

The background of the entire image is a photograph of a person standing on a dark, silhouetted hill or dune, looking up at a vast night sky. The sky is filled with stars, and the Milky Way galaxy is clearly visible, stretching diagonally across the frame from the bottom left towards the top right. The colors of the sky transition from a deep purple and blue at the top to a bright, hazy orange and yellow near the horizon where the person is standing. The overall mood is contemplative and awe-inspiring.

The New God Ralph Shirley,1912 **The New God, and Other Essays** Ralph Shirley,1911 **New God and Other Essays** Ralph Shirley,2014-03-29 This Is A New Release Of The Original 1911 Edition **The New God** Ralph Shirley,2017-12-23 Excerpt from The New God And Other Essays The essays in the present volume are not a little diverse in character and the connecting link between them may not always appear obvious but in every case they have relation nearer or more remote to problems of religion or psychic enquiry I feel that in many cases the questions which have been dealt with have been dealt with inadequately and superficially and there are several which had time permitted I should have much preferred to have rewritten I am afraid however that this would have involved an indefinite postponement of publication and I prefer to rest whatever appeal they may possess on the supreme interest of the subject matter with which they most of them at any rate deal About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works **The O.E. Library Critic** ,1913 **Looking at the Sun: New Writings in Modern Personalism** Simon Smith,Anna Castriota,2018-01-15 Every kind of exploration is touched in some way by a philosophy of persons touched and often vitally enhanced This collection sets out to mine this rich seam of influence bringing together authors keen to strike new developments and applications Together they have put their philosophy of persons to work in fields as wide ranging as the moral and the metaphysical the practical and the political the cultural and the cosmological In doing so they have drawn on and illustrated the depth and breadth of modern Personalist thought demonstrating its crucial relevance to debates across the entire philosophical spectrum Whether they are familiar with the Personalist tradition or no readers from every corner of the philosophical world will find much here to challenge and stimulate them Most importantly they will find a new and badly needed philosophical perspective **How Does God Act in the World?** David Wilkinson,2025-05-29 Does God act in the world and if God does then how These questions are central questions for Christian theology and Christian mission and ministry Is God simply a creator who then goes on holiday and leaves the universe to develop or is God the one who is embodied in Jesus the God of signs and wonders death and resurrection And what does this mean for signs and wonders today in the life of individuals and local churches From The Simpsons to a wedding in Cana from grace to quantum theory and from the problem of evil to eschatology David Wilkinson argues that the biblical picture of a God who acts in the world makes sense in the light of modern science but how God acts cannot be reduced to simple models **Person and Society in American Thought** Cornelius F. Murphy,2007 Most studies of

the development of American ideas concentrate upon the growth of our political values and institutions By contrast this unique work goes directly to the core philosophical issues surrounding our sense of personal and social identity It carefully examines the efforts of our major thinkers to elaborate a humanism adequate to our experience by breaking free from the theocentric cosmology imposed upon the nation by the New England Puritans As these reflections record the quest for a new understanding of human nature they also raise the possibility of a more comprehensive humanism grounded in a Catholic Christianity Person and Society in American Thought will be of interest to students and scholars in the disciplines of philosophy and religion as well as those of history sociology and literature Book Jacket *Pragmatism as Post-Postmodernism* Larry A. Hickman, 2018-09-18 Larry A Hickman presents John Dewey as very much at home in the busy mix of contemporary philosophy as a thinker whose work now more than fifty years after his death still furnishes fresh insights into cutting edge philosophical debates Hickman argues that it is precisely the rich pluralistic mix of contemporary philosophical discourse with its competing research programs in French inspired postmodernism phenomenology Critical Theory Heidegger studies analytic philosophy and neopragmatism all busily engaging challenging and informing one another that invites renewed examination of Dewey s central ideas Hickman offers a Dewey who both anticipated some of the central insights of French inspired postmodernism and if he were alive today would certainly be one of its most committed critics a Dewey who foresaw some of the most trenchant problems associated with fostering global citizenship and a Dewey whose core ideas are often at odds with those of some of his most ardent neopragmatist interpreters In the trio of essays that launch this book Dewey is an observer and critic of some of the central features of French inspired postmodernism and its American cousin neopragmatism In the next four Dewey enters into dialogue with contemporary critics of technology including J rgen Habermas Andrew Feenberg and Albert Borgmann The next two essays establish Dewey as an environmental philosopher of the first rank a worthy conversation partner for Holmes Ralston III Baird Callicott Bryan G Norton and Aldo Leopold The concluding essays provide novel interpretations of Dewey s views of religious belief the psychology of habit philosophical anthropology and what he termed the epistemology industry **A New God in the Diaspora?** Vineeta Sinha, 2005 A New God examines the worship of a Hindu deity known as Muneeswaran in contemporary Singapore Sinha s exploration provides an ethnographic documentation of urban based Hindu religiosity in contemporary Singapore and makes an important contribution to the global study of religion in the diasporas *Beyond the Shadowlands* (Foreword by Walter Hooper) Wayne Martindale, 2007-05-01 Those who know Lewis s work will enjoy Martindale s thorough examination of the powerful images of Heaven and Hell found in Lewis s fiction and all readers can appreciate Martindale s scholarly yet accessible tone Read this book and you will see afresh the wonder of what lies beyond the Shadowlands **The Poetics of Evil** Philip Tallon, 2012 What role do art and aesthetics play in unravelling the theological problem of evil Philip Tallon constructs an aesthetic theodicy through a fascinating examination of Christian aesthetics ranging from the writings of Augustine to

contemporary philosophy Author Under Sail James W. Williams, 2021-02 In *Author Under Sail* The Imagination of Jack London 1902 1907 Jay Williams explores Jack London's necessity to illustrate the inner workings of his vast imagination In this second installment of a three volume biography Williams captures the life of a great writer expressed through his many creative works such as *The Call of the Wild* and *White Fang* as well as his first autobiographical memoir *The Road* some of his most significant contributions to the socialist cause and notable uncompleted works During this time London became one of the most famous authors in America perhaps even the author with the highest earnings as he prepared to become an equally famous international writer *Author Under Sail* documents London's life in both a biographical and writerly fashion depicting the importance of his writing experiences as his career followed a trajectory similar to America's from 1876 to 1916 The underground forces of London's narratives were shaped by a changing capitalist society media outlets racial issues increases in women's rights and advancements in national power Williams factors in these elements while exploring London's deeply conflicted relationship with his own authorial inner life In London's work the imagination is figured as a ghost or as a ghostlike presence and the author's personas who form a dense population among his characters are portrayed as haunted or troubled in some way Along with examining the functions and works of London's exhaustive imagination Williams takes a critical look at London's ability to tell his stories to wide arrays of audiences stitching incidents together into coherent wholes so they became part of a raconteur's repertoire *Author Under Sail* provides a multidimensional examination of the life of a crucial American storyteller and essayist *Academy, with which are Incorporated Literature and the English Review*

, 1911 **No Other Gods** Robert Karl Gnuse, 1997-05-01 This is the first full scale assessment of the theological social and ideational implications of our new understandings of ancient Israel's social and religious development Scholars now stress the gradual emergence of Israel out of the culture of ancient Palestine and the surrounding ancient Near East rather than contrast Israel with the ancient world Our new paradigms stress the ongoing and unfinished nature of the monotheistic revolution which is indeed still in process today Gnuse takes a further bold step in setting the emergence of monotheism in a wider intellectual context he argues brilliantly that the interpretation of Israel's development as both an evolutionary and revolutionary process corresponds to categories of contemporary evolutionary thought in the biological and palaeontological sciences *Punctuated Equilibrium* Stubborn Fact and Creative Advance Thomas E. Hosinski, C. S. C., 1993-08-11 an attractive alternative to Victor Lowe's *Understanding Whitehead* Ivor Leclerc's *Whitehead's Metaphysics* and Donald Sherburne's *A Key to Whitehead's Process and Reality* Recommended for advanced undergraduates and beyond CHOICE

Heidegger and Happiness Matthew King, 2009-04-01 *Heidegger and Happiness* offers an original interpretation of Heidegger's later thought within the context of his philosophy as a whole to develop a new conception of human happiness The book redeems the essential content of the Greek notion of eudaimonia and transcends recent debates concerning the objectivity or subjectivity of happiness The author shows that Heidegger's thinking of being is far from arcane and abstract

and is crucially important in understanding the deepest sources of human well being An etymological examination of the word happiness frees the word from the constraints of utilitarian ways of thinking which suggest that happiness is only peripherally related to eudaimonia King demonstrates that a sense of fittingness is essential both to happiness and to eudaimonia and shows how deep happiness conceived as dwelling in our fitting together with being can serve as a grounding attunement for the thinking of being

The new God, and other essays Ralph Shirley (Hon.),1911 **New Holy Wars** Robert H. Nelson,2010-11-01

Cultural Landscapes and Land Use Martin Dieterich,Jan van der Straaten,2004-06-02

Cultural landscapes are created by people and used by people but still decidedly rich in biodiversity and in harmony with nature The landscapes of fairy tales without dragons Socio economic complexity on top of biological diversity is the challenge nature conservation faces in the context of cultural landscape This book is an attempt to approach this complexity and provide a theoretical background as well as guidelines and examples for hands on solutions It draws on inputs from scientists administrators independent consultants and politicians from Europe and the United States With a particular emphasis on agriculture it attempts to merge disciplines such as philosophy law planning economics and conservation biology toward a common goal nature conservation and the preservation of biological diversity in landscapes under the pressure of human usage
