Out Of Exile:

After the Fall Noemi Marin, 2007 Noemi Marin analyzes famous writers from the area as critical intellectuals and exiles in order to explore the role of rhetoric and identity in writers own experiences during the long history of communism Along with examinations of discursive relationships among power culture and resistance in works by George Konrad Andrei Codrescu and Siavenka Drakulic before and after the fall of communism Marin proposes specific dimensions for a rhetoric of exile pertinent to communist Eastern and Central Europe After the Fall shows how critical works on identity culture and communist history by the writers studied aid in reconstituting a rhetoric of dissidence identity and legitimation in the public discourse of a changing Europe The book offers a unique perspective on the complex contexts of political transition in which competing public discourse on freedom and democracy intersect with totalitarian regimes unsettled societies and issues of resistance

Out of Africa Pal Ahluwalia, 2010-04-05 At the heart of this book is the argument that the fact that so many post structuralist French intellectuals have a strong colonial connection usually with Algeria cannot be a coincidence The biographical fact that so many French intellectuals were born in or otherwise connected with French Algeria has often been noted but it has never been theorised Ahluwalia makes a convincing case that post structuralism in fact has colonial and postcolonial roots This is an important argument and one that connects two theoretical currents that continue to be of great interest post structuralism and postcolonialism The re reading of what is now familiar material against the background of de colonial struggles demonstrates the extent to which it is this new condition that prompted theory to question long held assumptions inscribed in the European colonial enterprise The wide ranging discussion ranging across authors as different as Foucault Derrida Fanon Althusser Cixous Bourdieu and Lyotard enables the reader to make connections that have remained unnoticed or been neglected It also brings back into view a history of struggles both political and theoretical that has shaped the landscape of critique in the social sciences and humanities This clear and lucid discussion of important and often difficult thinkers will be widely read and widely debated by students and academics alike
