Over Europe:

Shadows Over Europe M. Schain, A. Zolberg, P. Hossay, 2002-10-04 As the French Presidential elections clearly demonstrated in the Spring of 2002 the popularity of far right parties is gaining ever more strength From the National Front in France to the British National Party anti immigration anti European Union platforms are winning more voters The numbers alone are striking the National Front in France received nearly eighteen percent of the nationwide vote in 2002 Presidential run off between Chirac and Le Pen the Swiss People s Party received 23 percent of the popular vote in a 1999 election and Jorg Haider s Austrian Freedom Party moved from near collapse to second place in the 1999 election The essays in *Shadows Over Europe* explore this growing presence of extreme right political parties in governments throughout Europe These parties can no longer be dismissed as anomalous or temporary It is clear that they have established an enduring presence in European politics The contributors to this volume explore the origins of this trend why they have gained such support and where these parties might be headed They explore the policy orientations of these parties and their role in electoral politics across the continent Together these essays provide a significant contribution toward understanding the rise and impact of the far right in Europe

[The European Company - All Over Europe](#) Krzysztof Oplustil, Christoph Teichmann (jurist), 2004 On 8 October 2004 the Council Regulation EC No 2157/2001 on the Statute for the European Company SE will enter into force In order to make the SE a functional instrument for entrepreneurs and investors as well as to ensure the effective application of European law it is necessary to pass national implementation measures by then National legislators have the opportunity as well as the challenge to shape in some respect a national model of the SE which would be attractive for investors and would influence their decision as to where the company be located Thus the coming into force of the SE Regulation will also give the starting shot for the competition between national legislators with regard to the law of the European Company The aim of the present book is to provide the first indications in those national regulations specifically concerning the SE Although no national law has so far been finally adopted the first legislative steps have already been taken in many Member States and first drafts have been published These drafts are presented in the book by the national experts Moreover the authors from Member States where no official drafts so far exist express their personal reflections on how the specific regulations of national law would and should look Given the fact that in October 2004 when the SE Regulation comes into force the European Union will be enlarged by 10 new Member States the reports cover also some of them i.e. Poland Hungary and the Czech Republic

The Politicization of Europe Paul

Statham, Hans-Jörg Trenz, 2012 This book examines how mass media debates have contributed to the politicization of the European Union The public controversies over the EU's attempted Constitution making and its failure sowed the seeds for a process of politicization that has advanced ever since an increasing visibility for the EU in mass mediated public debates that is combined with a growing public contestation over Europe within national politics The book presents an original systematic study of the emerging field of political discourse carried by the mass media in France Germany and Britain to examine the performance of Europe's public sphere Whilst the EU's increasing politicization can be seen as beneficial to European democracy potentially normalizing the EU level within national politics the same developments can also be a threat to democracy leading to populist and xenophobic responses and a decline in political trust Such discussions are key to understanding the EU's legitimacy and how its democratic politics can work in an era of mediated politics The Politicization of Europe will be of interest to students and scholars of comparative politics media studies communication sociology and European studies

The Collected Works of Wyndham Lewis: Left Wings Over Europe Udith Dematagoda, 2025-02-12 The Collected Works of Wyndham Lewis brings together for the first time all of the published writings of Wyndham Lewis 1882-1957 a major contributor to literary modernism and one of the most important British painters of the first half of the twentieth century Composed hastily and with little foresight as to its potential consequences *Left Wings Over Europe* or *How to Make a War about Nothing* was published in 1936 The book is one of three works of political invective written by Wyndham Lewis against the international order of the western powers the Soviet Union and sympathetic towards the fascist regimes in Italy and Nazi Germany Lewis's interest in political writing emerged in the aftermath of the First World War where he had served as an artillery officer and official war artist Motivated by this experience all of his subsequent non-fictional works were in some sense anti-war and *Left Wings* is no exception Though replete with a range of mercurial analysis and somewhat agitated in tone this work and the related essays and articles preceding it collected together for the first time provide a highly subjective yet fascinating contemporary account of the day to day diplomatic crises and political struggles that defined Europe in the mid 1930s
