in 1991 The only questions are when how violently and with how much peril for the world The U S election complicates everything including Putin s next land grab exploitations of the Arctic cyber espionage Putin and China and many more topics Provided by publisher *Vladimir Putin and Russia's Imperial Revival* David E. McNabb,2016-02-12 Discerning the early stages of the rebirth of a new Russian empire from the ashes of the Soviet Union Vladimir Putin and Russia s Imperial Revival argues that Russia s recent overtly aggressive actions and foreign policy doctrines have signaled a renewal of the Cold War At the least Russia s actions represent the potential for renewal This book explains these developments in a historical context The book begins by describing Russia s initial policy of rapprochement after the collapse of the Soviet Union and its development into a foreign policy of threatened or actual armed aggression It identifies today s Russia as a nation determined to re establish itself as a political and military force As a prominent figure in the development and continuation of its current foreign policy Vladimir Putin plays a central role in the topics covered Previous literature often treats Putin as an individual phenomenon examining his connections to corruption or the secret police but here David E McNabb examines him as the latest in a long history of Russian despots who followed similar expansionist policies He details some of the tactics Putin uses to instill fear and dominate political policies of republics newly independent from Russia These tactics include the use of energy as a weapon cyber terrorism and military support for ethnic Russian separatists in other sovereign nations most recently exemplified by Russia s annexation of Crimea from Ukraine via armed invasion In an attempt to demystify Russia s re emergence as an international political force Vladimir Putin and Russia s Imperial Revival grounds its analyses in history It explores as far back as the establishment of the first Russian empire and regards Putin as a leader determined to establish a fifth imperial incarnation It provides a nuanced understanding of how Russia arrived at its current position through recent and distant internal and international events *The Russian Dilemma* Gordon M. Hahn,2021-11-17 From the end of the Mongol Empire to today Russian history is a tale of cultural political economic and military interaction with Western powers The depth of this relationship has created a geopolitical dilemma Russia has persistently been both attracted to and at odds with Western ideas and technological development which have tended to threaten Russia s sense of identity and create destabilizing divisions within society Simultaneously deepening involvement in Western international affairs brought meddling in Russian domestic politics and military invasion This book examines how the centuries old Western threat has shaped Russia s political and strategic structures creating a culture of security rooted in vigilance against Western influence and interference **Russia's New Authoritarianism** David G.
