The Politics of Aid, Trade, and Investment Satish Raichur, Craig Liske, 1976 Approach by John H Petersen **Routledge**

Handbook of African Politics Nic Cheeseman, 2017-07-05 Providing a comprehensive and cutting edge examination of this important continent Routledge Handbook of African Politics surveys the key debates and controversies dealing with each of the major issues to be found in Africa's politics today Structured into 6 broad areas the handbook features over 30 contributions focused around The State Identity Conflict Democracy and Electoral Politics Political Economy Development International Relations Each chapter deals with a specific topic providing an overview of the main arguments and theories and explaining the empirical evidence that they are based on drawing on high profile cases such as the Democratic Republic of Congo Kenya Nigeria Somalia South Africa Rwanda and Zimbabwe The Handbook also contains new contributions on a wide range of topical issues including terrorism the growing influence of China civil war and transitional justice making it required reading for non specialists and experts alike Featuring both established scholars and emerging researchers this is a vital resource for all students of African Studies democratization conflict resolution and Third World politics China and Transboundary Water Politics in Asia Hongzhou Zhang, Mingjiang Li, 2017-12-14 Water related conflicts have a long history and will continue to be a global and regional problem Asia with 1.5 billion of its people living in shared river basins and with very few transboundary rivers governed by treaties is especially prone to such conflicts The key to mitigating transboundary water conflicts and advancing cooperation in Asia is largely in the hands of China the upstream country for most of Asia's major transboundary rivers To avert the looming water crisis apart from spending billions of dollars on domestic water transfer projects such as the South North Water Diversion Megaproject as well as on water conservancy and pollution abatement China has sought to utilize the water resources of the major rivers that run across borders with neighbouring countries On these transboundary rivers China has built or plans to build large dams for hydroelectricity and major water diversion facilities which has triggered anxiety and complaints from downstream countries and criticism from the international society This book aims to systematically examine the complex reality of water contestations between China and its neighbouring countries It provides a discussion on transboundary hydropolitics beyond the state centric geopolitical perspective to dig into various political institutional legal historical geographical and demographic factors that affect China's policies and practices towards transboundary water issues This book also provides a collection of comparative case studies on China's water resources management on the Mekong River with other five riparian states in the Lower Mekong region the Salween River with Myanmar the Brahmaputra River with India the Amur River with Russia and Mongolia the Ili and Irtysh Rivers with Kazakhstan and the Yalu and Tumen Rivers with North Korea Furthermore this book sheds light on China's future role in global water governance **The Political Economy of Underdevelopment in the Global South** Justin van der Merwe, Nicole Dodd, 2019-01-07 This book presents a new theory explaining underdevelopment in the global South and

tests whether financial inputs the government business media GBM complex and spatiotemporal influences drive human development Despite the entrance of emerging powers and new forms of aid trade and investment international political economic practices still support well established systems of capital accumulation to the detriment of the global South Global asymmetrical accumulation is maintained by affective consent forming hegemonic practices and infrastructural uneven economic exchanges labours and by power networks The message for developing countries is that robust GBMs can facilitate human development and development is constrained by spatiotemporal limitations This work theorizes that aid and foreign direct investment should be viewed with caution and that in the global South these investments should not automatically be assumed to be drivers of development *The Caribbean Basin Policy* United States. Congress. House. Committee on Foreign Affairs. Subcommittee on Inter-American Affairs,1981 American Foreign Policy Current Documents ,1983

India's Approach to Development Cooperation Sachin Chaturvedi,Anthea Mulakala,2016-04-14 India is emerging as a key player in the development cooperation arena not only because of the increasing volume and reach of its south south cooperation but more so because of its leadership and advocacy for the development of a distinctly southern development discourse and knowledge generation This book traces and analyses the evolution of Indian development cooperation It highlights its significance both to global development and as an effective tool of Indian foreign policy Focussing on how India has played an important role in supporting development efforts of partner countries in South Asia and beyond through its various initiatives in the realm of development cooperation the book tracks the evolution genesis and the challenges India faces in the current international context The contributions provide a rich mix of academic and government policy and practice Indian and external perspectives Theory is complemented with empirical research and case studies on countries and sectors as well as comparisons with other aid providing countries are presented The book is of interest to researchers and policy makers in the field of development cooperation the role of emerging powers from the South international development foreign policy and global political economy **Department of State Publication** ,1983 *Congress and the Politics of U.S. Foreign Economic Policy, 1929-1976* Robert A. approach Contributors to this volume explore a broad territory from multiple perspectives the influence of English country party ideology on late eighteenth century American political thought multiculturalism populism and environmentalism in Canada the ideological underpinnings of Canadian development assistance policy contemporary efforts to shape working class and farmer ideologies in western Canada and the interweaving of academic theory and ideology in game theory This stimulating volume offers empirical interpretations that break new ground and demonstrates the strength of interdisciplinary approaches to the study of political ideology **Annals of the American Academy of Political and Social Science** ,1928

The Annals of the American Academy of Political and Social Science ,1926 **Foreign Investments and Political Regimes** Oksan Bayulgen,2010 Political democratization and economic globalization have been two of the most important global trends of the past few decades But how are they connected Do the domestic political institutions affect a country s attractiveness to foreign investors Can countries that democratize attract relatively more foreign investments Drawing on three in depth case studies of oil rich countries and statistical analyses of 132 countries over three decades Oksan Bayulgen demonstrates that the link between democratization and FDI is nonlinear Both authoritarian regimes and consolidated democracies have institutional capabilities that though different are attractive to foreign investors Democracies can provide long term stability and authoritarian regimes can offer considerable flexibility The regimes that have started on the road to democracy but have not yet completed it tend to have political institutions that provide neither flexibility nor stability These hybrid regimes then also find it relatively more difficult to construct a policy environment that is attractive to foreign investments These findings have deep implications for the link between democratization and globalization but also how globalization may affect political social and economic development Provided by publisher [India Foreign Policy and Government Guide Volume 1 Strategic Information and Developments](#) IBP USA, *Challenges to China's Economic Statecraft* Yi Edward Yang,2019-08-09 Fueled by its surging economic strength China has been increasingly utilizing economic tools such as trade foreign aid foreign direct investment and sanctions to pursue strategic and security interests on the world stage This approach known as economic statecraft has thus far received mixed policy results and ambivalent reactions from the international community This book presents a collection of global assessments of China s economic statecraft The contributors to this volume answer three key questions What are the challenges faced by China s economic statecraft Why is China sometimes able to achieve its foreign policy objectives via economic statecraft and sometimes not How do foreign countries particularly the targets of China s economic statecraft respond to China s strategies This comprehensive study examines economic statecraft in the context of more than a dozen nations and international organizations across four continents thus providing a truly global perspective **THE CONSPIRACY AGAINST AFRICA** Charles Akujieze,2023-09-23 The Conspiracy Against Africa unveils a resonating truth that echoes across borders With insightful precision the book navigates the intricate reasons behind Africa s ongoing economic challenges and subjugation

Tracing the pages of history the narrative illuminates the complex interplay between the West and Africa Here Africa's path to prosperity is shackled by the West's unquenchable appetite for its resources This chokehold on Africa's raw materials keeps the global equilibrium but at what expense Unraveling layers of inefficiency ethical cracks and integrity gaps the book dissects Africa's relationship with the Western world It exposes vested interests that hold back progress with unyielding tenacity Yet within this stark analysis a call to arms resounds a rallying cry brimming with urgency and optimism inviting every African to reclaim their essence and dreams This stands as a pivotal turning point urging Africans to cast aside shadows that bind them seizing the reins of fate and forging a destiny that defies exploitation The Conspiracy Against Africa is more than a book it's an awakening an assertion of empowerment amidst suppression It lays bare truths long obscured inviting you on this narrative journey to reclaim Africa's story and usher in an era of empowerment justice and self determination
