Ovambo Politics in the Twentieth Century Allan D. Cooper, 2001-11-19 Ovambo Politics in the Twentieth Century offers a paradigm shift from how studies typically treat the colonization of Africa Using archival documentation from government and industry sources Cooper offers a detailed historical analysis of the seven major communities comprising the Ovambo Namibia's largest ethnic group His examination reveals that these Ovambo communities engaged in competitive political relations with each other throughout the German colonial era as well as the subsequent occupation of territory by the white minority government of South Africa Each community alternated between strategies of resistance and collaboration with colonial authorities in order to maximize their geopolitical advantage with their ethnic neighbors Cooper provides documentation showing that even the assassination of King Mandume in 1917 by South African forces involved the participation of leaders from other Ovambo communities Ovambo Politics in the Twentieth Century is intended for Africanists ethnographers Namibians seeking an understanding of their own history labor historians students of colonial history and students of revolutionary movements Political Handbook of the World 2020-2021 Tom Lansford, 2021-05-31 The Political Handbook of the World by Tom Lansford provides timely thorough and accurate political information with more in depth coverage of current political controversies than any other reference guide The updated 2020 2021 edition will continue to be the most authoritative source for finding complete facts and analysis on each country's governmental and political makeup Compiling in one place more than 200 entries on countries and territories throughout the world this volume is renowned for its extensive coverage of all major and minor political parties and groups in each political system The Political Handbook of the World 2020 2021 also provides names of key ambassadors and international memberships of each country plus detailed profiles of more than 30 intergovernmental organizations and UN agencies And this update will aim to include coverage of current events issues crises and controversies from the course of the last two years **Political Handbook of the World 2022-2023** Tom Lansford, Jorge Brown, 2023 With more in depth coverage of current political controversies than any other reference guide Political Handbook of the World 2022 2023 is the most authoritative source for finding complete facts and analysis on each country's governmental and political makeup **Political Parties in Africa** Sebastian Elischer, 2013-09-09 This book examines the effects of ethnicity on party politics in sub Saharan Africa Sebastian Elischer analyzes political parties in Ghana Kenya and Namibia in detail and provides a preliminary analysis of parties in seven other countries including Tanzania Botswana Senegal Zambia Malawi Burkina Faso and Benin Elischer finds that five party types exist the mono ethnic the ethnic alliance the catch all the programmatic and the personalistic party He uses these party types to show that the African political landscape is considerably more diverse than conventionally assumed Whereas ethnic parties dominate in some countries non ethnic parties have become the norm in others This study also finds a correlation between a country's ethnic make up and the salience of political ethnicity countries with a core ethnic group are prone to form non

ethnic parties In countries lacking a core ethnic group ethnic parties constitute the norm

**Historical Dictionary of Namibia** Victor L. Tonchi, William A. Lindeke, John J. Grotzinger, 2012-08-31 On March 21 1990 Sam Nujoma was sworn in as the first president of independent Namibia This ceremony marked the end of a struggle that lasted more than two decades and a period of colonialism that lasted more than a century Finally after decades long wars over grazing in the 19th century genocidal colonial suppression by Germany at the beginning of the 20th century repressive apartheid racialism throughout the 20th century and a prolonged armed liberation struggle Namibians had the chance to choose their own leaders develop a democratic political process in a free society and to bring economic development and greater equity to their country The Historical Dictionary of Namibia covers the history of Namibia through a chronology an introductory essay appendixes and an extensive bibliography The dictionary section has several hundred cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent access point for students researchers and anyone wanting to know more about Namibia

*The Geography of Genocide* Allan D. Cooper, 2009 The Geography of Genocide offers a unique analysis of over sixty genocides in world history explaining why genocides only occur in territorial interiors and never originate from cosmopolitan urban centers This study explores why genocides tend to result from emasculating political defeats experienced by perpetrator groups and examines whether such extreme political violence is the product of a masculine identity crisis Author Allan D Cooper notes that genocides are most often organized and implemented by individuals who have experienced traumatic childhood events involving the abandonment or abuse by their father Although genocides target religious groups nations races or ethnic groups these identity structures are rarely at the heart of the war crimes that ensue Cooper integrates research derived from the study of serial killing and rape to show certain commonalities with the phenomenon of genocide The Geography of Genocide presents various strategies for responding to genocide and introduces Cooper's groundbreaking alternatives for ultimately inhibiting the occurrence of genocide

**BOOK JACKET** *Colonial Genocide and Reparations Claims in the 21st Century* Jeremy Sarkin, 2008-11-30 More and more the descendants of indigenous victims of genocide land expropriation forced labor and other systematic human rights violations committed by colonial powers are seeking reparations under international law from the modern successor governments and corporations As the number of colonial reparations cases increases courts around the world are being asked to apply international law to determine whether reparations are due for atrocities and crimes that might have been committed long ago but whose lasting effects are alleged to injure the modern descendants of the victims Sarkin analyzes the thorny issues of international law raised in such suits by focusing on groundbreaking cases in which he is involved as legal advisor to the paramount chief of the Herero people of Namibia In 2001 the Herero became the first ethnic group to seek reparations under the legal definition of genocide by bringing multi billion dollar suits against Germany and German companies in a number of U S federal courts under the Alien Torts Claim Act of 1789 The Herero genocide conducted in

German South West Africa present day Namibia between 1904 and 1908 is recognized by the UN as the first organized state genocide in world history Although the Herero were subjected to Germany's First Genocide they have unlike the victims of the Holocaust received no reparations from Germany By machine gun massacres starvation poisoning and forced labor in Germany's first concentration camps the German Schutztruppe systematically exterminated as many as 105 000 Herero women and children composing most of the Herero population Sarkin considers whether these historical events constitute legally defined genocide crimes against humanity and other international crimes He evaluates the legal status of indigenous polities in Africa at the time and he explores the enduring impact in Namibia of the Germany's colonial campaign of genocide He extrapolates the Herero case to global issues of reparations apologies and historical human rights violations especially in Africa

*Germany's Genocide of the Herero* Jeremy Sarkin, Jeremy Sarkin-Hughes, 2011 In 1904 the indigenous Herero people of German South West Africa now Namibia rebelled against their German occupiers In the following four years the German army retaliated killing between 60 000 and 100 000 Herero people one of the worst atrocities ever The history of the Herero genocide remains a key issue for many around the world partly because the German policy not to pay reparations for the Namibian genocide contrasts with its long standing Holocaust reparations policy The Herero case bears not only on transitional justice issues throughout Africa but also on legal issues elsewhere in the world where reparations for colonial injustices have been called for The book argues that the Herero genocide was linked to Germany's late entry into the colonial race which led it frenetically and ruthlessly to acquire multiple colonies all over the world within a very short period using any means available

**"The Inevitable Pipeline Into Exile"** Johann Alexander Müller, 2012 The role played by Botswana in various southern African liberation struggles has previously been neglected in historical studies The country's politics of support and mobilisation early on in Namibia's struggle for independence from South Africa proved crucial for the formative period of both nation states Botswana's difficult and contradictory position as neighbour of the South African apartheid state and colonial power in Namibia are carefully dealt with as are the challenges faced by the fragile Namibian refugee networks and liberation movements SWANU and SWAPO operating in Botswana for decades The Inevitable Pipeline into Exile deals with a crucial phase of nationalism and transnational politics during the period of southern African decolonisation at the height of South Africa's diplomatic and military aggression throughout the region

[Africa and the Global System of Capital Accumulation](#) Emmanuel O Oritsejafor, Allan D. Cooper, 2021-04-17 Africa and the Global System of Capital Accumulation offers a groundbreaking analysis of the strategic role Africa plays in the global capitalist economy The exploitation of Africa's rich resources as well as its labor make it possible for major world powers to sustain their authority over their own middle class populations while rewarding African collaborators in leadership positions for subjecting their populations into poverty and desperation Middle class obsessions such as computers mobile phones cars and the petroleum that fuels them diamonds chocolate all of these products require African resources that are typically obtained by child or slave labor that helps to

generate billionaires out of foreign investors while impoverishing most Africans Oritsejafor and Cooper demonstrate that primitive accumulation believed by both Adam Smith and Karl Marx to be a process that precedes capitalism is actually an integral part of capitalism They also validate the thesis that capitalism incorporates racism as an organizing tool for the exploitation of labor in Africa and on a global scale Case studies are presented on Nigeria Cote d'Ivoire Ghana Liberia Congo Tanzania Somalia Angola Namibia Sao Tome and Principe and South Sudan There are also chapters analyzing the interests of Russia and China in Africa This book will be of interest to students and scholars of African politics development and economics

*Re-Viewing Resistance in Namibian History* Silvester, Jeremy, 2015-07-13 *Re-Viewing Resistance in Namibian History* brings together the work of experienced academics and a new wave of young Namibian historians architects of the past who are working on a range of public history and heritage projects from late nineteenth century resistance to the use of songs from the role of gender in SWAPO's camps to memorialisation and from international solidarity to aspects of the history of Kavango and Caprivi In a culturally and politically diverse democracy such as Namibia there are bound to be different perspectives on the past and history will be as plural as the history tellers The chapters in this book reflect this diversity and combine to create a remarkable collection of divergent voices providing alternative perspectives on the past *Re-Viewing Resistance in Namibian History* writes forgotten people into history provides a reading of the past that reflects the tensions and competing identities that pervaded the struggle and deals with heritage that hurts

**The Political Economy of the Kimberley Process** Nathan Munier, 2020-09-03 Investigating state responses to the Kimberley Process an ambitious international agreement meant to reduce the trade of conflict diamonds this study looks at the political economy of resource wealthy states in Africa to understand why some African states have higher levels of compliance and co-operation than others

**The Shadow that Lingers** Allan D Cooper, 2023-06-05 Allan D Cooper demonstrates how the resistance to slavery served to unveil the nature of freedom that made possible the abolition movement and anti-colonial struggles The corpus of human rights law that has evolved over the past two centuries is constructed around the negation of slavery This book analyzes how slavery mutated into racial identification that governments enforce against their own population to advance more efficient methods of discipline and control *The Shadow that Lingers* reveals how race is used to traumatize human beings by embodying inferiority and powerlessness even for whites that claim privilege under racialized regimes As an ideology of power race becomes contextualized to fit local cultures resulting in contradictory understandings of race from one culture to another This book focuses attention on how racial hybridity among mixed race communities poses challenges for racial purists and how such communities endeavor to construct racial identities that often differentiate themselves from being black The book concludes with an analysis of how the pursuit of freedom inevitably requires the reification of a non-racial identity

*Lyrical Nationalism in Post-Apartheid Namibia* Wendi A. Haugh, 2014-06-25 When Namibia gained its independence from South Africa in 1990 the new government began dismantling the divisive apartheid state and building a

unified nation state What does this new nation look like from the perspective of ordinary citizens In *Lyrical Nationalism in Post Apartheid Namibia* Wendi Haugh provides an ethnographic portrayal of the nation as imagined by people living in the former ethnic homeland of Ovamboland with a particular focus on the lyrics of songs composed and performed by Catholic youth The author argues that these youth draw on conflicting ideologies hierarchical and egalitarian nationalist and cosmopolitan from multiple sources to construct a multi faceted sense of national identity She reveals how their vision of the nation framed as neutrally national is deeply rooted in specific local histories and cultures

Traders and Trade in Colonial Ovamboland, 1925-1990 Gregor Dobler, 2014-08-14 Taking the history of trade and of traders as its subject matter this book offers the first economic history of northern Namibia during the twentieth century It traces Namibias way from a rural largely self relying society into a globalised economy of consumption This transformation built on colonial economic activities but it was crucially shaped by local traders a new social elite emerging during the 1950s and 1960s Becoming a trader was one of the few possibilities for black Namibians to gain monetary income at home It was a pathway out of migrant labour to new status in the local society and often to prosperity Politically most traders occupied a middle ground content of their own social position but intent on political emancipation from colonial rule Economically their energy and business acumen transformed northern Namibia into an increasingly urban consumer society The development path they chose however depended too much on the colonial reserve economy to remain sustainable after 1990 Their legacy still shapes spatial and social structures in northern Namibia but most traders businesses have today closed down By telling the history of the rise and decline of traders and trade in northern Namibia this book is thus also a reflection on the conundrums of economic development under conditions of structural inequality

*Political Handbook of the World 2024-2025* Tom Lansford, 2025-04-15 The *Political Handbook of the World 2024-2025* is the most authoritative and comprehensive reference guide available for understanding the political landscape of every nation and territory across the globe This updated edition features more than 200 entries offering detailed coverage of governmental structures political parties and current leadership Known for its unmatched depth the volume provides in depth analysis of both major and minor political parties and movements and delivers timely insights into recent controversies political crises and key events from the past two years This edition also includes up to date listings of ambassadors international organization memberships and expanded profiles of over 30 intergovernmental organizations and UN agencies Trusted by researchers analysts journalists and students this resource continues to deliver essential reliable political data and analysis

**National Liberation Movements in Office** Elena Torreguitar, 2009 Originally presented as the author s thesis Ph D Boston University 2008

**The Politics of Nature and Science in Southern Africa** Maano Ramutsindela, Giorgio Miescher, Melanie Boehi, 2016-09-12 This book brings together recent and ongoing empirical studies to examine two relational kinds of politics namely the politics of nature i e how nature conservation projects are sites on which power relations play out and the politics of the scientific study of nature

These are discussed in their historical and present contexts and at specific sites on which particular human environment relations are forged or contested This spatio temporal juxtaposition is lacking in current research on political ecology while the politics of science appears marginal to critical scholarship on social nature Specifically the book examines power relations in nature related activities demonstrates conditions under which nature and science are politicised and also accounts for political interests and struggles over nature in its various forms The ecological socio political and economic dimensions of nature cannot be ignored when dealing with present day environmental issues Nature conservation regulations are concerned with the management of flora and fauna as much as with humans Various chapters in the book pay attention to the ways in which nature science and politics are interrelated and also co constitutive of each other They highlight that power relations are naturalised through science and science related institutions and projects such as museums botanical gardens wetlands parks and nature reserves

South Africa's Dreams Robert J. Gordon, 2021-02-05 In the early sixties South Africa s colonial policies in Namibia served as a testing ground for many key features of its repressive Grand Apartheid infrastructure including strategies for countering anti apartheid resistance Exposing the role that anthropologists played this book analyses how the knowledge used to justify and implement apartheid was created Understanding these practices and the ways in which South Africa s experiences in Namibia influenced later policy at home is also critically evaluated as is the matter of adjudicating the many South African anthropologists who supported the regime

**Making Whole what Has Been Smashed** John Torpey, 2006 This book explores the recent spread of political efforts to rectify past injustices Although it recognizes that reparations campaigns may lead to improved well being of victims and to reconciliation among former antagonists it examines the extent to which concern with the past may depart from the future orientation of progressive politics
