American Revolutions John Beverley, Marc Zimmerman, 2014-02-19 This book began in what seemed like a counterfactual intuition that what had been happening in Nicaraguan poetry was essential to the victory of the Nicaraguan Revolution write John Beverley and Marc Zimmerman In our own postmodern North American culture we are long past thinking of literature as mattering much at all in the real world so how could this be This study sets out to answer that question by showing how literature has been an agent of the revolutionary process in Nicaragua El Salvador and Guatemala The book begins by discussing theory about the relationship between literature ideology and politics and charts the development of a regional system of political poetry beginning in the late nineteenth century and culminating in late twentieth century writers In this context Ernesto Cardenal of Nicaragua Roque Dalton of El Salvador and Otto René Castillo of Guatemala are among the poets who receive detailed attention *International Who's Who in Poetry 2005* Europa Publications, 2004-08-02 The 13th edition of the International Who's Who in Poetry is a unique and comprehensive guide to the leading lights and freshest talent in poetry today Containing biographies of more than 4 000 contemporary poets world wide this essential reference work provides truly international coverage In addition to the well known poets talented up and coming writers are also profiled Contents Each entry provides full career history and publication details An international appendices section lists prizes and past prize winners organizations magazines and publishers A summary of poetic forms and rhyme schemes The career profile section is supplemented by lists of Poets Laureate Oxford University professors of poetry poet winners of the Nobel Prize for Literature winners of the Pulitzer Prize for American Poetry and of the King's Queen's Gold medal and other poetry prizes

The Cambridge Introduction to Spanish Poetry D. Gareth Walters, 2002-11-28 The Cambridge Introduction to Spanish Poetry comprises an extended survey of poetry written in Spanish from the Middle Ages to the present day including both Iberian and Latin American writing This volume offers a non chronological approach to the subject in order to highlight the continuity and persistence of genres and forms epic ballad sonnet and of themes and motifs love religious and moral poetry satirical and pure poetry It also supplies a thorough examination of the various interactions between author text and reader Containing abundant quotation it gives a refreshing introduction to an impressive and varied body of poetry from two

continents and is an accessible and wide ranging reference work designed specifically for use on undergraduate and taught graduate courses The most comprehensive work of its kind available it will be an invaluable resource for students and teachers alike

The Poetry of the Americas Harris Feinsod, 2017-09-08 The Poetry of the Americas offers a lively and detailed history of relations among poets in the US and Latin America spanning three decades from the Good Neighbor diplomacy of World War II through the Cold War cultural policies of the late 1960s Connecting works by Martin Armstrong, Elizabeth Bishop, Paul Blackburn, Jorge Luis Borges, Julia de Burgos, Ernesto Cardenal, Jorge Carrera Andrade, Allen Ginsberg, Langston Hughes, Jos Lezama, Lima, Pablo Neruda, Charles Olson, Octavio Paz, Heberto Padilla, Wallace Stevens, Derek Walcott, William Carlos Williams and many others Feinsod reveals how poets of many nations imagined a poetry of the Americas that linked multiple cultures even as it reflected the inequities of the inter American political system This account offers a rich contextual study of the state sponsored institutions and the countercultural networks that sustained this poetry from Nelson Rockefeller's Office of the Coordinator for Inter American Affairs to the mid 1960s avant garde scene in Mexico City This innovative literary historical project enables new readings of such canonical poems as Stevens's Notes Toward a Supreme Fiction and Neruda's The Heights of Macchu Picchu but it positions these alongside lesser known poetry translations anthologies literary journals and private correspondences culled from library archives across the Americas The Poetry of the Americas thus broadens the horizons of reception and mutual influence and of formal historical and political possibility through which we encounter midcentury American poetry recasting traditional categories of US or Latin American literature within a truly hemispheric vision

New British Poetries Robert Hampson, 1995 This collection of essays covers the wide range of innovative but neglected poetry which flourished in journals and presses outside the mainstream during the period 1970-1990

Resistance Literature Barbara Harlow, 2023-03-01 As one of the foundational texts in the field of postcolonial writing Barbara Harlow's Resistance Literature introduced new ground in Western literary studies Originally published in 1987 and now reissued with a new Preface by Mia Carter this powerfully argued and controversial critique develops an approach to literature which is essentially political Resistance Literature introduces the reader to the role of literature in the liberation movements of the developing world during the 20th Century It considers a body of writing largely ignored in the west Although the book is organized according to generic topics poetry narrative prison memoirs thematic topics and the specific historical conditions that influence the cultural and political strategies of various resistance struggles including those of Palestine Nicaragua and South Africa are brought to the fore Among the questions raised are the role of women in the developing world communication in circumstances of extreme atomization literature versus propaganda censorship and the problem of adopting literary forms identified with the oppressor culture
