## **Outlines A Collection Of Brief Imaginati:**

**The Boundaries of Afghans' Political Imagination** Jolanta Sierakowska-Dyndo, 2014-08-11 In this book The Boundaries of Afghans Political Imagination the author seeks an answer to the question of how tradition specifically its normative axiological aspects shapes the political attitudes and actions of the Afghans The author points to two different concepts of social order which are moulded by the Pashtunwali on the one hand a tribal code which is part of Pashto language tradition and on the other hand by Sufism the religious and philosophical current in Islam expressed mainly in the Dari Persian language The two systems offer a different hierarchy of values and organize social reality by referring to two different models of order the circle and the pyramid While making an in depth analysis of the topic the author asserts that the social organization of the Pashtuns is based on the principle of representation and consensus Tribalism is shaped in the structure of a circle in which a group is the fundamental category Where tribal structure no longer performs its regulatory and organizational functions the pattern of social order is offered by the Sufi Brotherhoods which had long been very popular and powerful in this part of Asia The hierarchical organization of Sufism based on a disciple master relationship and the principle of authoritarianism gradually established the structure of the pyramid as a model of social order and also of political order Religious Sufi Brotherhoods became the most accessible leadership pattern besides the tribal one to be fixed in the Afghans social imagination This analysis from the perspective of sociocultural and political anthropology will be indispensable for those interested in Afghan and Islamic societies Outlines of Child Study Child Study Association of America, 1922

**Omar Khayyam's Secret: Hermeneutics of the Robaiyat in Quantum Sociological Imagination:**

**Book 8: Khayyami Robaiyat: Part 1 of 3: Quatrains 1-338: Songs of Doubt Addressing the Question "Does Happiness Exist?"** Mohammad H. Tamdgidi, 2024-10-25 Omar Khayyam s Secret Hermeneutics of the Robaiyat in Quantum Sociological Imagination by Mohammad H Tamdgidi is a 12 book series of which this book is the 8th volume subtitled Khayyami Robaiyat Part 1 of 3 Quatrains 1 338 Songs of Doubt Addressing the Question Does Happiness Exist Explained with New English Verse Translations and Organized Logically Following Omar Khayyam s Own Three Phased Method of Inquiry Each book independently readable can be best understood as a part of the whole series In Book 8 Tamdgidi offers the first of a 3 part set of 1000 quatrains he has chosen to include in this series from a wider set that have been over the centuries attributed to Khayyam Part 1 includes quatrains 1 338 for each of which the Persian original along with Tamdgidi s new English verse translation and a transliteration for the same are shared Each quatrain is indexed according to the frequency of its inclusion in manuscripts the earliest known date of its appearance in them the extent to which it has wandered into other poets works and its rhyming scheme Brief comments about the meaning of each quatrain in relation to other quatrains and works attributed to Khayyam are then offered along with any notes regarding its new translation as shared Tamdgidi shows that the quatrains 1 338 in the beginning 30 of which Khayyam offers an opening to his book of poetry as a secretive

work of art address the question Does Happiness Exist The latter question is the first of a set of three methodically phased questions Khayyam has identified in his philosophical works as being required for investigating any subject The order in which the quatrains are presented shows that the quatrains included in Part 1 follow a logically inductive reasoning process through which Khayyam delves from the surface portraits of unhappiness to their deeper chain of causes in order to answer his question The thematic topics of the quatrains of Part 1 as shared in Book 8 are I Secret Book of Life II Alas III Times IV Spheres V Chance and Fate VI Puzzle VII O God VIII Tavern Voice and IX O Wine Tender After the opening quatrains where Khayyam explains why he was composing a secretive book of poetry and what it aims to do his inquiry starts with doubtful existential self reflections on his life leading him to first blame his times then the spheres then matters of chance and fate soon realizing that he really does not have an explanation for the enigmas of existence concluding that the answer only lies with God So he appeals to God directly for an answer It is then that he hears the voice of the Saqi or Wine Tender from his inner tavern to whom he replies in a series of quatrains closing Part 1 It is in the course of the inquiry in Part 1 that the idea of using Wine as a poetic trope is discovered by him a matter that is separate from his interest in drinking wine which he never denies but is secondary to the spiritual Wine discovered and advanced in his book of poetry that in fact represents his poetry the Robaiyat itself and its promise in answering his questions The logical order of Khayyam s inquiry shows how seemingly contradictory views that have been attributed to him can in fact be explained as logical moments in the successively deeper inquiries he makes inductively when addressing the question whether happiness exists in the created world We should therefore judge each quatrain as a logical moment in Part 1 s inquiry as a whole in anticipation of the two remaining parts of his book of poetry to be shared in Books 9 and 10 of the series respectively addressing the two follow up questions What Is Happiness and Why Does or Can Happiness Exist
