Army Nurse United States. Army Medical Department (1968-), 1945 **A History of the U.S. Army Nurse Corps** Mary T. Sarnecky, 1999-11 Traces the history of the corps since its founding in 1901 A work essential to any study of the corps or military medicine Choice **They Called Them Angels** Kathi Jackson, 2006-03-01 With the insight and intimacy of firsthand accounts from some of the thousands of army and navy nurses who served both stateside and overseas during World War II this book tells the stories of the brave women who used any and all resources to save as many lives as possible Although military nurses could have made more money as civilians thousands chose to leave the security of home to care for the young men who went off to war They were not saints but vibrant women whose performance changed both military and civilian nursing Kathi Jackson's account follows army and navy nurses from the time they joined the military through their active service to their lives today *They Called Them Angels* presents the stories of women who lived under extraordinary circumstances in an extraordinary time women who even today bear emotional scars along with lasting pride **American Nursing** Vern L. Bullough, 2000 In the fall of 2009 with the publication of her 1 national bestselling memoir Sarah Palin had the privilege of meeting thousands of everyday Americans on her extraordinary 35 city book tour Inspired by these encounters her new book *America By Heart Reflections on Family Faith and Flag* celebrates the enduring strengths and virtues that have made this country great Framed by her strong belief in the importance of family faith and patriotism the book ranges widely over American history culture and current affairs and reflects on the key values both national and spiritual that have been such a profound part of Governor Palin's life and continue to inform her vision of America's future Written in her own refreshingly candid voice *America By Heart* will include selections from classic and contemporary readings that have moved her from the nation's founding documents to great speeches sermons letters literature and poetry biography and even some of her favorite songs and movies Here too are portraits of some of the extraordinary men and women she admires and who embody her deep love of country her strong rootedness in faith and her profound love and appreciation of family She will also draw from personal experience to amplify these timely and timeless themes themes that are sure to inspire her numerous fans and readers all across the country **G.I. Nightingales** Barbara Tomblin, 2003-11-28 Weaving together information from official sources and personal interviews Barbara Tomblin gives the first full length account of the U S Army Nurse Corps in the Second World War She describes how over 60 000 army nurses all volunteers cared for sick and wounded American soldiers in every theater of the war serving in the jungles of the Southwest Pacific the frozen reaches of Alaska and Iceland the mud of Italy and northern Europe or the heat and dust of the Middle East Many of the women in the Army Nurse Corps served in dangerous hospitals near the front lines 201 nurses were killed by accident or

enemy action and another 1 600 won decorations for meritorious service These nurses address the extreme difficulties of dealing with combat and its effects in World War II and their stories are all the more valuable to women s and military historians because they tell of the war from a very different viewpoint than that of male officers Although they were unable to achieve full equality for American women in the military during World War II army nurses did secure equal pay allowances and full military rank and they proved beyond a doubt their ability and willingness to serve and maintain excellent standards of nursing care under difficult and often dangerous conditions *33 Years of Army Nursing* Lillian Dunlap,2001 Nurses of Australia Deborah Burrows,2018-11-01 From the First Nation caregivers who healed birthed and nursed for millennia to the untrained and ill equipped convict men and women who cared for the sick in the fledgling colony of New South Wales nursing has been practised in Australia since the beginning It would take the arrival of a group of dedicated Irish nuns followed by Florence Nightingale trained nurses and decades of constant and continuing campaigning to transform nursing into what it is today the most trusted profession in Australia Nurses will recognise their own lived experience in stories about training days nurses quarters changing uniforms changing roles the arrival of male nurses and current pathways to nursing Produced in collaboration with the Australian College of Nursing and the Congress of Aboriginal and Torres Strait Islander Nurses and Midwives with additional information provided by the Australian Nursing and Midwifery Federation this is the story of nursing in Australia Solo Soldier's Stories Kathy Warnes,2018-03-16 Stories of individual soldiers throughout history *Anthropology of Nursing* Karen Holland,2019-09-09 This book aims to introduce nurses and other healthcare professionals to how anthropology can help them understand nursing as a profession and as a culture Drawing on key anthropological concepts the book facilitates the understanding and critical consideration of nursing practice as seen across a wide range of health care contexts and which impacts the delivery of appropriate care for service users Considering the fields in which nurses work the book argues that in order for nurses to optimize their roles as deliverers of patient care they must not only engage with the realities of the cultural world of the patient but also that of their own multi professional cultural environment The only book currently in the field on anthropology of nursing this book will be a valuable resource for nursing students at all academic levels especially where they can pursue specific modules in the subject as well as those other students pursuing medical anthropology courses As well as this it will be an essential text for those post graduate students who wish to consider alternative world views from anthropology and their application in nursing and healthcare in addition to their undertaking ethnographic research to explore nursing in all its fields of practice *Health at a Glance: Asia/Pacific 2010* OECD,2010-12-16 This first edition of Health at a Glance Asia Pacific presents a set of key indicators of health status the determinants of health health care resources and utilisation and health care expenditure and financing across 27 Asia Pacific countries *Explorations and Entanglements* Hartmut Berghoff, Frank Biess, Ulrike Strasser,2018-11-16 Traditionally Germany has been considered a minor player in Pacific history its presence there was more

limited than that of other European nations and whereas its European rivals established themselves as imperial forces beginning in the early modern era Germany did not seriously pursue colonialism until the nineteenth century Yet thanks to recent advances in the field emphasizing transoceanic networks and cultural encounters it is now possible to develop a more nuanced understanding of the history of Germans in the Pacific The studies gathered here offer fascinating research into German missionary commercial scientific and imperial activity against the backdrop of the Pacific s overlapping cultural circuits and complex oceanic transits
