Our Sustainable Table:

Our Sustainable Table Robert Clark, 2016-11-21 In this collection of thirteen provocative essays Wendell Berry discusses the pleasures of eating Gretel Ehrlich describes her struggle to produce clean lean beef on her ranch in Wyoming Frances Moore Lappe sets forth her vision of a system that is environmentally economically and culturally sustainable Wes Jackson condemns the shortsighted bottom line goals of modern agribusiness Alice Waters recounts the early days of her famous Bay Area restaurant's painstaking pursuit of a supply chain of reliably good ingredients and Gary Nabhan discusses food health and Native American agriculture They are joined by Bruce Brown Edward Behr Paul Gruchow Mark Kramer Anne Mendelson and Will Weaver In this remarkable collection these essays link a decline in the quality of food with a historical deterioration of the quality of American farm life while making it clear that food that tastes good and is good for you is not just a private indulgence but a force for sustaining families and communities First published by The Journal of Gastronomy it is a pleasure to see this seminal groundbreaking anthology back into print now with a new introduction by Mary Berry founding director of the Berry Center

Our Sustainable Table Robert Clark, 1989 Thirteen essays by food producers and consumers address such topics as holistic resource management environmentally sustainable systems and the shortsightedness of modern agribusiness

,1998 *Under The Blade* Thomas Lyson,2018-05-04 Under the Blade The Conversion of Agricultural Landscapes examines the patterns causes and consequences of current land use decisions in the United States particularly the conversion of farmland to housing roads and other development Changes in land use are the result of complex interactions among law economics landscape characteristics social and political forces ethics and aesthetics By examining farmland loss from each of these perspectives and then integrating the results into policy recommendations Under the Blade makes an important contribution to the ongoing debate on the optimal use of a finite resource land In 1998 the last farm in Des Plaines Illinois was subdivided Seven acres along the Niobrara River in north central Nebraska sold for USD5700 per acre twenty times the price for agricultural use Waukesha County Wisconsin although still largely in agriculture has been almost entirely zoned for small lot subdivisions Nationwide the cumulative effect of thousands of individual land use decisions is an orgiastic devouring of the countryside that consumes at least 1 4 million acres of rural land each year and fragments a much larger area The effects on landscape functions include loss of agricultural production water pollution increases in local runoff and flooding loss of habitat and biodiversity and the loss of natural beauty In exchange we get malls retail strips and an ugly sprawl that degrades people and community How have we come to this and more importantly how might we find a better sustainable approach to the use of land Land use decisions are the result of complex interactions among law economics landscape characteristics population growth social and political forces ethics and aesthetics Under the Blade The Conversion of Agricultural Landscapes examines the loss of farmland and other rural lands from each of these perspectives and shows how interactions among different factors greatly complicate sustainable land management Included throughout the seven main chapters of the book are descriptions of some of the tools and strategies that can be used to preserve farmland and guide development The application of these tools is illustrated by 22 case studies of towns and regions throughout the United States each with a somewhat different challenge response and degree of success or failure Dietrich Bonhoeffer a Protestant theologian hanged by the Nazis in 1945 stated that the ultimate test of a moral society is the kind of world that it leaves to its children Our current choices in the use of the land are among the most important factors shaping that future world and Under the Blade demonstrates that the quality of that future is far from certain

The Atonement Creating Unions

Godfrey Kesari, 2019-01-01 Why did Jesus die on the cross Does the atonement have any spiritual significance This book is a bold and imaginative endeavor to make atonement theology rational in a fresh way in our interreligious world Seeking connections between Christian and Hindu thinking in order to create hermeneutical bridges Godfrey Kesari aims to open up creative ways of reimagining the doctrine of the atonement which is so central to the Christian message Kesari retains the particularity of the unique events embracing the life suffering and death of Christ while linking clearly to the more universal considerations that are encountered within Visistadvaitic Hinduism These explorations in turn contribute to a new way of seeing the Christian revelation This is a ground breaking work that attempts to find a way of treating and defending the centrality and theological significance of the atonement with contextual relevance

Sins of the Spirit, Blessings of the Flesh, Revised Edition Matthew Fox, 2016-03-15 Visionary theologian and award winning author Matthew Fox challenges traditional perceptions of good and evil by offering a new theology that lays the groundwork for a more enlightened treatment of ourselves one another and all of nature In this revised edition with a luminous foreword by Deepak Chopra and a new preface that brings the book up to date with the cataclysmic events of the new millennium Fox illustrates how contrary to mainstream church doctrine flesh is the grounding of spirit Fox argues that our culture has concentrated far too much on transgressions of the flesh while failing to take into account its sacredness Artfully weaving together the wisdom of East and West he considers Thomas Aquinas s definition of sin as misdirected love and applies parallels between the Eastern teachings of the seven chakras and the Western teachings of the seven capital sins Fox explains how the chakras teach us to direct the love energies we all possess and proposes seven positive precepts for living a full and spirited life He invites us to change the way we think about sin and asserts that we can combat and transform evil through love generosity letting go and creativity Crafting a blueprint for social change Sins of the Spirit Blessings of the Flesh points the way toward a deeper and more compassionate way to live while eloquently revealing the means to confront evil both within and without

Gender, Space and City Bankers Helen Longlands, 2019-07-26 Gendered processes of globalisation transnationalisation and urbanisation are increasing local and global inequalities and widening the gap between the rich and the poor The global finance industry plays a key role in these processes directing its operations from local command points in global cities such as London Drawing on empirical data collected after the 2008 financial crisis in depth interviews with male City of London bankers who are also fathers in depth interviews with the bankers wives observational data of work and family spaces and banks promotional online material this book explores the day to day individual and institutional social practices of wealthy City bankers and banks The book s analysis offers insight into how the spaces of work and home are integrally linked in ways that mutually shape support and sustain the gendered dominance of the industry and its highly paid workers This book will appeal to postgraduate students researchers and academics interested in the fields of gender studies critical studies of men and

masculinities urban and metropolitan studies sociology studies of globalisation and transnationalisation anthropology cultural studies and business management It will also be interesting for those concerned about the role of the finance industry and neoliberal capitalist ideologies values and practices in ever widening local and global inequalities **An Earth-careful Way of Life** Lionel Basney,2000 *Real Food, Real Facts* Charlotte Biltekoff,2024-08-27 A free ebook version of this title is available through Luminos University of California Press s Open Access publishing program Visit www.luminosoa.org to learn more In recent decades many members of the public have come to see processed food as a problem that needs to be solved by eating real food and reforming the food system But for many food industry professionals the problem is not processed food or the food system itself but misperceptions and irrational fears caused by the public s lack of scientific understanding In her highly original book Charlotte Biltekoff explores the role that science and scientific authority play in food industry responses to consumer concerns about what we eat and how it is made As Biltekoff documents industry efforts to correct public misperceptions through science based education have consistently misunderstood the public s concerns which she argues are an expression of politics This has entrenched food scientism in public discourse and seeded a form of antipolitics with broad consequences *Real Food Real Facts* offers lessons that extend well beyond food choice and will appeal to readers interested in how everyday people come to accept or reject scientific authority in matters of personal health and well being
