Male Sexuality Under Surveillance Graham Thompson, 2005-04 Male Sexuality under

Surveillance is a lively intelligent and expertly argued analysis of the construction of male sexuality in the business office Graham Thompson interweaves three main threads a historicized cultural analysis of the development of the modern business office from its beginnings in the early nineteenth century to the present day a Foucauldian discussion of the office as the site of various disciplinary practices and a queer theoretical discussion of the textualization of the gay male body as a device for producing a taxonomy of male male relations The combination of these themes produces a study that is fresh insightful and provocative
