The Regional Travel Guide for

Southern China (China) , Alaska Traveler T Terpening, Traveler Terpening, 2010-06-15. The only guide to feature the destinations in Alaska accessible by rail, car and ferry, written by an author who grew up in Alaska and continues to live there today.

Melbourne, Victoria & Tasmania Holly Smith, 2010-09-14. The author, a native Australian, covers everything you might want to know about Australia, guaranteed. The places to stay, from budget to luxury, rentals to B&Bs, the restaurants, from fast food to the highest quality, the beachwalks and bushwalks, the wildlife and how to see it, exploring the country by air, on water, by bike and every other way. Following are a few excerpts from the guide. The gathering of landscapes within the compact state of Victoria seem as if a giant had taken different pieces from around the continent, squashed them together and shaken them up, and then tossed them to let them fall where they may. The awesome wave-lashed coastal edges are among the state's classic sights, with crumpled pillars of orange rock stacked tall out in the water. Where the shores aren't rough, the beaches are silky and white as soft and tame as a kitten, with cold but gentle waters. Behind this edge are thick

patches of temperate rainforests leading up into drier locales including inland deserts an unmade bed of mountain foothills and folds and smooth river marshes and plains You d never expect that much of the terrain here was once actually volcanic resulting in wild peaks bluffs and valleys throughout the center There s 227 600 sq km of land in the state and the Great Dividing Range arches through the center of it with major collections of peaks in the Dandenongs and Macedons The highest summits are in the east at 1 986 m 6 514 ft Mt Bogong and 1 922 m 6 304 ft Mt Feathertop and snowfields are found throughout the northeastern Australian Alps from June to September Hemming in the land are 1 800 km 1 116 mi of coastlines along the Bass Strait and the Southern Ocean with Melbourne and Geelong fronting the central cut inland to Port Phillip Bay This is a cool state akin to the Pacific Northwest or the lower New England states of the U S with warm summers but chilling wet winters Some regions do dip below freezing namely the northeastern mountains while the Gippsland highlands in the east and the western Otway Ranges see more rain than anywhere else Skip a couple hours south or west and you ll hit the arid Mallee region and the Little Desert and Big Desert national park areas Farmlands fill in the gaps where orchards and vineyards are filled with apples grapes oranges and other citrus fruits Main crops are grains and vegetables the fields fronting huge dairy farms or sheep and cattle ranches Tasmania is offshore from Victoria The name Tasmania is one of the world s most intriguing and it rightfully sounds such as one of the most fascinating places on earth And yes it s a heck of a journey to reach this offshore Australian state but once you re here if you re adventurous you won t want to leave Indeed the island state of Tasmania is ripe for adventure A heart shaped mountainous landmass 298 km 185 mi southeast of the main Australian continent it s covered with forests threaded with rivers and edged by wild rugged beaches and bays Its wilderness comprises an international Heritage Site of its own filled with some of the world s oldest and most unusual plants animals that are found nowhere else on earth rock formations that span every geological era and among the longest underground tunnels ever found The capital of Hobart where almost half the island s residents live is tucked into the southeastern edge and the sleepy northern ferry town of Devonport brings in visitors from the mainland No one ventures far though which leaves the majority of the island open to exploring and free of crowds even at the loveliest of national wonders such as Tasman National Park in the southeast Freycinet National Park in the east and Franklin Gordon Wild Rivers National Park in the west

Peru's Southern Coast Nicholas Gill, 2010 Peru is one of the most diverse and fascinating countries on the planet Of the 117 life zones on earth 84 can be found here Because of this Peru s flora and fauna is some of the most unusual on earth Scientists are only beginning to grasp just how many species exist and how many are still likely to be discovered Large areas of rainforest and mountains remain unexplored It was only in the past few decades that research began on the canopy tops the upper levels of the rainforest which have opened up a whole new world of plant and wildlife As far as history goes there is more here than anywhere else in the Americas Most have heard of the Incas and Machu Picchu but there were many large civilizations here long before the Incas the Chav n Chimu Moche Wari Nazca and Paracas Each

group left their mark on the country in some way and their achievements artifacts and architecture are more impressive in many ways than that of the Incas Highlights of the Southern Coast Wine and Pisco tasting OCo Sample the world s largest Pisco producing region and some of the finest wine Peru has to offer Islas Ballestas OCo See seals frigate birds and Humboldt penguins in the poor man s Galapagos Santa Catalina Monastery OCo Walk through the secluded city within a city one of Peru s most revered Catholic landmarks Nazca Lines OCo Take a gut wrenching flight in a five seater plane for the best view of the Nazca lines The Nazca Lines 22 km 13 miles north of Nazca were made by removing the darker sun baked stones and piling them on either side of the line exposing the lighter soil Why the lines were made is still open to much debate but scientists have a fairly good idea of who made them The Paracas and Nazca peoples are believed to have created the lines between 900 BC to 600 AD It is also believed that the Huari settlers from Ayacucho made some additions in the seventh century There are literally hundreds of lines and geometric shapes that stretch for miles but the animals such as a monkey dog spider whale and several birds including a hummingbird with a wingspan of over 100 yards are the most well known There are also images of a tree hands and what is thought by some to be an astronaut Adventure OCo Trek Colca Canyon climb El Misti or raft in Cotahuasi This guide includes full details on where to stay and eat in Southern Peru plus what to see and do Also included is an extensive introduction to Peru as a whole with information about the history and culture of the country the cuisine the arts the people the flora fauna the parks reserves and the 20 top adventures
