Torches of Light Ann Short Chirhart, 2005 As turbulent social and economic changes swept the South in the first half of the twentieth century education became the flashpoint Ann Short Chirhart's study is the first to analyze such modernizing events in Georgia She shows how these changes affected the creation of the state's public school system and cast its teachers in a crucial role as mediators between transformation and tradition Depicting Georgia's steps toward modernity through teachers' professional and cultural work and the educational reforms they advocated Chirhart presents a unique perspective

on the convergence of voices across the state calling for reform or continuity secularism or theology equality or enforced norms consumption or self reliance Although most teachers black and white shared backgrounds rooted in localism and evangelical Protestantism attitudes about race and gender kept them apart African American teachers individually and collectively redefined traditional beliefs to buttress ideals of racial uplift and to press for equal access to public services White women adapted similar beliefs in different ways to enhance their efforts to train greater numbers of white students for professional and wage labor *Torches of Light* is based on such sources as government archives manuscript collections and interviews with teachers As Chirhart examines the ideas over which Georgians clashed she also shows how those ideas were embodied in New Deal and U S Department of Agriculture programs the political activities of the black Georgia Teachers and Educators Association and the Georgia legislature s 1949 Minimum Foundation Act Through two world wars and the Great Depression teachers sought to reconcile clashing beliefs not only to renegotiate class race and gender roles but also to enhance their own professionalism and authority

London 2007 Fodor's, 2006-08-29 Comprehensive and up to date travel guide with full size map included **Country Life** ,2006 *Symphony* ,2007 **The Cultivator Almanac for the Year ...** ,1845 *The Sacred Bridge* Anson F. Rainey, R. Steven Notley, 2006 Of all the writings held sacred by the world s religions only the Bible presents a message linked to geography This is not just the location of religious centers but the experience of a people in its land a people that has insisted on its God given right to self identity throughout the ages and in defiance of all forces that sought to deny it All Jews and Christians who profess to find the source of their faith in these Scriptures look to the experiences of that people depicted in the Bible as examples and role models for their search after the Divine will and for their moral conduct among men The religious experiences of that ancient people took place in relation to a geographical setting generally a small postage stamp on the face of the globe a patch of terrain in the southern part of the eastern Mediterranean littoral The Bible is replete with geographical information not as a guidebook for travelers or a textbook on geography but often almost incidental to the message Yet without the geography that message is often obscured or vitiated for the uninformed reader The present atlas seeks to introduce the reader to the geographical elements that can help to make real the social historical and spiritual experience of the People of the Book Publisher **Architecture Minnesota** ,2005 **To Bear Witness** Belah Guțerman, Avner Shalev, 2005 **Outhouses Wall Calendar** ,2010 **2025 Outhouses Wall Calendar** ,2024 **Owls 2005 Calendar** , **Outhouses 2021 Wall Calendar** Willow Creek Press, 2020
