Women without Class Julie Bettie, 2014-09-18 In this ethnographic examination of Mexican American and white girls

coming of age in California's Central Valley Julie Bettie turns class theory on its head asking what cultural gestures are involved in the performance of class and how class subjectivity is constructed in relationship to color ethnicity gender and sexuality A new introduction contextualizes the book for the contemporary moment and situates it within current directions in cultural theory Investigating the cultural politics of how inequalities are both reproduced and challenged Bettie examines the discursive formations that provide a context for the complex identity performances of contemporary girls The book's title refers at once to young working class women who have little cultural capital to enable class mobility to the fact that analyses of class too often remain insufficiently transformed by feminist ethnic and queer studies and to the failure of some feminist theory itself to theorize women as class subjects *Women without Class* makes a case for analytical and political attention to class but not at the expense of attention to other social formations **Women and Social Class** Pat Mahony, Christine Zmroczek, 2004-01-14 This volume presents debates on class within an international context Its particular focus is on women's theorized experience of social class from a variety of feminist perspectives contextualized in relation to the countries and regions in which they live Using personal experience as a basis contributors cover Australia Bangladesh Botswana Britain Canada Czechoslovakia and the Czech Republic India Israel Korea New Zealand Poland and the USA illuminating the differences and similarities between regions Challenging the view that class is dead as well as the idea that it is a British phenomenon the book argues that class needs to be regarded as a key concept in any attempt to understand women's lives It also reflects on personal and political experiences of class around the world in order to understand the mechanisms through which class discrimination operates and is mediated by gender sexuality ethnicity and racism *Class Matters* Pat Mahony, Christine Zmroczek, 2005-08-19 This text focuses on the theory of class as it relates to women It debates questions such as how do women define themselves in terms of social class and why is definition important or not what part does education play in our understanding of class and how does class affect relationships **Califia Women** Clark A. Pomerleau, 2013-11-15 Launched in 1975 the Califia Community organized activist educational camps and other programs in southern California until its dissolution in 1987 An alternative to mainstream academia's attempts to tie feminism to university courses Califia blended aspects of feminism that spanned the labels second wave and radical attracting women from a range of gender expressions sexual orientations class backgrounds and races or ethnicities Califia Women captures the history of the organization through oral history interviews archives and other forms of primary research The result is a lens for re-reading trends in feminist and social justice activism of the time period contextualized against a growing conservative backlash Throughout each chapter readers learn about the triumphs and frictions feminists encountered as they attempted to build on the achievements of the postwar Civil Rights movement With its backdrop of southern California the book emphasizes a region that has often been overlooked in studies of East Coast or San Francisco Bay area activism Califia Women also counters the notions that radical and lesbian feminists were unwilling to address intersectional identities

generally and that they withdrew from political activism after 1975. Instead, the Calafia Community shows evidence that these and other feminists intentionally created an educational forum that embraced oppositional consciousness and sought to serve a variety of women, including radical Christian reformers, Wiccans, scholars of color, and GLBT activists.
