Output Measurement in the Service Sectors Zvi Griliches, Ernst R. Berndt, 1992 *Output Measurement in the Service Sectors* Zvi Griliches, 1992-12-30 Is the fall in overall productivity growth in the United States and other developed countries related to the rising share of the service sectors in the economy Since services represent well over half of the U S gross national product it is also important to ask whether these sectors have had a slow rate of growth as this would act as a major drag on the productivity growth of the overall economy and on its competitive performance In this timely volume leading experts from government and academia argue that faulty statistics have prevented a clear understanding of these issues
