Deregulating Desire Ryan Patrick Murphy, 2016-10-14 In 1975 National Airlines was shut down for 127 days when flight attendants went on strike to protest long hours and low pay Activists at National and many other U S airlines sought to win political power and material resources for people who live beyond the boundary of the traditional family In Deregulating Desire Ryan Patrick Murphy a former flight attendant himself chronicles the efforts of single women unmarried parents lesbians and gay men as well as same sex couples to make the airline industry a crucible for social change in the decades after 1970 Murphy situates the flight attendant union movement in the history of debates about family and work Each chapter offers an economic and a cultural analysis to show how the workplace has been the primary venue to enact feminist and LGBTQ politics From the political economic consequences of activism to the dynamics that facilitated the rise of what Murphy calls the family values economy to the Airline Deregulation Act of 1978 Deregulating Desire emphasizes the enduring importance of social justice for flight attendants in the twenty first century

Poor Queer Studies Matt Brim, 2020-03-06 In Poor Queer Studies Matt Brim shifts queer studies away from its familiar sites of elite education toward poor and working class people places and pedagogies Brim shows how queer studies also takes place beyond the halls of flagship institutions in night school after a three hour commute in overflowing classrooms at no name colleges with no research budget without access to decent food with kids in tow in a state of homelessness Drawing on the everyday experiences of teaching and learning queer studies at the College of Staten Island Brim outlines the ways the field has been driven by the material and intellectual resources of those institutions that neglect and rarely serve poor and minority students By exploring poor and working class queer ideas and laying bare the structural and disciplinary mechanisms of inequality that suppress them Brim jumpstarts a queer class knowledge project committed to anti elitist and anti racist education Poor Queer Studies is essential for all of those who care about the state of higher education and building a more equitable academy

Transgender Marxism Jules Joanne Gleeson, Elle O'Rourke, 2021-05-20 The first collection of its kind Transgender Marxism is a provocative and groundbreaking union of transgender studies and Marxist theory Exploring trans lives and movements the authors delve into the experience of surviving as transgender under capitalism They explore the pressures oppression and state persecution faced by trans people living in capitalist societies their tenuous positions in the workplace and the home and give a powerful response to right wing scaremongering against gender ideology Reflecting on the relations between gender and labour these essays reveal the structure of antagonisms faced by gender non conforming people within society Looking at the history of

transgender movements Marxist interventions into developmental theory psychoanalysis and workplace ethnography the authors conclude that for trans liberation capitalism must be abolished **Solidarity in Conflict** Rochelle

DuFord,2022-03-15 Democracy has become disentangled from our ordinary lives Mere cooperation or ethical consumption now often stands in for a robust concept of solidarity that structures the entirety of sociality and forms the basis of democratic culture How did democracy become something that is done only at ballot boxes and what role can solidarity play in reviving it In *Solidarity in Conflict* Rochelle DuFord presents a theory of solidarity fit for developing democratic life and a complementary theory of democracy that emerges from a society typified by solidarity DuFord argues that solidarity is best understood as a set of relations one agonistic and one antagonistic the solidarity groups internal organization and its interactions with the broader world Such a picture of solidarity develops through careful consideration of the conflicts endemic to social relations and solidarity organizations Examining men s rights groups labor organizing s role in recognitional protections for LGBTQ members of society and the debate over trans inclusion in feminist praxis DuFord explores how conflict in these contexts becomes the locus of solidarity s democratic functions and thereby critiques democratic theorizing for having become either overly idealized or overly focused on building and maintaining stability Working in the tradition of the Frankfurt School DuFord makes a provocative case that the conflict generated by solidarity organizations can address a variety of forms of domination oppression and exploitation while building a democratic society

Sexual Orientation at Work Fiona Colgan,Nick Rumens,2014-06-13 *Sexual Orientation at Work* Contemporary Issues and Perspectives brings together contemporary international research on sexual orientation and draws out its implications for lesbian gay bisexual trans and heterosexual employees and managers It provides new empirical and theoretical insights into sexual orientation employment discrimination and equality work in countries such as South Africa Turkey Australia Austria Canada US and the UK This book is novel in its focus on how sexual orientation intersects with other aspects of difference such as age class ethnicity and disability It adopts new theoretical perspectives e g queer theory to analyze the rise of new gay friendly organizations and examines important methodological issues in collecting socio economic data about sexual minorities Providing an accessible account of key issues and perspectives on sexual orientation in the workplace *Sexual Orientation at Work* caters to a wide range of readers across business feminist and LGBT Queer Studies fields *The Next Upsurge* Dan Clawson,2018-08-06 The U S labor movement may be on the verge of massive growth according to Dan Clawson He argues that unions don t grow slowly and incrementally but rather in bursts Even if the AFL CIO could organize twice as many members per year as it now does it would take thirty years to return to the levels of union membership that existed when Ronald Reagan was elected president In contrast labor membership more than quadrupled in the years from 1934 to 1945 For there to be a new upsurge Clawson asserts labor must fuse with social movements concerned with race gender and global justice The new forms may create a labor movement that breaks down the boundaries between union and

community or between work and family issues Clawson finds that this is already happening in some parts of the labor movement labor has endorsed global justice and opposed war in Iraq student activists combat sweatshops unions struggle for immigrant rights Innovative campaigns of this sort Clawson shows create new strategies determined by workers rather than union organizers that redefine the very meaning of the labor movement The Next Upsurge presents a range of examples from attempts to replace macho unions with more feminist models to campaigns linking labor and community issues and attempts to establish cross border solidarity and a living wage

In a New Century John D'Emilio, 2014-05-07 For gay lesbian bisexual and transgender people in the United States the twenty first century has brought dramatic changes the end of sodomy laws the elimination of Don't Ask Don't Tell a move toward recognition of same sex marriage Gay Straight Alliances in thousands of high schools and an explosion of visibility in the media and popular culture All of this would have been unimaginable to those living just a few decades ago Yet at the same time the American political system has grown ever more conservative and increasing economic inequality has been a defining feature of the new century A pioneering scholar of gay history John D'Emilio reflects in this wide ranging collection of essays upon the social cultural and political changes provoked by LGBT activism He offers provocative questions and historical analyses What can we learn from a life long activist like Bayard Rustin who questioned the wisdom of identity politics Was Richard Nixon a gay liberationist How can knowing local stories like those of Chicago in the 1950s 1960s and 1970s help build stronger communities and enrich traditions of activism Might the focus on achieving actually be evidence of growing conservatism in LGBT communities In a New Century provides a dynamic thoughtful and important resource for identifying changes that have occurred in the United States since 1960 taking stock of the work that still needs to be done and issuing an urgent call to action for getting there Best Books for General Audiences selected by the American Association of School Librarians Best Special Interest Books selected by the Public Library Reviewers

A New Protestant Labor Ethic at Work Ken Estey, 2011-01-01 Estey proposes a labor ethic that emphasizes the protest in Protestantism The purpose of this ethic is to interrupt the drudgery of the Protestant work ethic which Estey asserts is the dominant cultural ideal in the U S Protestantism must not be about capitulation to capitalism and a Protestant ethic that works must be one that questions and confronts authority in order to undo the newest and oldest forms of dehumanization as they pertain to workers labor issues

and conditions in the workplace *The Twilight of Equality?* Lisa Duggan, 2012-04-03 By now we've all heard about the shocking redistribution of wealth that's occurred during the last thirty years and particularly during the last decade. But economic changes like this don't occur in a vacuum; they're always linked to politics. *The Twilight of Equality* searches out these links through an analysis of the politics of the 1990s, the decade when neoliberalism, free market economics, became gospel. After a brilliant historical examination of how racial and gender inequities were woven into the very theoretical underpinnings of the neoliberal model of the state, Duggan shows how these inequities play out today. In a series of political case studies, Duggan reveals how neoliberal goals have been pursued, demonstrating that progressive arguments that separate identity politics and economic policy, cultural politics and affairs of state, can only fail. Ultimately, *The Twilight of Equality* not only reveals how the highly successful rhetorical maneuvers of neoliberalism have functioned, but more importantly, it shows a way to revitalize and unify progressive politics in the U.S. today Culture Works, 2001

Capitalist Family Values Polly Reed Myers, 2015-09-01 Analyzes the ways in which gender roles are institutionalized in Boeing's workplace culture, as well as the contributing policy shifts, economic changes, and social controversies present in American business culture *Gender, Diversity and Trade Unions* Fiona Colgan, Sue Ledwith, 2003-09-02 The pressures of globalization and diversity are increasingly requiring organizations to rethink their priorities and methods. In this collection, leading researchers examine the debates and developments on gender diversity and democracy in trade unions in eleven countries. Offering an authoritative basis for comparative analysis, this book is essential reading for researchers, teachers, trade unionists, and students of industrial relations and equal opportunities, along with all those concerned with ensuring that modern organizations reflect and represent the needs and concerns of a diverse workforce *The Expanding Boundaries of Black Politics* Georgia A. Persons, 2017-09-04 This volume joins the preceding volumes in this distinguished series in presenting contemporary research by leading political scientists addressing topics of interest to those concerned with African American affairs. It captures the expanding boundaries of black politics and the persistent interests of the black community at large. The anchoring symposium, *The Expanding Boundaries of Black Politics*, presents the scholarship of a cadre of young black political scientists actively engaged in the critical tasks of moving forward the study of black politics. Their concerns include expanding the boundaries of black politics along the lines of epistemology and methodology, especially in regard to core issues and areas within this field. In an introductory essay by Todd Shaw, the work of these scholars is situated within the context of temporal shifts in scholarly emphases. Overlapping issues and concerns across time, as well as black political scholarship as defined in the field since its beginning, are addressed. The second part of this volume, entitled *Maximizing the Black Vote: Recognizing the Limits of Electoral Politics*, concentrates on serious, lingering social concerns. These include the policy significance of black mayors, affecting the concomitant impact of the black vote, the boundaries being pushed concerning the conjunction of black theology and sexual identity, a gendered analysis of familial policies, and the deepening

social and economic plight of young black males including felon disenfranchisement The Expanding Boundaries of Black Politics carries forth the search for an understanding of the relationship between religion the black church and black political behavior cross racial group coalitions as concerns matters of immigration growing multiculturalism and the impact on black politics maximizing the impact of the black vote focusing on voting rights enforcement the black vote in presidential elections and the voice of the Congressional Black Caucus *Marxism and Social Movements* ,2013-06-20 Marxism and Social Movements is the first sustained engagement between social movement theory and Marxist approaches to collective action The chapters collected here by leading figures in both fields discuss the potential for a Marxist theory of social movements explore the developmental processes and political tensions within movements set the question in a long historical perspective and analyse contemporary movements against neo liberalism and austerity Exploring struggles on six continents over 150 years this collection shows the power of Marxist analysis in relation not only to class politics labour movements and revolutions but also anti colonial and anti racist struggles community activism and environmental justice indigenous struggles and anti austerity protest It sets a new agenda both for Marxist theory and for movement research Contributors include Paul Blackledge Marc Blecher Patrick Bond Chik Collins Ralph Darlington Neil Davidson Ashwin Desai Jeff Goodwin Chris Hesketh Gabriel Hetland Elizabeth Humphrys Christian H gsbjerg David McNally Trevor Ngwane Heike Schaumberg and Hira Singh **New Labor Forum** ,2006 Students Against Sweatshops Liza Featherstone,United Students Against Sweatshops,2002-06-17 This short punchy book is both a record of a new mass campaign and a tool for the realization of its goals The students demand one thing that clothing bearing university logos must be produced under healthy safe and fair working conditions
