Outer Mongolia and Its International Position Gerard Martin Friters, 1974-01-01 **Outer Mongolia and Its International Position** Gerard M. Friters, 1954 *Outer Mongolia and Its International Position* Gerard Martin Friters, 1949 Outer Mongolia, and Its International Position. By Gerard M. Friters. Edited by Eleanor Lattimore. With an Introduction by Owen Lattimore. Issued Under the Auspices of the International Secretariat, Institute of Pacific Relations Institute of Pacific Relations. International Secretariat, Gerard Martin FRITERS, Eleanor Holgate Lattimore, Owen Lattimore, 1949 **China, Taiwan and the Offshore Islands** Thomas E. Stolper, 2017-09-29 First published in 1985 this book is about an important episode and two of its sequels in Beijing's long struggle to achieve two goals by force if necessary First to prevent the US from detaching Taiwan from China and establishing Taiwan as a universally recognized separate and independent country as Russia and the Soviet Union were able to detach and establish Outer Mongolia and second to end the Chinese Civil War by bringing Taiwan under the rule of Beijing and the Chinese Communist Party *Outer Mongolia and Its International Position, Etc* Institute of Pacific Relations. International Boundary Study , 1977 Mongolia in Transition Ole Bruun, Ole Odgaard, 2013-05-13 Squeezed between powerful neighbours for decades Mongolia played the role of buffer state Its full independence in 1990 offered new opportunities for both economic growth and the restoration of Mongolian identity But with a huge land area poor infrastructure and a small population the new republic is highly vulnerable and also dependent on international support This book provides easily accessible information for developers planners consultants scholars students and others with an interest in contemporary Mongolia Prefaced by a general overview of the land and society its chapters all written by international experts cover a wide range of topics including foreign policy domestic politics local government structure living standards and poverty women in society grassland management the common herding household and science and technology policy A comprehensive bibliography is provided *The Creation of States in International Law* James R. Crawford, 2007-03-15 Statehood in the early 21st century remains as much a central problem as it was in 1979 when the first edition of *The Creation of States in International Law* was published As Rhodesia Namibia the South African Homelands and Taiwan then were subjects of acute concern today governments international organizations and other institutions are seized of such matters as the membership of Cyprus in the European Union application of the Geneva Conventions to Afghanistan a final settlement for Kosovo and still relations between China and Taiwan All of these and many other disputed situations are inseparable from the nature of statehood and its application in practice The remarkable increase in the number of States in the 20th century did not abate in the twenty five years following publication of James Crawford's landmark study which was awarded the American Society of International Law Prize for Creative Scholarship in 1981 The independence of many small territories comprising the residue of the European colonial empires alone accounts for a major increase in States since 1979

while the disintegration of Yugoslavia and the USSR in the early 1990s further augmented the ranks. With these developments the practice of States and international organizations has developed by substantial measure in respect of self-determination, secession, succession, recognition, decolonization and several other fields. Addressing such questions as the unification of Germany, the status of Israel and Palestine and the continuing pressure from non-State groups to attain statehood even in cases like Chechnya or Tibet against the presumptive rights of existing States, James Crawford discusses the relation between statehood and recognition, the criteria for statehood especially in view of evolving standards of democracy and human rights and the application of such criteria in international organizations and between states. Also discussed are the mechanisms by which states have been created including devolution and secession, international disposition by major powers or international organizations and the institutions established for Mandated Trust and Non-Self-Governing Territories. Combining a general argument as to the normative significance of statehood with analysis of numerous specific cases, this fully revised and expanded second edition gives a comprehensive account of the developments which have led to the birth of so many new states.

The Mongolian Legal System William E. Butler, 1982-07. [Power and Identity in the Chinese World Order](#) Billy K.L. So, John Fitzgerald, Jianli Huang, James K. Chin, 2003-03-01. Wang Gungwu is one of the most influential historians of his generation. Initially renowned for his pioneering work on the structure of power in early imperial China, he is more widely known for expanding the horizons of Chinese history to include the histories of the Chinese and their descendants outside China. It is probably no coincidence that Philip Kuhn observes that the most comprehensive historian of the Overseas Chinese is the historian most firmly grounded in the history of China itself. This book is a celebration of the life work and impact of Professor Wang Gungwu over the past four decades. It commemorates his contribution to the study of Chinese history and the abiding influence he has exercised over later generations of historians, particularly in the Asia Pacific region. The book begins with an historiographical survey by Philip Kuhn, Francis Lee Higginson, Professor of History at Harvard University, of Wang Gungwu's enduring contribution to scholarship. It concludes with an engaging oral history of Professor Wang's life career and research trajectory. The intervening chapters explore many of the fields in which Wang Gungwu's influence has been felt over the years, including questions of political authority, national identity, commercial life and the history of the diaspora from imperial times to the present day. Each of these chapters is authored by a former student of Professor Wang, now working and teaching in Hong Kong, Southeast Asia, Australasia, Taiwan and Canada.

Beijing's Power and China's Borders Bruce Elleman,Stephen Kotkin,Clive Schofield,2015-05-18 China shares borders with 20 other countries Each of these neighbors has its own national interests and in some cases these include territorial and maritime jurisdictional claims in places that China also claims Most of these 20 countries have had a history of border conflicts with China some of them never amicably settled This book brings together some of the foremost historians geographers political scientists and legal scholars on modern Asia to examine each of China s twenty land or sea borders

Great Britain and Japan 1911-15 Peter Lowe,1969-06-18 Modern China's Foreign Policy Werner Levi,1953-01-01 Modern China s Foreign Policy was first published in 1953 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions What are China s objectives in world affairs and what course will she pursue to achieve her goals These are the questions of vital concern to the Western democracies questions that can be approached intelligently only from a knowledge of how China s foreign policy has developed In this illuminating and carefully documented book Professor Levi analyzes china s attitudes and actions toward the rest of the world and clarifies many motivations behind her behavior past and present He traces the development of her foreign relations from the beginning of the modern era of Chinese contacts with Westerners a little more than hundred years ago The emphasis however is on the twentieth century and particularly on the years since the peace settlements of World War I The complex balance of relationships between China and the United States on the one hand and China and the Soviet Union on the other since the end of World War II is discussed in detail Communist doctrine notwithstanding its apparent rigidity is shown to be a conveniently adjustable tool capable of adaptation to the needs and strategies of present day China An integral part of the account is the attempt to single out and interpret the internal forces cultural social and economic that have influenced and shaped China s external policies Thus it is shown that the determinants of China s foreign policy have often been pressures and complexities within the country and that and understanding of the Chinese people and their traditions is essential to nations in their dealings with China **Precious Steppe** Ole Bruun,2006-03-30 Ole Bruun focuses on a community of nomadic livestock herders in present day Mongolia He depicts their transition from a contained Soviet era collective to modern times and addresses the most essential conditions for their continued survival and prosperity in the age of the market the adaptability of their own culture and working strategies government policy and international attention By studying the nomadic practice of animal husbandry in the context of family farms Bruun points out the similarity to the peasant economy defined by the Russian agricultural economist Alexander Chayanov nearly a century ago In both economies the labor consumer balance and life cycle variations commonly set the term for economic strategies yet the pastoral economy involves a highly specialized form of agriculture in which the

scale of exchange determines wealth and lifestyle In a vast territory such as Mongolia infrastructure social benefits and other means of state support are crucial to prevent herders from sliding into a subsistence orientation eventually leading to poverty
