Out of Space and Time Clark Ashton Smith, 2006-01-01 Collection of classic macabre and fantastic tales from a master of pulp fiction *The Colour Out of Space* H. P. Lovecraft, When a meteorite crashes on a remote farm in the hills of Arkham it brings something far worse than fire and ruin The rock shrinks and crumbles leaving behind a strange shifting color something unearthly something alive Over time the land withers the water turns foul and the Gardner family who tend the farm begin to change in ways both terrifying and tragic As the blight spreads the few who dare to investigate realize too late that some forces cannot be understood reasoned with or stopped One of H P Lovecraft's most chilling tales *The Colour Out of Space* is a haunting exploration of cosmic horror and the limits of human comprehension With its slow building dread and eerie atmosphere it remains one of the most unsettling works in weird fiction H P LOVECRAFT 1890 1937 born in Providence Rhode Island was an American writer known for his horror fantasy and science fiction stories Both of Lovecraft's parents suffered from mental illness which greatly influenced his youth He began writing at an early age but had a limited readership during his lifetime Today Lovecraft is regarded as an icon of popular culture and is considered one of the most influential and innovative horror writers of the 20th century often compared to Edgar Allan Poe

Spaced Out! A Space Adventure William Hairston, 2008 When I look back on my most recent space shuttle flight I am convinced that my problems were most severe and uncommon I have every right to be paranoid There are simply times exact and specific when things go consistently against you when bad luck is the only luck at hand when try as you might you just can't change bad luck into good And it seems that no one or nothing can really help you I was blessed with a crew of four trained seasoned and talented astronauts but even their collective dedication and loyalty couldn't help me overcome the crisis and disasters I encountered Merit and excellent qualifications were the basis on which my crew of astronauts and I were selected to command the Atlantis II space shuttle Mission which had been originally scheduled to be second in line to launch five months before the terrible Challenger tragedy occurred in January 1986 killing all seven of its crew six astronauts and one schoolteacher just one minute and thirteen seconds after a rather successful liftoff from its Cape Canaveral launch pad

Terror Out of Space Leigh Brackett, 2011-06-10 It was driving men to madness they had managed to capture it but for how long Excerpt Lundy was flying the aero space convertible by himself He d been doing it for a long time So long that the bottom half of him was dead to the toes and the top half even deader except for two separate aches like ulcerated teeth one in his back one in his head Thick pearly grey Venusian sky went past the speeding flier in

streamers of torn cloud The rockets throbbed and pounded Instruments jerked erratically under the swirl of magnetic currents that makes the Venusian atmosphere such a swell place for pilots to go nuts in Jackie Smith was still out cold in the copilot's seat From in back beyond the closed door to the tiny inner cabin Lundy could hear Farrell screaming and fighting He'd been screaming a long time Ever since the shot of avertin Lundy had given him after he was taken had begun to wear thin Fighting the straps and screaming a hoarse jarring sound with no sense in it Screaming to be free because of It Somewhere inside of Lundy inside the rumpled sweat soaked black uniform of the Tri World Police Special Branch and the five foot six of thick springy muscle under it there was a knot It was a large knot and it was very very cold in spite of the sweltering heat in the cabin and it had a nasty habit of yanking itself tight every few minutes causing Lundy to jerk and sweat as though he'd been spiked Lundy didn't like that cold tight knot in his belly It meant he was afraid He'd been afraid before plenty of times and he wasn't ashamed of it But right now he needed all the brains and guts he had to get It back to Special headquarters at Vhia and he didn't want to have to fight himself too Fear can screw things for you It can make you weak when you need to be strong if you're going to go on living You and the two other guys depending on you Lundy hoped he could keep from getting too much afraid and too tired because It was sitting back there in its little strongbox in the safe waiting for somebody to crack Farrell was cracked wide open of course but he was tied down Jackie Smith had begun to show signs before he passed out so that Lundy had kept one hand over the anesthetic needle gun bolstered on the side of his chair And Lundy thought the hell of it is you don't know when It starts to work on you There's no set pattern or if there is we don't know it Maybe right now the readings I see on those dials aren't there at all Down below the torn grey clouds he could see occasional small patches of ocean The black still tideless water of Venus that covers so many secrets of the planet's past It didn't help Lundy any It could be right or wrong depending on what part of the ocean it was and there was no way to tell He hoped nothing would happen to the motors A guy could get awfully wet out in the middle of that still black water Farrell went on screaming His throat seemed to be lined with impervium Screaming and fighting the straps because It was locked up and calling for help
