Adaptation and Beyond Eva C. Karpinski,Ewa Kęłowska-Ławniczak,2023-09-29 This interdisciplinary collection focuses on recent adaptations both experimental and popular that put hybridity transtextuality and transmediality at play It reframes adaptation in terms of the transmedia concept of world building which accurately captures the complexity and multidirectionality of contemporary scattered and ubiquitous practices of adaptation The editors argue that the process of

moving stories or their elements across different media platforms and repurposing them for new uses results in the production of hybrid transtextualities The book demonstrates how hybrid textualities augment narrative and literary forms as goals of their world building finding unexpected sites of cross pollination expansion and appropriation in spoken word and dance performance auto biographical comics advertising Chinese Kun opera and popular song lyrics This yoking of hybridity and transmediality yields not only diversified and often commercialized aesthetic forms but also enables the emergence a unique cultural space in between a mezzaterra capable of addressing current political issues and mobilizing broader audiences

The Practical, Moral, and Personal Sense of Nursing Anne H. Bishop, John R. Scudder Jr., 1990-07-05 The Practical Moral and Personal Sense of Nursing is the first explicitly philosophical articulation in English of the essence of nursing from a phenomenological perspective The authors interpret nursing as competencies and excellences that are exercised in an in between situation characteristic of nursing practice the practical sense which fosters the well being of patients the moral sense within the nurse patient relationship the personal sense This directly challenges the current tendency to reconstruct nursing by using theories drawn from the behavioral and natural sciences and shows why nursing must be reformed from

within Bishop and Scudder stress the use of phenomenology to articulate an actual practice showing the unique capacity of phenomenology to illuminate actual situations and to generate fresh understandings of old problems **Education**
