**Adrienne Rich's Later Poetry** Alec Marsh, 2024-12-12 Reorienting understandings of Adrienne Rich's later work through her interest in Marx and Marxist politics this book engages with this overlooked part of her oeuvre through considerations of issues such as race nationhood and gender From 1983 onward after she visited revolutionary Nicaragua until the end of her life Rich's political vision can best be described as Marxist Humanist Until recently very little attention has been paid to Rich's interest in Marx there is no in depth treatment of the effect of Marx's humanistic philosophy on Rich's later work or even on her unwavering but altered dedication to Women's Liberation This book fills this gap showing how Rich's discovery of Marx's humanism affected her poetry In doing so it makes a significant intervention into debates about the direction of American poetics and argues powerfully for a greater consciousness of political engagement through poetry

Correll, 2006-04 Autumn Smythe doesn't foresee anything unusual on the early October evening when she drives home from a party But her entire world changes when she finds herself lost in a dark forest during a blizzard She seeks shelter at The Inn at the End of the Road where a ghostly innkeeper saves her from the storm but charges her with an unusual mission she cannot decline Autumn leaves the next morning on an unwilling quest to locate a man whose identity is a mystery What ensues is a thrilling adventure that winds through the White Mountains of New Hampshire and chilling dreamscapes through Boston's oldest neighborhoods and finally a graveyard in a distant land Haunted by her dreams and frightened by shocking news about the innkeeper's death Autumn seeks distraction in the arms of a handsome stranger The stranger's fiery passion leads her perilously close to losing herself in a world of violence and deceit But her terrors are compounded when she unveils the identity of the man she is to find Autumn finds herself torn between two lovers and forced to make a decision that leads her to the most thrilling discovery of all that love is powerful enough to transcend even death      **Junior High School Literature ...** William Harris Elson, Christine M. Davis,1985 Lists over 5 200 titles of books published by American poets between 1973 and 1983 *Poems of American History* Various ,2015-01-26 Example in this ebook The poetry relating to American history falls naturally into two classes that written so to speak from the inside on the spot and that written from the outside long afterwards Of the first class The Star Spangled Banner is the most famous example as well as perhaps the best Even at this distant day reading it with a knowledge of the circumstances which produced it it has a power of touching the heart and gripping the imagination which goes far toward proving the genuineness of its art Of the second class Paul Revere s Ride is probably the most widely known though Mr Longfellow s own Ballad of the French Fleet is a better poem It is evident that in compiling an anthology such as this different standards must be used in judging these two classes The first

aside from any quality as poetry which it may have is of value because of its historical or political interest because it is an expression and an interpretation of the hour which gave it birth With it poetic merit is not the first consideration which is perhaps as well Yet however slight their merit as poetry may be many of the early ballads possess an admirable energy directness and aptness of phrase and there is about them a childlike simplicity impossible of reproduction in this sophisticated age as where Stephen Tilden in his epitaph on Braddock requests the great commanders who have preceded that unfortunate soldier to the grave to Edge close and give him room With the retrospective ballad on the other hand poetic merit is a sine qua non It has little value historically however accurate its facts It differs from the contemporary ballad in the same way that the New Canterbury Tales differ from Froissart or as the Idylls of the King differ from Le Morte Arthur It is less authentic less convincing less vital It may have atmosphere but there is no infallible way of telling whether the atmosphere is right Unless it is something more than mere metrical history the modern ballad has little claim to consideration These are the two principles which the present compiler has had constantly in mind Yet the second principle has been violated more than once since in a collection such as this one must cut one's coat according to the cloth or rather one must make sure that one is decently covered though the covering may here and there be somewhat inferior in quality So it has been necessary in order to keep the thread of history unbroken to admit some strands anything but silken and if the choice has sometimes been of ills rather than of goods the compiler can only hope that he chose wisely The most difficult and trying portion of his task has been not to get his material together but to compress it into reasonable limits Especially in the colonial period was the temptation great to include more early American verse Peter Folger's A Looking Glass for the Times Benjamin Thompson's New England's Crisis Michael Wigglesworth's God's Controversy with New England the Sot Weed Factor and many others which it is recalling an old sorrow to name here were excluded only after long and bitter debate No doubt other exclusions will be noticed by nearly every reader of the volume and it may interest him to know that the material gathered together would have made four such books as this To be continue in this ebook

### **Beneath the Second Sun**

Adam W. Sweeting, 2003 Indian summer the succession of warm fair days gracing New England in autumn is at once a flourishing period signaling the end of fall a meteorological event a vernacular cultural construction and a literary metaphor In this appealing and elegant book Sweeting plumbs Indian summer's use in literature as a symbol of second chance rebirth or reprieve before the onset of a harsher season Well researched and charmingly written Beneath the Second Sun is the first book to systematically treat the history and uses of Indian summer imagery in American life The author focuses on the ways in which New Englanders have embraced the season and he places the celebration of the season's beauty and its melancholy qualities within the context of Anglo Native American relations Sweeting does not try to locate the original definition of Indian summer rather he explores the far more interesting ways in which the season has been imagined and described in American culture Popular authors including Philip Freneau Susan Cooper Lydia Sigourney John Greenleaf Whittier Francis

Parkman Oliver Wendell Holmes and especially Henry David Thoreau Emily Dickinson and William Dean Howells freely employ Indian summer imagery in their works In the context of modern American Studies Sweeting s study is part of a post modern scholarly discussion of how tangible realities such as climate are mediated even forged by social needs Sweeting further investigates the imaginative early nineteenth century invention of New England regional identity and integrates traditional American Studies literary and historical concerns with a contemporary interest in the environment and sense of place Sweeting s graceful lively and accessible style beckons not only scholars of American literature and the nineteenth century but any traveler seeking the glories of autumn in New England Middle Distance: Poems Stanley

it is large indeed in its contribution to the nation's literature. *Garnet Poems* features forty-two poets whose work has a strong connection to Connecticut. The first major anthology of Connecticut poetry to appear since the mid-nineteenth century, it includes the work of such notable poets as Wallace Stevens, Lydia Sigourney, Mark Van Doren, Richard Wilbur, Susan Howe, and Elizabeth Alexander. Distinguished writer-scholar Dennis Barone has supplemented the poems with an editor's preface, notes that illuminate the poet's or poem's relation to the state, and informative biographies.
