Shadows Brereton Greenhous, W.A.B. Douglas, 1996-07-26 This new edition of the highly regarded work includes recent research on the topic of radio intelligence and cryptography *Four Days in Hitler's Germany* Robert Teigrob, 2019-05-23 In 1937 Canadian Prime Minister Mackenzie King travelled to Nazi Germany in an attempt to prevent a war that to many observers seemed inevitable The men King communed with in Berlin including Adolf Hitler assured him of the Nazi regime's peaceful intentions and King not only found their pledges sincere but even hoped for personal friendships with many of the regime's top officials *Four Days in Hitler's Germany* is a clearly written and engaging story that reveals why King believed that the greatest threat to peace would come from those individuals who intended to thwart the Nazi agenda which as King saw it was concerned primarily with justifiable German territorial and diplomatic readjustments Mackenzie King was certainly not alone in misreading the omens in the 1930s but it would be difficult to find a democratic leader who missed the mark by a wider margin This book seeks to explain the sources and outcomes of King's misperceptions and diplomatic failures and follows him as he returns to Germany to tour the appalling aftermath of the very war he had tried to prevent

The Bitter Road to Freedom William I. Hitchcock, 2008-10-21 Reading Group Guide for *The Bitter Road to Freedom* by William I Hitchcock 1 The story of the liberation of Europe has been told many times What new and surprising things did you learn from this book that you didn't know before 2 The book makes use of so many primary sources letters diaries old records and as a result we hear many voices Did these first hand accounts change the way you previously perceived the liberation of Europe Why or why not 3 Americans remember the end of WWII as a time of triumph and universal celebration in Europe when the occupied countries were finally freed from Hitler's tyranny What was life really like for Europeans during and after the Liberation Why do you think Americans remember the Liberation so differently from Europeans 4 The book discusses the violence and suffering that occur to the civilian population in even the most just of wars Do you think what happened in Europe after the war has present day applications especially regarding the war in Iraq and our escalating campaign in Afghanistan 5 Some might see this book as disparaging to the accomplishments of The Greatest Generation How do you think veterans of WWII will react to this book 6 Americans were surprised to find that they got along well with the Germans upon entering their country In what ways does Eisenhower's failed ban on American soldiers fraternizing with German civilians illustrate the differences between political ideology and basic human experience How might these differences still be true today 7 Were you surprised to find that survivors of the Holocaust faced such difficulties in the immediate aftermath of their

liberation How might that treatment influence their view of the end of the war 8 Why do you think the large scale relief effort that America led in Europe through many charitable organizations and volunteer groups is not better known in the United States Should historians write as much about the humanitarian side of war as they do about battle field history **Naval Power in the Twentieth Century** N.A.M. Rodger,2016-07-27 It is a century since Mahan and his disciples taught the world that a battlefleet was indispensable to a great power Great and not so great powers still keep powerful navies today but we have no generally accepted principles to explain why In this book historians and naval officers from Britain the United States and other countries study the use of naval power over a century and ask what it is for and what it can do It will be essential reading for modern historians policy makers and strategists Case studies in the development of close air support Benjamin Franklin Cooling,1990 Case Studies in the Development of Close Air Support Benjamin Franklin Cooling (III),1990 En gennemgang af udviklingen inden for taktisk flysttte **Establishing a Legacy** Bernd Horn,2008-05-19 Canada's oldest permanent force infantry regiment has left a legacy of professionalism and courage paid for in the blood bravery and tenacity of its members Betrayed Richard O. Mayne,2011-11-01 In January 1944 Vice Admiral Percy Walker Nelles was fired from his position as head of the Royal Canadian Navy Betrayed reveals the true story behind the dismissal a divisive power struggle between two elite groups within the RCN pitted the navy's regular officers against a small group of self appointed spokesmen for the voluntary naval reserve Threats of public scandal mass insurrection and political intimidation caused one of the worst breakdowns in Canadian civil military relations revealing complex aspects of military professionalism and leadership This fascinating investigation into the machinations of a divided navy tackles important questions of military professionalism leadership and identity Betrayed will appeal to readers interested in military history and security studies political science and sociology **The Dundurn Group** The Dundurn Group, Strategic Cousins John C. Blaxland,2006-07-04 Blaxland traces the shift from ties with the British Empire which led Canadian and Australian forces to fight in the Boer War the two World Wars and Korea to their contribution alongside the United States in Afghanistan Using late twentieth century concepts of policy military strategy operations and tactics he reveals that Canada and Australia have had remarkably comparable experiences while supporting their key allies Although the two nations have at times chosen divergent courses their paths since the end of the Cold War have largely converged and closer collaboration could increase their influence and effectiveness and benefit their allies *The Liberation of the Nazi Concentration Camps 1945* Brewster S. Chamberlin,Marcia Feldman,1987 Eyewitness accounts and testimonies given at the First International Liberators Conference held in Washington D C in Oct 1981 *Being German Canadian* Alexander Freund,2021-04-30 Being German Canadian explores how multi generational families and groups have interacted and shaped each other's integration and adaptation in Canadian society focusing on the experiences histories and memories of German immigrants and their descendants As one of Canada's largest ethnic groups German Canadians allow for a variety of longitudinal and multi

generational studies that explore how different generations have negotiated and transmitted diverse individual experiences collective memories and national narratives Drawing on recent research in memory and migration studies this volume studies how twentieth century violence shaped the integration of immigrants and their descendants More broadly the collection seeks to document the state of the field in German Canadian history Being German Canadian brings together senior and junior scholars from History and related disciplines to investigate the relationship between and significance of the concepts of generation and memory for the study of immigration and ethnic history It aims to move immigration historiography towards exploring the often fraught relationship among different immigrant generations whether generation is defined according to age cohort or era of arrival

Clash of Arms Russell Hart, 2001 Russell Hart has put it all together the culture history society politics and ideas that undergirded four separate armies and their combat performance in a single campaign along the coast of Normandy in France from June through September 1944 Clash of Arms is an outstanding example of contemporary military history Arden Bucholz Journal of Modern History Russell Hart has written a masterful account of the effectiveness of the Anglo Canadian American and German forces not only in Normandy in 1944 but also throughout the interwar and early war periods Major James P Gates Air Space Power Journal As a result of Hart s work historians are a step closer on their long journey to understand how armies adapt and innovate both in peacetime and in war Steve R Waddell Army History This work is the most comprehensive academically grounded and logical evaluation of the relative combat capabilities of the four armies in Normandy to date Every page contains information useful to professionals Major Robert Bateman ARMOR Hart understands the complexity of his subject and skillfully pieces together the institutional development of the military forces with the political economic social and cultural values of the societies that produced them The result is an outstanding comparative study that blends the so called new military history with traditional operational history This is one of the most original and important studies of the war to appear recently Choice Hart demonstrates massive research and a clear forthright style He does not hesitate to analyze problems and to describe both successful solutions and failures His book is a masterly presentation David Eggenberger History Review of New Books The scholarship underlying this work is absolutely astonishing Bruce Gudmundsson A seminal volume Dennis Showalter Clash of Arms examines how the Western Allies learned on the battlefield to defeat the Nazi war machine Beginning with an investigation of the interwar neglect that left the Allied militaries incapable of defeating Nazi aggression at the start of World War II Hart examines the wartime paths the Allies took toward improved military effectiveness He also explores the continuous German adaptation that prolonged the war and increased the price of eventual Allied victory Central to his comparative study is the complex interplay of personalities military culture and wartime realities that determined how accurately the combatants learned the lessons of war and how effectively they enhanced their battle capabilities
