Central Asia Dianne Louise Smith, 1996 In January 1996 the U S Army War College s Strategic Studies Institute SSI and the Center for Strategic and International Studies CSIS hosted a conference on Asian Security to the Year 2000 One focus of the conferees was the growing relevance of events in Central Asia Perhaps nowhere on the continent was the Cold War transformation in the security environment more dramatic than in Central Asia There the sudden retraction of Soviet power and decline in superpower competition was rapidly followed by the creation of new states whose prospects for legitimacy development and independent survival were at best uncertain The half decade that has followed the dissolution of the Soviet Union has not been sufficient time for any of the vast challenges facing Central Asia to have been addressed definitively Nor can we be confident that a stable regional system has coalesced Yet the past 5 years

have produced an emerging pattern of relations amenable to tentative analysis Lieutenant Colonel Dianne Smith of SSI details the complex problems facing the region and then turns her attention to Central Asia's evolving security structure By involving the Great Game analogy she takes the perspective that for this part of the continent it is the nations surrounding the region that will play the primary role in shaping its future although the new Central Asian nations are participants not pawns in this struggle for influence Colonel Smith's analysis focuses on the interests and actions of five of those surrounding nations Iran Pakistan India Russia and China Each has significant interests in Central Asia and each thus far has tempered to some degree its actions to advance those interests in recognition of the competing objectives of the others For the United States a power vacuum in Central Asia seems a remote concern at first blush New Geopolitics of Central Asia and the Caucasus Mustafa Aydın,2000 *The New Geopolitics of Central Asia* Ali Banuazizi, Myron Weiner,1995 This book focuses on the newly independent Muslim republics of the former Soviet Union in Central Asia especially Uzbekistan Tajikistan and Azerbaijan It examines the recent economic and political developments in these states with reference to the lingering legacy of Tsarist Russian and Soviet rule the resurgence of an Islamic political identity the persistence of ethnic allegiances and rivalries and the nascent democratic aspirations of their peoples A distinguishing feature of the book is its emphasis on the long standing religious ethnic and cultural ties between the peoples of Central Asia and those of the four South west Asian states of Afghanistan Iran Pakistan and Turkey Viewing the new alliances rivalries and potential conflicts among these states within a regional context the authors provide an informed assessment of the geopolitics of a region with a population of over 300 000 000 people The implications of these regional developments for the West are also set out Bloomsbury Publishing

New Geopolitics of Central Asia and the Causes Mustafa Aydın,2000 *New Geopolitics of Central Asia and the Caucasus* Mustafa Aydın,2000 **Tajikistan in the New Central Asia** Lena Jonson,2006-08-25 Central Asia has become the battleground for the major struggles of the 21st century radical Islam versus secularism authoritarianism versus identity politics Eastern versus Western control of resources and the American War on Terror Nowhere are these conflicts more starkly illustrated than in the case of Tajikistan Embedded in the oil rich Central Asian region and bordering war torn Afghanistan Tajikistan occupies a geo strategically pivotal position It is also a major transit hub for the smuggling of opium which eventually ends up in the hands of heroin dealers in Western cities In this timely book Lena Jonson examines Tajikistan's search for a foreign policy in the post 9 11 environment She shows the internal contradictions of a country in every sense at the crossroads reconciling its bloody past with an uncertain future She assesses the impact of regional developments on the reform movement in Tajikistan and in turn examines how changes in Tajik society which is the only Central Asian country to have a legal Islamist party might affect the region The destiny of Tajikistan is intimately connected with that of Central Asia and this thorough and penetrating book is essential reading for anyone seeking to make sense of this complex and important region China's Western Horizon Daniel Markey,2020-02-03 Under the ambitious leadership of President Xi Jinping China

is zealously transforming its wealth and economic power into potent tools of global political influence But China's foreign policy initiatives even the vaunted Belt and Road will be shaped and redefined as they confront the ground realities of local and regional politics outside China In China's Western Horizon Daniel S Markey a scholar of international relations and former member of the U S State Department's policy planning staff previews how China's efforts are likely to play out along its western horizon across the swath of Eurasia that includes South Asia Central Asia and the Middle East Drawing from extensive interviews travels and historical research Markey describes how perceptions of China vary widely within states such as Pakistan Kazakhstan and Iran Powerful and privileged groups across the region often expect to profit from their connections to China while others fear commercial and political losses Similarly Eurasian statesmen are scrambling to harness China's energy purchases arms sales and infrastructure investment These leaders are working with China in order to outdo their strategic competitors including India and Saudi Arabia and simultaneously negotiating relations with Russia and America On balance Markey anticipates that China's deepening involvement will play to the advantage of regional strongmen and exacerbate the political tensions within and among Eurasian states To make the most of America's limited influence in China's backyard and elsewhere he argues that U S policymakers should pursue a selective and localized strategy to serve America's specific aims in Eurasia and to better compete with China over the long run

The New Central Asia Emilian Kavalski, 2010 This book focuses on Central Asia's place in world affairs and how international politics of state building has affected the Asian region thus filling the gaps in ongoing discussions on the rise of Asia in global governance It also attempts to generalize and contextualize the Central Asian experience and re-evaluate its comparative relevance by explaining the complex dynamics of Central Asian politics through a detailed analysis of the effects of major international actors both international organizations as well as current and rising great powers Publisher's description

Unity or Separation Daniel R. Kempton, Terry D. Clark, 2001-11-30 Many analysts initially believed that the process of Soviet disintegration would inevitably open a Pandora's box of ethnic nationalism and regional self-determination But despite obvious setbacks such as Chechnya the developments of the last decade have shown that while forces of disintegration remain a very real threat the fifteen successor states have managed to stay largely intact One explanation for this somewhat unexpected success is the varied strategies of center periphery relations adopted by the post-Soviet states tailored to meet the unique circumstances faced by each former republic of the Soviet Union The contributors to this up-to-date volume examine the specific cases of success and failure in center periphery relations in the former USSR and offer some provocative overall conclusions about the progress made and the impact on the process of democratization The cases examined in this volume are drawn from Russia Lithuania Ukraine Uzbekistan among others These case studies demonstrate that relations between national and local governments have been evolving differently in each of the successor states in the but in each case there has been a conscious attempt to create stable center periphery relations which give a degree of autonomy to minority groups while still providing

for a stable state and democratic development This book will be of interest to scholars and students of the former Soviet Union and those interested in federalization and center periphery **Central Asia After the Empire** Yuri Kulchik,Andrey V. Fadin,Victor M. Sergeev,1996-05 A succinct survey of the history and peoples of the new Central Asian republics

Central Asia Ajay Patnaik,2016-03-31 Throughout history Central Asia has formed an important strategic link between the East and the West and been described as the great pivot in the early twentieth century This book looks at the relations between the Central Asian states and major external powers It shows how these nations have kept the fragile geopolitics of the region free of the so called New Great Game The volume evaluates the roles of major powers such as Russia United States China Iran and Turkey as well as India and its Silk Road Strategy It also compares the regional geopolitics of Central Asia with its neighbour Caucasus The study indicates how despite limited inter state cooperation the region has prevented conflicts and wars due to which these states have been able to enjoy greater strategic autonomy in their dealings with other countries The book will benefit scholars and researchers of international relations political and strategic studies area studies and Central Asian studies apart from the interested general reader **Security Politics in the Commonwealth of**

Independent States Mehdi Mozaffari,2016-07-27 This collection with its special focus on Central Asia the Causuces and Russia combines the theoretical approach with analytical and empirical approaches The book is the first to apply concepts like security complexes alliances regionalism and integration on the Commonwealth of Independent States It offers analyses and evaluations of foreign policy and security policy in CIS states and of the regional powers the question of oil and gas as well as the role of EBRD
