Outside Literature:

Outside Literature Tony Bennett, 2005-06-28 First published in 1990 Routledge is an imprint of Taylor Francis an informal company **Literature, Culture, and Society** Andrew Milner, 1996-07 Amidst continuing debates about the literary canon Literature Culture and Society poses a revealing question if academics find it valuable and stimulating to discuss texts ranging from Genesis to Blade Runner in their leisure time why do they act as if this is sacrosanct in their formal work In this well argued and refreshing discussion of the history and importance of literary criticism Milner embraces a reality that many in the academy still fear that cultural studies is alive and it is here to stay Andrew Milner begins with an introduction to the field of cultural studies and its parent disciplines of English literature and sociology He reviews the defining terms and the theoretical traditions in a manner that is sophisticated but accessible He discusses just how and why cultural studies evolved and what it has to offer our appraisal of all texts be they old or new print or film Milner eschews both cultural populism and literary elitism in favor of a criticism that is more concerned with value than with exclusion The author concludes this significant and insightful book with a demonstration of his theories tying together a group of narratives ranging from Paradise Lost to the latest Frankenstein films Literature Culture and Society cogently examines the question of scholarship and forcefully demonstrates that rigorous academic inquiry need not be reserved for dust covered texts alone

Globalization and Literature Suman Gupta, 2009 This book presents a state of the art overview of the relationship between globalization studies and literature and literary studies and the bearing that they have on each other It engages with the manner in which globalization is thematized in literary works examines the relationship between globalization theory and literary theory and discusses the impact of globalization processes on the production and reception of literary texts Suman Gupta argues that while literature has registered globalization processes in relevant ways there has been a missed articulation between globalization studies and literary studies Some of the ways in which this slippage is now being addressed and may be taken forward are indicated In the course of fleshing out this argument such themes as the following are discussed the manner in which anti globalization protests and world cities have figured in literary works digitization has remoulded concepts of texts and text editing theories of postmodernism and postcolonialism that are familiar in literary studies have diverged from and converged with globalization studies English and Comparative World Literature as institutional disciplinary spaces are being reconfigured and industries to do with the circulation of literature are becoming globalized This book is intended for university level students and teachers researchers and other informed readers with an interest in the above issues and serves both as a survey of the field and an intervention within it *From Text to Literature* S. Olsen, A. Pettersson, 2005-09-14 The articles in this collection focus attention on the concept of literature and on the relationship between this concept and the concepts of a literary work and a literary text Adopting an analytic approach the articles attempt to clarify how these concepts govern our thinking about the phenomenon of literature in various ways

exploring the issues which arise when these concepts are employed as theoretical instruments for describing and analyzing the phenomenon of literature

Literature and Politics in the Later Foucault Azucena G. Blanco, 2020-11-09 This study proposes a revised interpretation of Foucault's views on literature. It has been argued that the philosopher's interest in literature was limited to the 1960s and of a mostly depoliticized nature. However, Foucault's previously unpublished later works suggest a different reality showing a sustained interest in literature and its politics. In the light of this new material, the book repositions Foucault's ideas within recent debates on the politics of literature.

Literature in the Making Nancy Glazener, 2015-10-15 In the eighteenth century, literature meant learned writings; by the twentieth century, literature had come to be identified with imaginative, aesthetically significant works, and academic literary studies had developed special protocols for interpreting and valuing literary texts. *Literature in the Making* examines what happened in between: how literature came to be more precisely specified and valued, how it was organized into genres, canons, and national traditions, and how it became the basis for departments of modern languages and literatures in research universities. Modern literature, the version of literature familiar today, was an international invention, but it was forged when literary cultures, traditions, and publishing industries were mainly organized nationally. *Literature in the Making* examines modern literature's coalescence and institutionalization in the United States, considered as an instructive instance of a phenomenon that was going global. Since modern literature initially offered a way to formulate the value of legacy texts by authors such as Homer, Cervantes, and Shakespeare, however, the development of literature and literary culture in the U.S. was fundamentally transnational. *Literature in the Making* argues that Shakespeare studies, one of the richest tracts of nineteenth-century U.S. literary culture, was a key domain in which literature came to be valued both for fuelling modern projects and for safeguarding values and practices that modernity put at risk, a foundational paradox that continues to shape literary studies and literary culture. Bringing together the histories of literature's competing conceptualizations, its print infrastructure, its changing status in higher education, and its life in public culture during the long nineteenth century, *Literature in the Making* offers a robust account of how and why literature mattered then and matters now. By highlighting the lively collaboration between academics and non-academics that prevailed before the ascendancy of the research university, starkly divided experts from amateurs, *Literature in the Making* also opens new possibilities for envisioning how academics might partner with the reading public.

International Companion Encyclopedia of Children's Literature Peter Hunt, Sheila G. Bannister Ray, 1996 The *Encyclopedia* offers comprehensive and international coverage of children's literature from a number of perspectives: theory and critical approaches, types and genres, context, applications, and individual country essays.

Language in Literature Geoffrey Leech, 2014-07-15 Over a period of over forty years, Geoffrey Leech has made notable contributions to the field of literary stylistics, using the interplay between linguistic form and literary function as a key to the mystery of how a text comes to be invested with artistic potential. In this book, seven earlier papers and articles, read previously only by a restricted

audience have been brought together with four new chapters the whole volume showing a continuity of approach across a period when all too often literary and linguistic studies have appeared to drift further apart Leech sets the concept of foregrounding also known as defamiliarization at the heart of the interplay between form and interpretation Through practical and insightful examination of how poems plays and prose works produce special meaning he counteracts the flight from the text that has characterized thinking about language and literature in the last thirty years when the response of the reader rather than the characteristics and meaning potential of the text itself have been given undue prominence The book provides an enlightening analysis of well known as well as less well known texts of great writers of the past including Keats Shelley Samuel Johnson Shaw Dylan Thomas and Virginia Woolf Dalit Literatures in India Joshil K. Abraham, Judith Misrahi-Barak, 2018-04-19 This book breaks new ground in the study of Dalit literature including in its corpus a range of genres such as novels autobiographies pamphlets poetry short stories and graphic novels With contributions from major scholars in the field alongside budding ones the book critically examines Dalit literary production and theory It also initiates a dialogue between Dalit writing and Western literary theory This second edition includes a new Introduction which takes stock of developments since 2015 It discusses how Dalit writing has come to play a major role in asserting marginal identities in contemporary Indian politics while moving towards establishing a more radical voice of dissent and protest Lucid accessible yet rigorous in its analysis this book will be indispensable for scholars and researchers of Dalit studies social exclusion studies Indian writing literature and literary theory politics sociology social anthropology and cultural studies

Subversive Seduction Travis Landry, 2013-01-10 Male male rivalry and female passive choice the two principal tenets of Darwinian sexual selection raise important ethical questions in *The Descent of Man* and in the decades since about the subjugation of women If female choice is a key component of evolutionary success what impact does the constraint of women's choices have on society The elaborate courtship plots of 19th century Spanish novels with their fixation on suitors and selectors rivalry and seduction were attempts to grapple with the question of female agency in a patriarchal society By reading Darwin through the lens of the Spanish realist novel and vice versa Travis Landry brings new insights to our understanding of both while Darwin's theories have often been seen as biologically deterministic Landry asserts that Darwin's theory of sexual selection was characterized by an open ended dynamic whose oxymoronic emphasis on passive female choice carries the potential for revolutionary change in the status of women **Prizing Literature** Gillian

Roberts, 2011-01-01 When Canadian authors win prestigious literary prizes from the Governor General's Literary Award to the Man Booker Prize they are celebrated not only for their achievements but also for contributing to this country's cultural capital Discussions about culture national identity and citizenship are particularly complicated when the honorees are immigrants like Michael Ondaatje Carol Shields or Rohinton Mistry Then there is the case of Yann Martel who is identified both as Canadian and as rootlessly cosmopolitan How have these writers' identities been recalibrated in order to claim them

as representative Canadians **Prizing Literature** is the first extended study of contemporary award winning Canadian literature and the ways in which we celebrate its authors Gillian Roberts uses theories of hospitality to examine how prize winning authors are variously received and honoured depending on their citizenship and the extent to which they represent Canadianness **Prizing Literature** sheds light on popular and media understandings of what it means to be part of a multicultural nation

Time and the Literary Karen Newman, Jay Clayton, Marianne Hirsch, 2013-09-13 Time and the literary the immediacy of information technology has supposedly annihilated both Email cell phones satellite broadcasting seem to have ended the long standing tradition of encoding our experience of time through writing Paul de Man's seminal essay *Literary History and Literary Modernity* and newly commissioned essays on everything from the human genome to grammatical tenses argue however that the literary constantly reconstructs our understanding of time From eleventh century France or a science fiction future Time and the Literary shows how these two concepts have been and will continue to influence each other

The Comparative Perspective on Literature Clayton Koelb, 2019-06-30 Few would deny that comparative literature is rapidly moving from the periphery toward the center of literary studies in North America but many are still unsure just what it is The Comparative Perspective on Literature shows by means of twenty two exemplary essays by many of the most distinguished scholars in the field how comparative literature as a discipline is conceived of and practiced in the 1980s Nearly all of them published here for the first time the essays discuss and themselves reflect significant changes at the core of the field as well as evolving notions as to what comparative literature is and should be The volume editors Clayton Koelb and Susan Noakes have included essays that address the scope and concerns of comparative literature today historical and international contexts of the field and the relationship of literary criticism to other disciplines as well as affording comparative perspectives on current critical issues
