## **Politics Of Foreign Policy In Post War Germany Cold War Changes Domestic Debates:**

**Cold War Politics in Post War Germany** D. Patton, 1999-02-14 During the Cold War the Federal Republic of Germany FRG a divided nation on the front line of the East West confrontation came down with pneumonia every time the superpowers sneezed Due to the East West confrontation splitting Germany in two the Cold War remained irrevocably linked to the question of German unity In The Politics of Foreign Policy in Post War Germany David Patton develops the links between Cold War international pressures and German domestic coalitions The book examines a politics in uncertain times with three major shifts in Cold War relations disrupting politics as usual in the Federal Republic In the early 1950s external pressures led to a wrenching internal debate over rearmament Twenty years later the thaw in Cold War tensions set the stage for a fierce domestic showdown over détente with Eastern Europe In the early 1990s Chancellor Helmut Kohl took full advantage of the end of the Cold War to implement his controversial unification policy At each juncture the Federal Republic experienced intense debates over national unity the increased stature of the chancellor in the policy making process the emergence of new domestic alliances and a sudden foreign policy reversal Patton's examination of these three periods reveals how the Federal Republic has changed yet stayed the same in the post war era

**Party Systems and Foreign Policy Change in Liberal Democracies** Angelos Chrysosgelos, 2020-12-22 How do political parties affect foreign policy This book answers this question by exploring the role of party politics as source of foreign policy change in liberal democracies The book shifts the focus from individual political parties to party systems as the context in which parties ideologies receive precise content and their preferences are formed The central claim is that foreign policy change arises from within transformed discursive contexts of party competition when a new language of politics that constitutes anew parties self understanding of what they stand for and compete over emerges in a party system By comparing cases of contested foreign policy change the book shows how such transformations in party competition determine whether and when international pressures on a state will translate into decisions to institute foreign policy change and what degree of change will be ultimately implemented With a novel framework which bridges concepts of international relations and comparative politics the book will be of interest to researchers and students in the areas of international relations theory foreign policy analysis and comparative politics and generally to anyone wanting to understand how and when parties elections and voters contribute to international change

German Foreign Policy Since Unification Volker Rittberger, 2001 This book examines the extent to which German foreign policy has changed since unification and analyzes the fundamental reasons behind this change The book has three main aims The essays develop theories of foreign policy to predict and explain Germany's foreign policy behavior They test competing predictions about German foreign policy behavior since unification in several issue areas They also assess the much debated question as to whether post unification Germany's foreign policy is marked by continuity or change

Germany and the Baltic Problem After the Cold War Kristina Spohr Readman, 2004-06-10 Questions how a

unified Germany will use its great power status Draws on numerous confidential interviews with key political actors and on unprecedented access to still classified material The German Problem Transformed Thomas Banchoff,2010-05-06 Does the new more powerful Germany pose a threat to its neighbors Does the new German Problem resemble the old The German Problem Transformed addresses these questions fifty years after the founding of the Federal Republic and ten years after the fall of the Berlin Wall Many observers have underscored the reemergence of Germany as Europe s central power After four decades of division they contend Germany is once again fully sovereign without the strictures of bipolarity its leaders are free to define and pursue national interests in East and West From this perspective the reunified Germany faces challenges not unlike those of its unified predecessor a century earlier The German Problem Transformed rejects this formulation Thomas Banchoff acknowledges post reunification challenges but argues that postwar changes not prewar analogies best illuminate them The book explains the transformation of German foreign policy through a structured analysis of four critical postwar junctures the cold war of the 1950s the d tente of the 1960s and 1970s the new cold war of the early 1980s and the post cold war 1990s Each chapter examines the interaction of four factors international structure and institutions foreign policy ideas and domestic politics in driving the direction of German foreign policy at a key turning point This book will be of interest to scholars and students of German history German politics and European international relations as well as policymakers and the interested public Thomas Banchoff is Assistant Professor of Government Georgetown University *Memory and Power in Post-War Europe* Jan-Werner Müller,2002-08-29 How has memory collective and individual influenced European politics after the Second World War and after 1989 in particular How has the past been used in domestic struggles for power and how have historical lessons been applied in foreign policy While there is now a burgeoning field of social and cultural memory studies mostly focused on commemorations and monuments this volume is the first to examine the connection between memory and politics directly It investigates how memory is officially recast personally reworked and often violently re instilled after wars and above all the ways memory shapes present power constellations The chapters combine theoretical innovation in their approach to the study of memory with deeply historical empirically based case studies of major European countries The volume concludes with reflections on the ethics of memory and the politics of truth justice and forgetting after 1945 and 1989 **NATO's Post-Cold War Politics** S. Mayer,2014-08-26 This collection is the first book length study of NATO s bureaucracy and decision making after the Cold War and its analytical framework of internationalization draws largely on neo institutionalist insights Routledge Handbook of International Political Economy (IPE) Mark Blyth,2009-06-02 The study of the International Political Economy IPE like the IPE itself is plural and unbounded Despite what partisans sometimes say rather than there being one way of studying the IPE that is the right way we find across the world great variation in IPE scholarship in terms of focus questions and methods How then can we make sense of this and understand the field as a whole rather than simply learn one part of it This Handbook is designed to address precisely this

concern It maps the shifting boundaries and diverse theoretical commitments of IPE around the world It engages the geographical and theoretical diversity of the different versions of IPE found in North America the UK in Asia and Australia and notes the absences of distinctive versions of IPE in Europe and Latin America The volume groups together the essential attributes and positions of each school inviting the reader to engage with and learn about IPE in all of its guises through this evolving global conversation Rather than adjudicate the one true version of IPE it argues that the intellectual diversity we see around the world is an essential and positive feature of the field With over twenty contributors from a wide range of countries Routledge Handbook of International Political Economy is an essential resource for all those with an interest in this complex and rapidly evolving field of study

**Russian Foreign Policy and International Relations Theory** Christer Pursiainen, 2017-07-05 An original and challenging examination of how to transform post Sovietological study of Soviet and Russian foreign policy into a more integrated part of the Social Sciences and International Relations Theory This book represents the first detailed and sustained synthesis international relations theory and Soviet Russian foreign and security policy in academic literature

*European Security and International Institutions after the Cold War* Marco Carnovale, 2016-07-27 The end of the Cold War has been accompanied by renewed enthusiasm over the potential of security institutions in Europe West Europeans the US and former communist states see them as an indispensable instrument of collective security Yet institutions failed to prevent post communist conflicts most notably in Yugoslavia For the future there is a need for improved coordination among interlocking institutions This study is both a critical assessment of ongoing institutional changes and an analysis of the agenda for the future

*Japanese Politics and Government* Alisa Gaunter, 2017-09-19 This book investigates Japanese politics in the postwar era from theoretical and comparative perspectives After providing historical context it offers an in depth exploration of postwar political institutions political reform in the 1990s the policymaking process and the politics of economic growth and stagnation The author draws attention to key policy issues including women and work immigration Japanese aging low fertility society and Constitutional revision By delving into Japan s international relations the book sheds light on Japan s security and trade policies Japan s role in the Asian region and Japan s bilateral relations with the U S China South Korea and the EU Themes and questions addressed throughout the text include How and why did Japan modernize so successfully when so many other countries fell prey to colonialism and authoritarianism What explains the Japanese economic miracle and its subsequent economic stagnation What accounts for Japan s successful democratization In the international realm why has Japan achieved economic superpower status without achieving political superpower status What has or has not changed since the historic election of the Democratic Party of Japan in 2009 and why What is the future trajectory of Japanese politics Connecting Japan to larger themes in comparative politics and linking Japan s history institutions policymaking process and international relations to experiences and structures in other countries this book is essential reading for any course on Japanese or Asian Politics

The Union for the Mediterranean Federica Bicchì, Richard Gillespie, 2014-07-10 This is the first comprehensive analysis of the Union for the Mediterranean UfM launched in 2008 amid great controversy within the European Union Affected from the start by negative fallout from the failure of Middle East peace initiatives its inadequacies have been underlined by the popular movement for regime change in the Arab world Leading experts provide here the first integrated analysis of the significance and shortcomings of the UfM Beginning with critical questioning of the motives and institutional logics informing this venture the collection proceeds to analyse its key actors as well as major policy dossiers such as energy and development The book explains how and why an initiative aiming to depoliticize Euro Mediterranean relations in fact proved wide open to political discord bringing huge disruption to UfM activity While some aspects are found to have merit the volume is critical of the way in which EU Mediterranean policy became driven by a narrow range of national interests lost sight of the political objectives of the preceding Barcelona Process and became overwhelmingly bilateral in approach at the expense of more ambitious region building efforts It concludes by highlighting the need to reform the EU Mediterranean policy framework in the light of the Arab uprisings of 2011 This book was published as a special issue of Mediterranean Politics

The Atlantic Alliance Under Stress David M. Andrews, 2005-07-21 Can the political institutions of the transatlantic alliance endure the demise of the Soviet enemy Did the Iraq crisis of 2002-3 signal the final demise of the Atlantic partnership If so what are the likely consequences In this book a distinguished group of political scientists and historians from Europe and the United States tackle these questions The book examines the causes and consequences of the crisis in Atlantic relations that accompanied the invasion of Iraq in March 2003 The authors collective focus is not on the war itself or how it was conducted or even the situation in Iraq either before or after the conflict Instead the crisis over Iraq is the starting point for an examination of transatlantic relations and specifically the Atlantic alliance an examination that is cross national in scope and multi disciplinary in approach

**Germany, Civilian Power and the New Europe** H. Tewes, 2001-12-13 In 1990 the future of Europe's international politics hinged on two questions How would unification affect the conduct of German foreign policy Would those institutions that had given security and prosperity to Western Europe during the Cold War now do the same for the entire continent and if so how The intersection of these questions is the topic of this book which explores quite plainly what made Germany's policies towards its immediate Eastern neighbours tick

**Germany and the United States, a "special Relationship?"** Hans Wilhelm Gatzke, 1980 A discerning statement about Germany and other nations this book reevaluates for the general reader and the historian the impact of rapid industrialization the origins of the world wars the question of war guilt the decade of Weimar democracy and the rise and fall of Hitler Gatzke looks anew at the economic miracle in West Germany and the consequences of making prosperity the cornerstone of a new republic

**The Sources Of Russian Foreign Policy After The Cold War** Celeste A Wallander, Anne Wildermuth, 2019-07-11 In this timely and pathbreaking volume scholars in comparative politics and international relations

build upon earlier theoretical work on the interaction of domestic and international systems applying it innovatively to the study of post Soviet Russian policy and conduct Individual chapters focus on regime type leadership politics interest group politics nationalism as ideology international conflict and threat and international economic opportunities and constraints The complex interplay between domestic and international factors is highlighted Exploring both the origins and the outcomes of Russian policy and behavior this book provides a telling measure of the direction and significance of political change since 1991

**Perception and Misperception in International Politics** Robert Jervis, 2017-05-02 Since its original publication in 1976 *Perception and Misperception in International Politics* has become a landmark book in its field hailed by the New York Times as the seminal statement of principles underlying political psychology This new edition includes an extensive preface by the author reflecting on the book's lasting impact and legacy particularly in the application of cognitive psychology to political decision making and brings that analysis up to date by discussing the relevant psychological research over the past forty years Jervis describes the process of perception for example how decision makers learn from history and then explores common forms of misperception such as overestimating one's influence He then tests his ideas through a number of important events in international relations from nineteenth and twentieth century European history *Perception and Misperception in International Politics* is essential for understanding international relations today

*Political Science Abstracts* IFI/Plenum Data Company staff, 2013-11-11 *Political Science Abstracts* is an annual supplement to the Political Science Government and Public Policy Series of The Universal Reference System which was first published in 1967 All back issues are still available

*Germany After Unification* Gert-Joachim Glaessner, 2023-11-27 German Monitor founded in 1979 is a series of themed edited volumes on literature culture and politics in the German speaking world since 1945 Our approach is inclusive some volumes focus on single authors political figures or genres other volumes explore themes such as narratives of trauma German left wing terrorism local global narratives and the roles that Germany Austria and Switzerland play in Europe today We welcome proposals for interdisciplinary volumes as well as those with a specifically literary cultural or political focus Many of our contributors are based in German Studies others in disciplines such as Comparative Literature Film Studies Musicology History Museum Studies and Political Science The book series has a system of double peer reviewing We publish volumes in German or English Authors are cordially invited to submit proposals to the publisher at BRILL Christa Stevens Questions about your manuscript and proposals can also be directed to the Editor in Chief Laura Bradley

**Handbook of International Relations** Walter Carlsnaes, Thomas Risse-Kappen, Thomas Risse, Beth A Simmons, 2002-03-13 NEW IN PAPERBACK FEBRUARY 2005 The most systematic and wide ranging survey of the multifaceted field of International Relations yet produced It is sure to become a standard reference work and teaching text and is unlikely to be superseded at any time in the near future It should be considered as essential reading International Affairs The *Handbook of International Relations* published 2002 in hardback quickly established itself as the benchmark volume

providing a state of the art review and indispensable guide to the study of international relations It is now released in paperback in order to be accessible to students in classroom use Divided into three parts the volume reviews both the historical philosophical analytical and normative roots to the discipline and the key contemporary topics of research and debate today The first part introduces the major approaches within the field and unpacks many of the on going debates within the discipline including those between rationalist and constructivist approaches The second part moves on to explore the key concepts and contextual factors important to the subject from concepts like the state and power to international and transnational actors debates around globalization and contending feminist perspectives The final part reviews a number of the key substantive issues in international relations and is designed to complement the analytical tools and perspectives presented in Parts I and II Examples of the many topics included are foreign policy war and peace security nationalism and ethnicity finance trade development the environment and human rights
