Narasin, 1989 Even in Japan with its rich tradition of textile art handcrafted textiles are rapidly becoming a rarity as they are replaced by mass produced bolts of cloth that can never duplicate the feel or vibrancy of those created by the personal touch of a master craftsman with an original idea The importance of obtaining just the right shade of indigo blue or artfully stenciling on a flower or a cloud or weaving a fabric so that it appears as richly decorated as a tapestry all make for the allure of Japanese fabrics Whether for a kimono a sash or a coat cloth in Japan is woven dyed and embroidered with infinite care The professional pride and craft techniques of the Japanese have resulted in visual and tactile masterpieces and Japanese textile craftsmen are deservedly ranked among the most skilled in the world Thankfully even during the breathtaking modernization of Japan a small number of artists and craftsmen are struggling to keep this ancient art alive The Japanese have traditionally viewed textiles as an embodiment of not only beauty but as family heirlooms and repositories of history making the study of Japanese fabric a door into another culture another people another time In Textile Art of Japan Sunny Yang and Rochelle Narasin venture through that door inviting the reader to follow them They start with a brief but informative history of those most typical forms of Japanese dress

the kimono and the obi and then move on to introduce the techniques of dyeing weaving and needlework that distinguish Japanese textiles discussing their traditions practical methods and use of different types of fabric      *The Art of Critical Making* Rosanne Somerson,Mara Hermano,2013-09-11 Describes the world s leading approach to art and design taught at Rhode Island School of Design At Rhode Island School of Design students are immersed in a culture where making questions ideas and objects using and inventing materials and activating experience all serve to define a form of critical thinking albeit with one s hands i e critical making The Art of Critical Making by RISD faculty and staff describes fundamental aspects of RISD s approach to critical making and how this can lead to innovation The process of making taught at RISD is deeply introspective passionate and often provocative This book illuminates how RISD nurtures the creative process from brief or prompt to outcome along with guidance on the critical questions and research that enable making great works of art and design Explores the conceptual process idea research critical questions and iteration that RISD faculty employ to educate students to generate thoughtful work Authors are from the faculty and staff of the Rhode Island School of Design which consistently ranks as the number one fine arts and design college in the United States The Art of Critical Making shows you how context materials thought processes and self evaluation are applied in this educational environment to prepare creative individuals to produce dynamic memorable and meaningful works      **Japanese Costume & Makers** Helen
