Reconstructing Judicial Review Sarah Nason, 2016-12-01 This book offers a new interpretation of judicial review in England and Wales as being concerned with the advancement of justice and good governance as opposed to being concerned primarily with ultra vires or common law constitutionalism It is developed both from examining the functions and values that ought to be served by judicial review and from analysis of empirical social facts about judicial review primarily as experienced in the Administrative Court Based on ground up case law analysis it constructs a new taxonomy on the grounds of judicial review mistake procedural impropriety ordinary common law statutory interpretation discretionary impropriety relevant irrelevant considerations breach of an ECHR protected right or equality duty and constitutional allocation of powers constitutional rights or other complex constitutional principles It explains each of these grounds what academic and judicial support there might be for them outside case law analysis and their similarities and differences when viewed against popular existing taxonomies It concludes that Administrative Court judges are engaged in ordinary common law statutory interpretation in approximately half of all cases and that where discretionary judgement is involved on the part of the initial decision maker judges do indeed consider their task to be one of determining whether the challenged decision was justified by reasoning of adequate quality It finds that judges apply ordinary common law principles of statutory interpretation with historical pedigrees including assessing the initial decision maker's reasoning with reference to statutory purpose and sifting relevant from irrelevant considerations including moral considerations The result is a ground breaking reassessment of the grounds of judicial review in England and Wales and the practice of the Administrative Court

The Autonomy of Labour Law Alan Bogg, Cathryn Costello, ACL Davies, Jeremias Adams-Prassl, 2015-03-26 To what extent is labour law an autonomous field of study This book is based upon the papers written by a group of leading international scholars on this theme delivered at a conference to mark Professor Mark

Freedland's retirement from his teaching fellowship in Oxford. The chapters explore the boundaries and connections between labour law and other legal disciplines such as company law, competition law, contract law and public law; labour law and legal methodologies such as reflexive governance and comparative law; and labour law and other disciplines such as ethics, economics and political philosophy. In so doing, it represents a cross section of the most sophisticated current work at the cutting edge of labour law theory.

The Business of Judging Tom Bingham, 2011-09-08. Tom Bingham 1933-2010 was the greatest judge of our time. *The Guardian*: a towering figure in modern British public life who championed the rule of law and human rights inside and outside the courtroom. *The Business of Judging* collects Bingham's most important writings during his period in judicial office before the House of Lords. The papers collected here offer Bingham's views on a wide range of issues ranging from the ethics of judging to the role of law in a diverse society. They include his reflections on the main contours of English public and criminal law and his early work on the incorporation of the European Convention on Human Rights and reforming the constitution. Written in the accessible style that made *The Rule of Law* 2010 a popular success, the book will be essential reading for all those working in law and an engaging inroad to understanding the role of the law and courts in public life for the general reader.

New Directions in Private Law Theory Fabiana Bettini, Martin Fischer, Charles Mitchell, Prince Saprai, 2023-10-16. *New Directions in Private Law Theory* brings together some of the best new work on private law theory reflecting the breadth of this increasingly important field. The contributions interrogate a wide range of topics including aspects of private law doctrine, its development, ordering and application. The authors adopt a variety of different approaches and contribute to ongoing and important debates about the moral foundations of private law, the individuation of areas of private law and the connections between private law and everyday moral experience. Questions addressed include: Does the diversity identified amongst claims in unjust enrichment mean that the category is incoherent? Are claims in tort law always about compensating for wrongs? How should we understand parties' agreement in contract? The contributions shed new light on these and other topics and the ways in which they intersect and open up new lines of scholarly enquiry. The book will be of interest to researchers working in private law and legal theory but it will also appeal to those outside of law, most notably researchers with an interest in moral and political philosophy, economics and history.

The Separation of Powers in the Contemporary Constitution Roger Masterman, 2010-12-02. In this 2010 book Roger Masterman examines the dividing lines between the powers of the judicial branch of government and those of the executive and legislative branches in the light of two of the most significant constitutional reforms of recent years: the Human Rights Act 1998 and the Constitutional Reform Act 2005. Both statutes have implications for the separation of powers within the United Kingdom constitution. The Human Rights Act brings the judges into much closer proximity with the decisions of political actors than previously permitted by the *Wednesbury* standard of review and the doctrine of parliamentary sovereignty, while the Constitutional Reform Act marks the emergence of an institutionally independent judicial branch. Taken together, the two

legislative schemes form the backbone of a more comprehensive system of constitutional checks and balances policed by a judicial branch underpinned by the legitimacy of institutional independence

Equality, Dignity, and Same-Sex Marriage Man Yee Karen Lee, 2010-04-06 This book investigates the concepts of equality and dignity under same sex marriage jurisprudence Having surveyed the multinational developments of same sex marriage and arguments from proponents and opponents the writer studies the two concepts with an aim to revealing their inadequacies as grounds for contentious rights claims such as same sex marriage To truly live up to the spirit of equality and equal dignity the writer argues that the seemingly uncompromising disagreement over the issue requires people to explore common ground to make room for deliberation It also requires the disagreeing parties to acknowledge that their disagreement is about the best interpretation of fundamental values that everyone shares and not confrontation between conflicting worldviews neither of which is comprehensible to the other **The Oxford Handbook of Comparative**
