Outsider Prejudice And Politics In Italy:

The Outsider Paul M. Sniderman, Pierangelo Peri, Thomas Piazza, 2002-08-18 The study of prejudice has been stimulated but also limited by the development of competing partial theories Prejudice and group conflict are said to be rooted in the psychological makeup of individuals or alternatively to spring from real competition over material goods or social status or yet again to follow in the wake of a quest for identity But the principal proponents of each theory have insisted that just so far as their approach is right then at least one of the others must be wrong or at most of marginal importance It is the distinctive effort of *The Outsider* to develop a unified theory of prejudice integrating personality realistic conflict and social identity approaches Jacket

The Politics of Migration in Italy Pietro Castelli Gattinara, 2016-04-14 Migration represents one of the key issues in both Italian and European politics and it has triggered EU wide debates and negotiations alongside alarmist and often sensationalist news reporting on the activities of government party and social movement actors *The Politics of Migration in Italy* explores what happens when previously undiscussed issues become central to political agendas and are publicly debated in the mass media Examining how political actors engage with the issue of migration in electoral campaigning this book highlights how complex policy issues are addressed selectively by political entrepreneurs and how the responses of political actors are influenced by strategic incentives and ongoing events This book studies the dynamics of the politicization of the immigration issue across three local contexts in Italy Prato Milan and Rome which differ systematically with respect to crucial economic cultural and security dimensions of immigration Offering an innovative exploration of party competition and migration in Italy as well as providing the conceptual and analytical tools to understand how these dynamics play out beyond the Italian case this book is essential reading for students scholars and policymakers working in the areas of migration studies agenda setting and European politics more generally

The Politics of Social Ties Mila Dragojevic, 2016-02-24 After forced migration to a country where immigrants form an ethnic majority why do some individuals support exclusivist and nationalist political parties while others do not Based on extensive interviews and an original survey of 1 200 local Serbs and ethnic Serbian refugees fleeing violent conflict in Bosnia and Croatia *The Politics of Social Ties* argues that those immigrants who form close interpersonal networks with others who share their experiences such as the loss of family friends and home in addition to the memory of ethnic violence from past wars are more likely to vote for nationalist parties Any political mobilization occurring within these interpersonal networks is not strategic rather individuals engage in political discussion with people who have a greater capacity for mutual empathy over the course of discussing other daily concerns This book adds the dimension of ethnic identity to the analysis of individual political behavior without treating ethnic groups as homogeneous social categories It adds valuable insight to the existing literature on political behavior by emphasizing the role of social ties among individuals

Children of Immigrants in a Globalized World E. Colombo, P. Rebughini, 2012-11-13 This book explores the generational experience of children of immigrants growing up in an

increasingly globalized and interconnected world comparing the lives of Mediterranean youths with those from America and Northern Europe The Re-invention of the European Radical Right Andrej Zaslove,2011-08-04 Combining an in depth case study of the Italian Northern League with a comparative focus on other parties Andrej Zaslove employs a socio economic institutional and ideological analysis to argue that the new wave of right wing parties in Western Europe converged into a radical right populist party family in the 1990s He examines the transformation of the Northern League from its regionalist roots while focusing on the party s nationalism authoritarianism support for a market economy opposition to globalization and scepticism regarding Italian integration into the European Union He also scrutinizes the Northern League s participation in political power between 2001 and 2006 and its influence on federalism immigration economic policy and European integration A thorough and thought provoking work The Re invention of the European Radical Right offers remarkable insight into the ongoing effects of radical right populism on politics and public policy in Europe **Migrant Marketplaces** Elizabeth Zaroni,2018-03-21 Italian immigrants to the United States and Argentina hungered for the products of home Merchants imported Italian cheese wine olive oil and other commodities to meet the demand The two sides met in migrant marketplaces urban spaces that linked a mobile people with mobile goods in both real and imagined ways Elizabeth Zaroni provides a cutting edge comparative look at Italian people and products on the move between 1880 and 1940 Concentrating on foodstuffs a trade dominated by Italian entrepreneurs in New York and Buenos Aires Zaroni reveals how consumption of these increasingly global imports affected consumer habits and identities and sparked changing and competing connections between gender nationality and ethnicity Women in particular by tradition tasked with buying and preparing food had complex interactions that influenced both global trade and their community economies Zaroni conveys the complicated and often fraught values and meanings that surrounded food meals and shopping A groundbreaking interdisciplinary study Migrant Marketplaces offers a new perspective on the linkages between migration and trade that helped define globalization in the late nineteenth and early twentieth centuries *Migrants in Translation* Cristiana Giordano,2014-05-16 Migrants in Translation is an ethnographic reflection on foreign migration mental health and cultural translation in Italy Its larger context is Europe and the rapid shifts in cultural and political identities that are negotiated between cultural affinity and a multicultural multiracial Europe The issue of migration and cultural difference figures as central in the process of forming diverse yet unified European identities In this context legal and illegal foreigners mostly from Eastern Europe and Northern and Sub Saharan Africa are often portrayed as a threat to national and supranational identities security cultural foundations and religious values This book addresses the legal therapeutic and moral techniques of recognition and cultural translation that emerge in response to these social uncertainties In particular Migrants in Translation focuses on Italian ethno psychiatry as an emerging technique that provides culturally appropriate therapeutic services exclusively to migrants political refugees and victims of torture and trafficking Cristiana Giordano argues that ethno psychiatry s focus on cultural identifications as

therapeutic inasmuch as it complies with current political desires for diversity and multiculturalism also provides a radical critique of psychiatric legal and moral categories of inclusion and allows for a rethinking of the politics of recognition

Immigrant Exclusion and Insecurity in Africa Claire L. Adida, 2014-04-07 This book explores the diverse immigrant experiences in urban West Africa where some groups integrate seamlessly while others face exclusion and violence It shows counterintuitively that cultural similarities between immigrants and their hosts do not help immigrant integration and may in fact disrupt it This book is one of the first to describe and explain in a systematic way immigrant integration in the developing world where half of all international migrants go It relies on intensive fieldwork tracking two immigrant groups in three host cities and draws from in depth interviews and survey data to paint a picture of the immigrant experience from both immigrant and host perspectives

Native Bias Donghyun Danny Choi, Mathias Poertner, Nicholas Sambanis, 2022-10-11 What drives anti immigrant bias and how it can be mitigated In the aftermath of the refugee crisis caused by conflicts in the Middle East and an increase in migration to Europe European nations have witnessed a surge in discrimination targeted at immigrant minorities To quell these conflicts some governments have resorted to the adoption of coercive assimilation policies aimed at erasing differences between natives and immigrants Are these policies the best method for reducing hostilities *Native Bias* challenges the premise of such regulations by making the case for a civic integration model based on shared social ideas defining the concept and practice of citizenship Drawing from original surveys survey experiments and novel field experiments Donghyun Danny Choi Mathias Poertner and Nicholas Sambanis show that although prejudice against immigrants is often driven by differences in traits such as appearance and religious practice the suppression of such differences does not constitute the only path to integration Instead the authors demonstrate that similarities in ideas and value systems can serve as the foundation for a common identity based on a shared concept of citizenship overcoming the perceived social distance between natives and immigrants Addressing one of the most pressing challenges of our time *Native Bias* offers an original framework for understanding anti immigrant discrimination and the processes through which it can be overcome

The New Minority Justin Gest, 2016-09-01 It wasn't so long ago that the white working class occupied the middle of British and American societies But today members of the same demographic feeling silenced and ignored by mainstream parties have moved to the political margins In the United States and the United Kingdom economic disenfranchisement nativist sentiments and fear of the unknown among this group have even inspired the creation of new right wing parties and resulted in a remarkable level of support for fringe political candidates most notably Donald Trump Answers to the question of how to rebuild centrist coalitions in both the U S and U K have become increasingly elusive How did a group of people synonymous with Middle Britain and Middle America drift to the ends of the political spectrum What drives their emerging radicalism And what could possibly lead a group with such enduring numerical power to in many instances consider themselves a minority in the countries they once defined In *The New Minority* Justin

Gest speaks to people living in once thriving working class cities Youngstown Ohio and Dagenham England to arrive at a nuanced understanding of their political attitudes and behaviors In this daring and compelling book he makes the case that tension between the vestiges of white working class power and its perceived loss have produced the unique phenomenon of white working class radicalization **Oxford Handbook of Political Behavior** Russell J. Dalton, Hans-Dieter

Klingemann, 2007 Assembles the world's leading scholars on public opinion and political behaviour to describe the state of the art research on the beliefs values and behaviours of contemporary politics **The Routledge Handbook of**

Contemporary Italy Andrea Mammone, Ercole Giap Parini, Giuseppe Veltri, 2015-05-15 The Routledge Handbook of Contemporary Italy provides a comprehensive account of Italy and Italian politics in the 21st Century Featuring contributions from many leading scholars in the field this Handbook is comprised of 28 chapters which are organized to deliver unparalleled analysis of Italian society politics and culture A wide range of topics are covered including Politics and economy and their impact on Italian society Parties and new politics Regionalism and migrations Public memories Continuities and transformations in contemporary Italian society This is an essential reference work for scholars and students of Italian and Western European society politics and history **In the House of War** Sam Cherribi, 2010-07-09 Sam Cherribi is a

Moroccan Muslim who became a naturalized Dutch citizen and member of the Dutch Parliament In this book he draws on his personal experiences with European politics and media extensive fieldwork in Dutch mosques and interviews with imams In recent years the Netherlands has been swept by the same forces of change that have swept the rest of Europe the consolidation of the European Union a massive influx of Muslim immigrants and the rising voice of Islamic fundamentalism Cherribi argues that this small country has amplified these forces providing a useful lens through which to examine trends in all of Europe The portents are troubling he notes as evidenced by the murders of journalist Pim Fortuyn and filmmaker Theo Van Gogh after which riots broke out mosques were burned and Muslims were openly reviled by the public and the media Cherribi himself was voted out of Parliament in the anti migrant fervor that engulfed the Netherlands after these murders and like many other Dutch Muslims he emigrated to the United States Looking back on these events and bringing to bear his skills and training as a sociologist Cherribi provides an invaluable account of one country's encounter with some of the most troubling trends of our times **The Democratic Faith** Paul M. Sniderman, 2017-09-26 Can the citizens of a democracy be

trusted to run it properly Modern political science has concentrated on cataloguing voters failings their lack of knowledge tolerance or consistency in political thinking While it would be a mistake to think this portrait of citizens is simply wrong it is a deeper mistake to accept it as a satisfactory likeness In this book Paul Sniderman demonstrates that a concentration on the pathologies of citizens political thinking has obscured the intense clash of opposing belief systems in the electorate He shows how a concentration on racism has distorted understanding of the politics of race by keeping out of sight those who think well of black Americans And he exposes the fallacy of spotlighting the dangers of mass politics while ignoring those of elite
