Future History Igor Kryan,2006-09-01 You can live in paradise on Earth How can this be even remotely possible Isn t it what every normal human being hopes for We all have strong internal and sub consciousness desire to stay healthy to be forever young and live in peaceful paradise like conditions We really do not look forward to the conditions of aging suffering and death Does it make any sense at all that we work so hard all of our life wanting to acquire the best education trying to earn a fortune attempting to build a happy family life only to eventually lose it all because of aging sickness and death That doesn t seem reasonable does it Is there a real purpose to life that makes more sense Is it universal fate of everything to be born and die If so there must be a real purpose of achievements we trying to accomplish and a real purpose of the future What our Earth will look like in 10 50 100 or 1 000 years from now Unfortunately renowned philosophers politicians futurologists and theologians have failed to provide satisfying answers and real solutions to all of the problems that are facing mankind today and will face tomorrow Unit now Read this controversial book to understand the true meaning of the future and the life itself
