Traces the development of modern spirituality from the origins of Romanticism in the eighteenth century through to the counter cultural sixties and on to the wellbeing culture of today. Explores the belief that modern spirituality is merely an extension of capitalism in which people consume spirituality without giving anything back. Contends that much of the wide range of popular mind body spirit practices are really an ethically charged force for the good life helping us to find balance in the demands of twenty first century living. Written by an acknowledged world leader working in the field.
