American Art Ann Arbor Art Association, 1910 Lost Kingdoms: Hindu-Buddhist Sculpture of Early Southeast Asia Guy, John, 2014-04-07 A fresh and exciting exploration of Southeast Asian history from the 5th to 9th century seen through the lens of the region's sculpture Kingdom of Beauty Kim Brandt, 2007-07-20 A Study of the Weatherhead East Asian Institute Columbia University Kingdom of Beauty shows that the discovery of mingei folk art by Japanese intellectuals in the 1920s and 1930s was central to the complex process by which Japan became both a modern nation and an imperial world power Kim Brandt's account of the mingei movement locates its origins in colonial Korea where middle class Japanese artists and collectors discovered that imperialism offered them special opportunities to amass art objects and gain social cultural and even political influence Later mingei enthusiasts worked with and against other groups such as state officials fascist ideologues rival folk art organizations local artisans newspaper and magazine editors and department store managers to promote their own vision of beautiful prosperity for Japan Asia and indeed the world In tracing the history of mingei activism

Brandt considers not only Yanagi Muneyoshi Hamada Shoji Kawai Kanjir and other well known leaders of the folk art movement but also the often overlooked networks of provincial intellectuals craftspeople marketers and shoppers who were just as important to its success The result of their collective efforts she makes clear was the transformation of a once obscure category of pre industrial rural artifacts into an icon of modern national style
