Interpretations of intriguing traits such as body color stance hairstyle clothing jewelry hand gestures and handheld objects lend deep insight into the symbolism and roles of each goddess In addition to being a comprehensive reference this book traces the fascinating history of these goddesses as they evolved through the early Mahayana and Tantric movements in India and found a place in the pantheons of Tibet and Nepal Publisher's website [108 Buddhist Statues in Tibet](#) Ulrich von Schroeder, 2008 Mostly unknown to the outside world the temples and storerooms of Tibet's monasteries shelter a great number of ancient Buddhist objects including rare examples originating from India Pakistan Afghanistan Nepal Burma and China Hitherto books on this subject are almost exclusively illustrated with objects scattered worldwide in private or public collections A notable exception is the monumental two volume chronicle *Buddhist Sculptures in Tibet* published in 2001 by this author This book is a condensed edition introducing the very finest examples that illustrate the development of art in the round in Tibet Effectively acting as a catalogue it also serves to ensure the objects remain where they are The free DVD contains 527 digital images that can be freely used It is the hope of the author that other scholars will take use of this opportunity to publish some of these wonderful Buddhist sculptures

**Receptacle of the Sacred** Jinah Kim,2013-04-12 In considering medieval illustrated Buddhist manuscripts as sacred objects of cultic innovation Receptacle of the Sacred explores how and why the South Asian Buddhist book cult has survived for almost two millennia to the present A book manuscript should be understood as a form of sacred space a temple in microcosm not only imbued with divine presence but also layered with the memories of many generations of users Jinah Kim argues that illustrating a manuscript with Buddhist imagery not only empowered it as a three dimensional sacred object but also made it a suitable tool for the spiritual transformation of medieval Indian practitioners Through a detailed historical analysis of Sanskrit colophons on patronage production and use of illustrated manuscripts she suggests that while Buddhism s disappearance in eastern India was a slow and gradual process the Buddhist book cult played an important role in sustaining its identity In addition by examining the physical traces left by later Nepalese users and the contemporary ritual use of the book in Nepal Kim shows how human agency was critical in perpetuating and intensifying the potency of a manuscript as a sacred object throughout time **Buddhist Art** Charles F. Manuscript Cultures: Mapping the Field Jörg Quenzer, Dmitry Bondarev, Jan-Ulrich Sobisch, 2014-12-12 Script and writing were among the most important inventions in human history and until the invention of printing the handwritten book was the primary medium of literary and cultural transmission Although the study of manuscripts is already quite advanced for many regions of the world no unified discipline of manuscript studies has yet evolved which is capable of treating handwritten books from East Asia India and the Islamic world equally alongside the European manuscript tradition This book which aims to begin the interdisciplinary dialogue needed to arrive at a truly systematic and comparative approach to manuscript cultures worldwide brings together papers by leading researchers concerned with material philological and cultural aspects of different manuscript traditions

*The Bejewelled Buddha from India to Burma* Claudine Bautze-Picron, 2010-12-01 This book represents a comprehensive study of The Bejewelled Buddha considering stylistic as well as iconographic issues A crucial moment in the Buddha's life seems to have been referred to through this image namely the sojourn on Mount Meru where the Buddha sat on Indra's seat and taught all the gods By occupying the seat of the king of the gods he was able to endorse the royal function of this deity this becomes particularly evident in the late fifth century and probably reflects the dramatic situation that the Buddhist community was confronted with i.e. the political power essentially fostering the Hindu religion and social structure Hence the Buddha is depicted as a perfect and powerful ruler sitting at the top of the universe and showing himself adorned as a king more than any human ruler the Buddha rules over the universe There is also another dimension that should never be neglected as in any other Indian cult worship of his image entailed offerings of various kinds such as flower garlands or jewels being made to the Buddha The image of the Bejewelled Buddha thus included various constituents while at the same time it was used as the locus where different religious or political concepts found a way of expression The result was the creation of an image of multi-layered significance which found its way into all Asian cultures
