Dogen's Extensive Record Eihei Dogen, 2010-03-10 Eihei Dogen the thirteenth century Zen master who founded the Japanese Soto School of Zen is renowned as one of the world's most remarkable religious thinkers As Shakespeare does with English Dogen utterly transforms the language of Zen using it in novel and extraordinarily beautiful ways to point to everything important in the religious life He is known for two major works The first work the massive Shobogenzo Treasury of the True Dharma Eye represents his early teachings and exists in myriad English translations the second work the Eihei Koroku is a collection of all his later teachings including short formal discourses to the monks training at his temple longer informal talks and koans with his commentaries as well as short appreciatory verses on various topics The Shobogenzo has received enormous attention in Western Zen and Western Zen literature and with the publication of this watershed volume the Eihei Koroku will surely rise to commensurate stature Dogen's Extensive Record is the first ever complete and scholarly translation of this monumental work into English and this edition is the first time it has been available in paperback This edition contains extensive and detailed research and annotation by scholars translators and Zen teachers Taigen Dan Leighton and Shohaku Okumura as well as forewords by the eighteenth

Roaming Free Like a Deer Daniel Capper, 2022-03-15 By exploring lived ecological experiences across seven Buddhist worlds from ancient India to the contemporary West Roaming Free Like a Deer provides a comprehensive critical and innovative examination of the theories practices and real world results of Buddhist environmental ethics Daniel Capper clarifies crucial contours of Buddhist vegetarianism or meat eating nature mysticism and cultural speculations about spirituality in nonhuman animals Buddhist environmental ethics often are touted as useful weapons in the fight against climate change However two formidable but often overlooked problems with this perspective exist First much of the literature on Buddhist environmental ethics uncritically embraces Buddhist ideals without examining the real world impacts of those ideals thereby sometimes ignoring difficulties in terms of practical applications Moreover for some understandable but still troublesome reasons Buddhists from different schools follow their own environmental ideals without conversing with other Buddhists thereby minimizing the abilities of Buddhists to act in concert on issues such as climate change that demand coordinated large scale human responses With its accessible style and personhood ethics orientation Roaming Free Like a Deer should appeal to anyone who is concerned with how human beings interact with the nonhuman environment
