A Report of the Surgeon General, 1999, 2000 Evaluating Managed Mental Health Services Leonard Bickman, C.S. Breda, E.M. Foster, P.R. Guthrie, C.A. Heflinger, E.W. Lambert, Wm.T. Summerfelt, 2004-05-31 Based on a five year evaluation of an 80 million U S Army demonstration program this first of its kind study explores the cost effectiveness of a managed care model of service delivery for children and adolescents with mental health and substance addiction problems Contributions report on the quality cost and clinical outcome and raise critical questions about the effectiveness of mental health services and their delivery in community settings Chapters describe new approaches to measurement and provide analyses assisting future research on managed care **Handbook of Research in Pediatric and Clinical Child**

Psychology Dennis Drotar, 2013-11-11 The professional development of researchers is critical for the future development of the fields of pediatric and clinical child psychology In order to conduct research in pediatric and clinical child psychology researchers need to work with a wide range of populations and master an increasingly wide range of skills many of which are either not formally taught or considered in sufficient depth in clinical training Such skills include the development of resources for research by writing grants to government agencies and foundations skills in preparing research for publications concerning original research review articles or case reports scientific presentation skills the ability to review and edit scientific manuscripts and to implement and manage research in applied settings Moreover the increasing complexity of research in pediatric and clinical child psychology requires successful researchers in these fields to develop their expertise with a wide range of new specialized methodologies data analytic methods models of data analysis and methods of assessment Finally to enhance the relevance of their research to practice researchers in pediatric and clinical child psychology need to integrate their work with clinical service delivery programs that are based on empirical research The necessity to train researchers in pediatric and clinical child psychology in such multifaceted knowledge and skills places extraordinary burdens on professional training programs Professional researchers in pediatric and clinical child psychology also are challenged to develop new knowledge and skills through continuing education and faculty development programs

Providing Mental Health Services to Youth Where They Are Harinder S. Ghuman, Mark D. Weist, Richard M. Sarles, 2013-08-21 Barriers to community mental health centers such as stigma waiting lists prevent youth from receiving necessary services Providing Mental Health Services to Youth Where They Are identifies the reform that is needed in children's mental health service As the issues of systems of mental health care have received increased attention so has the recognition of the benefits of providing services to youth where they are that is in natural settings such as home or school Principles to include in systems of mental health care for youth are as equally important as actually reaching the youth involvement of families school staff community leaders and clergy The development of programs are matched to the developmental cultural and other needs of youth in a community so they mesh with existing services This book describes how these principles play out in school home and community based mental health programs for youth *Asian American and*

Pacific Islander Children and Mental Health Frederick T. Leong, Linda Juang, Desiree B. Qin, Hiram E. Fitzgerald, 2011-05-26 This first of its kind two volume set examines physical psychological social and environmental factors that undermine or support healthy development in Asian American children How do skin color culture racial and ethnic identities politics economics and environment influence children s mental health and academic success Asian American and Pacific Islander Children and Mental Health spotlights these forces and more This unique two volume work examines a wide range of factors that affect children including family conditions and economic status child abuse substance abuse gangs and community stability as well as prejudices such as the common expectation that Asian Americans are a model minority and their children whiz kids Since education is key to success contributors consider the factors affecting Asian American children largely in the context of educational readiness and academic adjustment However the set is not limited to exploring problems It also looks at factors that help Asian American children be mentally healthy engaged and successful at school and in later life Volume one of the set explores development and context while volume two looks at prevention and treatment **The Field**

Treating and Preventing Adolescent Mental Health Disorders Dwight L. Evans,2005-07-14 Publisher description

Parenting Mentally Ill Children Craig Winston LeCroy,2011-03-03 This in depth exploration uses individual portraits to show what parents face as they love and care for their mentally ill children and cope with how the mental health system has failed them The Surgeon General has identified children s mental illness as a national problem that creates a burden of suffering so serious as to be considered a health crisis Yet what it means to be the parent of a mentally ill child has not been adequately considered until now Parenting Mentally Ill Children Faith Caring Support and Survival captures the essence of caring for these youngsters providing resources and understanding for parents and an instructive lesson for society Author Craig Winston LeCroy uses in depth interviews to chronicle the experiences of parents of mentally ill children as they attempt to survive each day obtain needed help and reach out for support and he lets them share

their misunderstood emotions of shame anger fear guilt and powerlessness in the face of stigma from professionals family and friends The book concludes with a critical appraisal of the social policies that must be implemented to help and the reasons we should feel obligated to initiate them

Treating and Preventing Adolescent Mental Health Disorders Dwight L. Evans M.D., Edna B. Foa Ph.D., Raquel E. Gur M.D., Ph.D., Herbert Hendin M.D., Charles P. O'Brien M.D., Ph.D., Martin E. P. Seligman Ph.D., B. Timothy Walsh M.D., 2005-07-14

Following on the heels of the widely acclaimed *A Guide to Treatments That Work* OUP 2002 by Nathan and Gorman *Treating and Preventing Adolescent Mental Health Disorders* brings together a distinguished group of psychiatrists and clinical psychologists to provide a groundbreaking evidence based survey of treatments and preventions for adolescents with mental health disorders The book the very first to disseminate the findings of the Adolescent Mental Health Initiative sponsored by the Annenberg Foundation Trust at Sunnylands and the Annenberg Public Policy Center APPC of the University of Pennsylvania addresses the current state of our knowledge about various mental health disorders in the teenage years a developmental period when behavior and the brain are still plastic Here six commissions established by the Sunnylands Trust and APPC pool their expertise on adolescent anxiety schizophrenia substance use disorders depression and bipolar disorders eating disorders and suicide in sections that thoroughly define each disorder outline and assess available treatments discuss prevention strategies and suggest a research agenda based on what we know and don't yet know about these various conditions As a meaningful counterpoint to its primary focus on mental illness the volume also incorporates the latest research from a seventh commission on positive youth development which addresses how we can fully prepare young people to be happy and successful throughout their lives Concluding chapters discuss other critical issues of particular relevance the stigma of mental illness the role of primary care doctors and school based mental health professionals in the detection and treatment of adolescent mental health problems and the research policy and practice context for the delivery of evidence based treatments Integrating the work of eminent scholars in both psychology and psychiatry this work will be an essential volume for academics and practicing clinicians and will serve as a wake up call to mental health professionals and policy makers alike about the state of our nation's response to the needs of adolescents with mental disorders The Association of American Publishers 2005 Award Winner for Excellence in Professional and Scholarly Publishing Clinical Medicine
