Aziz,2012-01-17 *Transgressing Women* focuses on the literary and cinematic representation of female characters in contemporary noir thrillers The book argues that as the genre has grown expanded and been subverted since its initial conception along with the changing definition of gender the representation of a female character has also inevitably gone through some dramatic changes So the book asks some important questions What links the female characters in canonical noir to their contemporary counterparts Is gender division still relevant in a text that transgresses gender boundaries What happens when it is the human body itself that betrays the traditional definition or constitution of a human being While many have written about the male protagonists and the femmes fatales in the noir genre little attention has been given to the other female characters who inhabit the noir world and are transgressors themselves The main concern of the book is to trace the transgressive female characters in contemporary noir thrillers both novels and films by engaging itself with some of the most topical debates within both post feminist and postmodernist theories The book is structured around two key concepts space and the body These temporal and spatial indicators are central in contemporary cultural theories such as postmodernism and post feminism along with other theorizations of gender and the noir genre This means that the analysis is drawn from the classical noir examples and will then arrive at the neo noir sub genre and then will move on to the most recent phenomenon in the genre future noir **The Outcast Ones** Maya Shepherd,2014-10-27 After World War 3 Earth is in ruins The last surviving humans are barricaded inside safety zones to protect themselves from the radiation They can only stay alive if they follow strict rules No one has property of their own and no one can make their own choices the Legion Commanders take every decision away from people This world has no room for emotion People only live in order to function so they have numbers instead of names D518 is one of them Born into this destroyed world she s never known any other life than this completely defined and controlled But this changes in an instant when she is kidnapped by opponents of the government and she discovers that everything she believed in is a lie *American Book Publishing Record Cumulative, 1950-1977: Title index* R.R.
