## **New Egalitarianism:**

*The New Egalitarianism* Anthony Giddens, Patrick Diamond, 2005-08-05 This book tackles one of the most pressing issues currently facing centre left governments social inequality At a time when the traditional mechanisms of social cohesion have been undermined by greater individualism the globalization of production and the fragmentation of social life the challenges posed by inequality are more pronounced than ever before As communities and cultures become more complex social solidarity and social justice can increasingly seem like impossible ideals Bringing together original contributions from globally renowned thinkers such as Gosta Esping Andersen Saskia Sassen Ulrich Beck and Anthony Giddens as well as senior New Labour figures the book offers a coherent account of the dynamic and multi faceted nature of contemporary inequality and lays out how these inequalities can be countered Drawing on a wide range of evidence and the experiences of governments worldwide it proposes a fresh agenda for social change The Editors propose a new egalitarianism an approach to equality consistent with the demands of a post modern economy and society The book shows that there is a viable future for a left of centre politics anchored in egalitarian values but that it requires a break with some core assumptions of the past The New Egalitarianism will be essential reading for anyone concerned about social inequality and the future of democratic politics

**The Fourth Great Awakening and the Future of Egalitarianism** Robert William Fogel, 2000 Robert William Fogel was awarded the Nobel Prize in Economic Science in 1993 To take a trip around the mind of Robert Fogel one of the grand old men of American economic history is a rare treat At every turning you come upon some shiny pearl of information The Economist In this broad thinking and profound piece of history Robert William Fogel synthesizes an amazing range of data into a bold and intriguing view of America s past and future one in which the periodic Great Awakenings of religion bring about waves of social reform the material lives of even the poorest Americans improve steadily and the nation now stands poised for a renewed burst of egalitarian progress

*The New Egalitarianism* Adam G. Martin, 2017 The New Egalitarianism is a strain of thought that draws heavily on critical theory and structuralism arguing that disparities between groups are due to systemic oppression This article argues that implementing New Egalitarian ideals in practice would involve transforming morality into an obscurantist epistocracy The New Egalitarianism is epistocratic in that it relies on the existence of moral experts to determine which actions perpetuate systemic oppression and which advance equality It is obscurantist in that New Egalitarians tend to question the standing of critics rather than engaging with the substance of their criticism I contrast these tendencies with a Hayekian view of social morality arguing that implementing New Egalitarian ideas may run afoul of the moral requirements of an extended social order

*Super Rich* George Irvin, 2013-04-26 In the past 25 years the distribution of income and wealth in Britain and the US has grown enormously unequal far more so than in other advanced countries The book which is aimed at both an academic and a general audience examines how this happened starting with the economic shocks of the 1970s and the neo liberal policies first applied under Thatcher and Reagan In

essence growing inequality and economic instability is seen as driven by a US style model of free market capitalism that is increasingly deregulated and dominated by the financial sector Using a wealth of examples and empirical data the book explores the social costs entailed by relative deprivation and widespread income insecurity costs which affect not just the poor but now reach well into the middle classes Uniquely the author shows how inequality changing consumption patterns and global financial turbulence are interlinked The view that growing inequality is an inevitable consequence of globalisation and that public finances must be squeezed is firmly rejected Instead it is argued that advanced economies need more progressive taxation to dampen fluctuations and to fund higher levels of social provision taking the Nordic countries as exemplary The broad political goal should be to return within a generation to the lower degree of income inequality which prevailed in Britain and the US during the years of post war prosperity

Egalitarianism Nils Holtug, Kasper Lippert-Rasmussen, 2006-11-30 Egalitarianism the view that equality matters attracts a great deal of attention amongst contemporary political theorists And yet it has turned out to be surprisingly difficult to provide a fully satisfactory egalitarian theory The cutting edge articles in *Egalitarianism* move the debate forward They are written by some of the leading political philosophers in the field Recent issues in the debate over equality are given careful consideration the distinction between telic and deontic egalitarianism prioritarianism and the so called levelling down objection to egalitarianism whether egalitarian justice should have whole lives or some subset thereof as its temporal focus the implications of Scanlon's contractualist account of the value of choice for egalitarian justice and the question of whether non human animals fall within the scope of egalitarianism and if so what the implications are Numerous classic issues receive a new treatment too how egalitarianism can be justified and how if at all this value should be combined with other values such as desert liberty and sufficiency how to define the worst off for the purposes of Rawls difference principle Elizabeth Anderson's feminist account of equality of relations how equality applies to risky choices and in particular whether it is justifiable to restrict the freedom of suppliers who wish to release goods that confer different levels of risk on consumers depending on their ability to pay Finally the implications of egalitarianism and prioritarianism for health care are scrutinized The contributors to the volume are Richard Arneson Linda Barclay Thomas Christiano Nils Holtug Susan Hurley Kasper Lippert Rasmussen Dennis McKerlie Ingmar Persson Bertil Tungodden Peter Vallentyne Andrew Williams and Jonathan Wolff

Harvard University Co published with the Institute for Educational Affairs      **Equality and Liberty** Kai Nielsen,1985  
 Probably no issue is more confounding in the social policy arena or more closely argued among political philosophers than the question of the relationship between equality and liberty are they compatible in a just society In a systematic discussion that expands our understanding of what constitutes liberty equality and especially justice Professor Nielsen puts forth a vigorous defense of an uncompromising egalitarianism based on a commitment to the belief that the interests of everyone matter and matter equally Marshalling the most persistent arguments against egalitarianism the author presents accounts of Nietzschean elitism meritocracy and conservative libertarianism as well as various shades of egalitarianism and systematically responds to each opposing view Followers of contemporary debates will especially welcome Nielsen s searching critiques of the liberal egalitarianism of John Rawls and Ronald Dworkin and of the conservative libertarianism of Milton Friedman Frederick Hayek and particularly Robert Nozick      **In All Fairness** Robert M. Whaples,Michael C. Munger,Christopher J. Coyne,2019-10-01 Has growing concern about inequality led to proposals to remake American society according to ill conceived and coercive egalitarian measures that are fundamentally unjust and harmful This unique book reveals the modern romance with equality of outcomes as destructive folly Those elites and bureaucrats who advocate such notions claim that they champion the poor but more often than not the nostrums of this managerial class undermine rather than advance economic and civil liberties mass prosperity and human well being The authors of In All Fairness challenge all of the prevailing egalitarian ideas including the claim that market based societies are riven by the social injustice of inequity in the first place After all an economy thrives with a division of labor that allows individuals who are unequal in interests and talents to pursue their own unique goals Looked at in this way equality is far more widespread than misplaced rhetoric might lead one to expect as factual data show But it is an equality of a particularly valuable type one arrived at not by top down oilgarchic attempts to impose economic uniformity but by our respecting inviolable rules of fair play and the dignity of each person a dignity that requires everyone to respect the voluntary transactions of others This approach holds equity liberty diversity and prosperity together Would we want it any other way in America and anywhere around the world The authors draw on economics philosophy religion law political science and history to provide answers to a perennial question that especially agitates the American public today Can the coercive powers of the state be used to achieve a kind of arithmetic equality The authors each in their own way make a strong case that such powers should never be used in this fashion Love inequality or loathe it In All Fairness is full of key insights about the connections among fairness liberty equality and the quest for human dignity You won t think about wealth and poverty equality and inequality in the same way ever again
