalgamation of pharmacological social and psychological interventions which practitioners labeled the moral treatment. By the 1890s however the consensus about the causes of suicide became unglued as a bacteriological medicine and the rise of the social sciences jointly served to call into question eclectic diagnoses. The goal of American Suicide is to demonstrate how the apparent contradictions among sociological, psychoanalytic and neurobiological explanations of the etiology of suicide may be resolved. Only through a reintegration of culture, psychology and biology can we begin to construct a satisfactory answer to the questions first raised by Durkheim, Freud and Kraepelin. Legal Reelism John Denvir, 1996 Law and justice are important themes in film, not only in courtroom dramas but also in the western, the film noir, even the documentary. In the Godfather trilogy, Francis Ford Coppola shows that the Mafia possesses its own strict codes, even though they are in conflict with those of the criminal justice system. In Woody Allen's Crimes and Misdemeanors, the protagonist also gets away with murder, but with a different dramatic intent by the director and a different effect on the audience. Shedding light on myriad facets of the law-film relationship, fourteen contributors to Legal Reelism analyze films ranging from *The Man Who Shot Liberty Valance*, *It's a Wonderful Life* and *Drums Along the Mohawk* to *Do the Right Thing*, *Basic Instinct*, *The Thin Blue Line* and *Thelma and Louise*. The first volume to contain work by both humanists and legal specialists, Legal Reelism is a landmark text for those concerned with depictions of justice in the media and the impact of those depictions on society at large. *The Great American Mission* David Ekbladh, 2011-08-08 The Great American Mission traces how America's global modernization efforts during the twentieth century were a means to remake the world in its own image. David Ekbladh shows that the emerging concept of

modernization combined existing development ideas from the Depression He describes how ambitious New Deal programs like the Tennessee Valley Authority became symbols of American liberalism s ability to marshal the social sciences state planning civil society and technology to produce extensive social and economic change For proponents it became a valuable weapon to check the influence of menacing ideologies such as Fascism and Communism Modernization took on profound geopolitical importance as the United States grappled with these threats After World War II modernization remained a means to contain the growing influence of the Soviet Union Ekbladh demonstrates how U S led nation building efforts in global hot spots enlisting an array of nongovernmental groups and international organizations were a basic part of American strategy in the Cold War However a close connection to the Vietnam War and the upheavals of the 1960s would discredit modernization The end of the Cold War further obscured modernization s mission but many of its assumptions regained prominence after September 11 as the United States moved to contain new threats Using new sources and perspectives The Great American Mission offers new and challenging interpretations of America s ideological motivations and humanitarian responsibilities abroad
