PADRES Richard Edward Martínez, 2010-01-01 From the 1848 Treaty of Guadalupe Hidalgo to the 1960s Mexican American Catholics experienced racism and discrimination within the U S Catholic church as white priests and bishops maintained a racial divide in all areas of the church's ministry To oppose this religious apartheid and challenge the church to minister fairly to all of its faithful a group of Chicano priests formed PADRES Padres Asociados

para Derechos Religiosos Educativos y Sociales or Priests Associated for Religious Educational and Social Rights in 1969 Over the next twenty years of its existence PADRES became a powerful force for change within the Catholic church and for social justice within American society This book offers the first history of the founding activism victories and defeats of PADRES At the heart of the book are oral history interviews with the founders of PADRES who describe how their ministries in poor Mexican American parishes as well as their own experiences of racism and discrimination within and outside the church galvanized them into starting and sustaining the movement Richard Martinez traces the ways in which PADRES was inspired by the Chicano movement and other civil rights struggles of the 1960s and also probes its linkages with liberation theology in Latin America He uses a combination of social movement theory and organizational theory to explain why the group emerged flourished and eventually disbanded in 1989 *Latinos in New England* Andres Torres, 2006-07-15 More than one million Latinos now live in New England This is the first book to examine their impact on the region's culture politics and economics At the same time it investigates the effects of the locale on Latino residents' lives traditions and institutions Employing methodologies from a variety of disciplines twenty one contributors explore topics in three broad areas demographic trends migration and community formation and identity and politics They utilize a wide range of approaches including oral histories case studies ethnographic inquiries focus group research surveys and statistical analyses From the Dominicanization of the Latino community in Waterbury Connecticut to the immigration experiences of Brazilians in Massachusetts from the influence of Latino Catholics on New England's Catholic churches to the growth of a Latino community in Providence Rhode Island the essays included here contribute to a new and multifaceted view of the growing Pan Latino presence in the birthplace of the United States **Chaos in the Catholic Church** R. John Kinkel, PhD, 2005-07-13 The Catholic church has been in decline for several decades Whether one examines the priest sexual abuse crisis Mass attendance leadership failures or the worldwide priest shortage Dr Kinkel's message is clear reform is needed There is a sexual abuse problem and leaders did not deal with it effectively We find a code of silence missed reform opportunities and the underlying mismanagement of the chaos After documenting the cover up by bishops and others The Decline of the Catholic Church points out the contradiction bishops protect the devious priests and the church's reputation versus the need to protect children and prevent molestation in the future The book develops a very plausible explanation as to how the sex scandal mushroomed in the 1970s and why it is now apparently declining There is a priest shortage the church is short 150 000 priests worldwide based on 2002 statistics Instead of seriously examining data on church problems bishops attack research analysts who predict what the shortage of priests will look like in 2015 if nothing is done to alleviate the problem Kinkel suggests that the bishops ordain married deacons to the priesthood when feasible there are 13 000 currently Secondly married men and women should be considered for ordination Instead the bishops import foreign priests Chicago's data 50% of incardinated priests are foreign born as a stop gap measure while praising celibacy There is an

organizational problem in the church The church is run by old men who espouse conservative ideologies that fail to address modern problems The book compares global retirement trends in corporations versus church practice and finds that the Catholic church is about 15 years out of sync They must retire church leaders earlier and have term limits for bishops and popes There is a need for regular general councils which have historical precedence This is so because the present power structure of the pope and curia makes too many mistakes e g birth control bishops cover up of sex abuse Banco Ambrosiano scandal which cost all parties millions 10 years to agree on English translation for scripture readings at Mass etc Regular calling of councils can shake up this lazy monopoly Lastly Kinkel gives the most comprehensive analysis of the priest shortage in the U S and why this is the most serious problem the church faces not the sex abuse crisis The church is in the antechamber of Reformation II Catholics are losing faith

America's God Mark A. Noll, 2002-10-03

Religious life in early America is often equated with the fire and brimstone Puritanism best embodied by the theology of Cotton Mather Yet by the nineteenth century American theology had shifted dramatically away from the severe European traditions directly descended from the Protestant Reformation of which Puritanism was in the United States the most influential In its place arose a singularly American set of beliefs In America's God Mark Noll has written a biography of this new American ethos In the 125 years preceding the outbreak of the Civil War theology played an extraordinarily important role in American public and private life Its evolution had a profound impact on America's self definition The changes taking place in American theology during this period were marked by heightened spiritual inwardness a new confidence in individual reason and an attentiveness to the economic and market realities of Western life Vividly set in the social and political events of the age America's God is replete with the figures who made up the early American intellectual landscape from theologians such as Jonathan Edwards Nathaniel W Taylor William Ellery Channing and Charles Hodge and religiously inspired writers such as Harriet Beecher Stowe and Catherine Stowe to dominant political leaders of the day like Washington Jefferson and Lincoln The contributions of these thinkers combined with the religious revival of the 1740s colonial warfare with France the consuming struggle for independence and the rise of evangelical Protestantism to form a common intellectual coinage based on a rising republicanism and commonsense principles As this Christian republicanism affirmed itself it imbued in dedicated

Christians a conviction that the Bible supported their beliefs over those of all others Tragically this sense of religious purpose set the stage for the Civil War as the conviction of Christians both North and South that God was on their side served to deepen a schism that would soon rend the young nation asunder Mark Noll has given us the definitive history of Christian theology in America from the time of Jonathan Edwards to the presidency of Abraham Lincoln It is a story of a flexible and creative theological energy that over time forged a guiding national ideology the legacies of which remain with us to this day

Feminist (Im)Mobilities in Fortress(ing) North America Amy Lind, Marianne H. Marchand, 2016-04-15 Since the establishment of the North American Free Trade Agreement NAFTA tensions concerning immigration trends and policies which continued to escalate at the turn of the millennium resulted in revised national security policies in Mexico Canada and the United States These tensions have catalyzed the three governments to rethink their political and economic agendas While national feminist scholarship in and on these respective countries continue to predominate since NAFTA there has been increasing feminist inquiry in a North American regional frame Less has been done to understand challenges of the hegemonies of nation region and empire in this context and to adequately understand the meaning of im mobility in people s lives as well as the im mobilities of social theories and movements like feminism Drawing from current feminist scholarship on intimacy and political economy and using three main frameworks Fortressing Writs Exclusionary Rights Mobile Bodies Immobile Citizenships and Bordered Borderland Identities a handpicked group of established and rising feminist scholars methodically examine how the production of feminist knowledge has occurred in this region The economic racial gender and sexual normativities that have emerged and or been reconstituted in neoliberal and securitized North America further reveal the depth of regional and global restructuring

Upon This Rock Collins, Paul, 2013-05-24 The papacy is the greatest and longest lasting institution in the history of the West In Upon This Rock Paul Collins describes the evolution of the office of the papacy over the past two millennia from St Peter to Pope John Paul II Other recent histories of the papacy treat it as a political or social phenomenon Upon This Rock on the other hand examines the links between the teachings of Jesus in the New Testament the interpretations of his teachings by the Apostles and the changes and developments in the nature and understanding of the papal office under successive bishops of Rome The role and powers of the holders of the papal office have been redefined many times over the centuries Paul Collins discusses in detail the attitudes influences and teachings of each of the Popes and sets them in a historical and cultural context offering an illuminating account of developments and changes in Catholic teaching theology and liturgy
